creature of the night kate thompson: Irish Children's Literature and Culture Keith O'Sullivan, Valerie Coghlan, 2011-03-17 Irish Children's Literature and Culture looks critically at Irish writing for children from the 1980s to the present, examining the work of many writers and illustrators and engaging with major genres, forms, and issues, including the gothic, the speculative, picturebooks, ethnicity, and globalization. It contextualizes modern Irish children's literature in relation to Irish mythology and earlier writings, as well as in relation to Irish writing for adults, thereby demonstrating the complexity of this fascinating area. What constitutes a national literature is rarely straightforward, and it is especially complex when discussing writing for young people in an Irish context. Until recently, there was only a slight body of work that could be classified as Irish children's literature in comparison with Ireland's contribution to adult literature in the twentieth century. The contributors to the volume examine a range of texts in relation to contemporary literary and cultural theory, and children's literature internationally, raising provocative questions about the future of the topic. Irish Children's Literature and Culture is essential reading for those interested in Irish literature, culture, sociology, childhood, and children's literature. creature of the night kate thompson: Discourses of Home and Homeland in Irish Children's Fiction 1990-2012 Ciara Ní Bhroin, 2021-05-22 In the context of changing constructs of home and of childhood since the mid-twentieth century, this book examines discourses of home and homeland in Irish children's fiction from 1990 to 2012, a time of dramatic change in Ireland spanning the rise and fall of the Celtic Tiger and of unprecedented growth in Irish children's literature. Close readings of selected texts by five award-winning authors are linked to social, intellectual and political changes in the period covered and draw on postcolonial, feminist, cultural and children's literature theory, highlighting the political and ideological dimensions of home and the value of children's literature as a lens through which to view culture and society as well as an imaginative space where young people can engage with complex ideas relevant to their lives and the world in which they live. Examining the works of O. R. Melling, Kate Thompson, Eoin Colfer, Siobhán Parkinson and Siobhán Dowd, Ciara Ní Bhroin argues that Irish children's literature changed at this time from being a vehicle that largely promoted hegemonic ideologies of home in post-independence Ireland to a site of resistance to complacent notions of home in Celtic Tiger Ireland.

creature of the night kate thompson: The Making of Modern Children's Literature in Britain Lucy Pearson, 2016-03-03 Lucy Pearson's lively and engaging book examines British children's literature during the period widely regarded as a 'second golden age'. Drawing extensively on archival material, Pearson investigates the practical and ideological factors that shaped ideas of 'good' children's literature in Britain, with particular attention to children's book publishing. Pearson begins with a critical overview of the discourse surrounding children's literature during the 1960s and 1970s, summarizing the main critical debates in the context of the broader social conversation that took place around children and childhood. The contributions of publishing houses, large and small, to changing ideas about children's literature become apparent as Pearson explores the careers of two enormously influential children's editors: Kaye Webb of Puffin Books and Aidan Chambers of Topliner Macmillan. Brilliant as an innovator of highly successful marketing strategies, Webb played a key role in defining what were, in her words, 'the best in children's books', while Chambers' work as an editor and critic illustrates the pioneering nature of children's publishing during this period. Pearson shows that social investment was a central factor in the formation of this golden age, and identifies its legacies in the modern publishing industry, both positive and negative.

creature of the night kate thompson: Irish Childhoods Pádraic Whyte, 2011-05-25 While much has been written about Irish culture's apparent obsession with the past and with representing childhood, few critics have explored in detail the position of children's fiction within such discourses. This book serves to redress these imbalances, illuminating both the manner in which children's texts engage with complex cultural discourses in contemporary Ireland and the significant contribution that children's novels and films can make to broader debates concerning Irish identity at the end of the twentieth and beginning of the twenty-first centuries. Through close analysis of specific books and films published or produced since 1990, *Irish Childhoods* offers an insight into contrasting approaches to the representation of Irish history and childhood in recent children's fiction. Each chapter interrogates the unique manner in which an author or filmmaker engages with twentieth century Irish history from a contemporary perspective, and reveals that constructions of childhood in Irish children's fiction are often used to explore aspects of Ireland's past and present.
