**old singer sewing machine manuals: *User Unfriendly*** Joseph J. Corn, 2011-11-01 We've all been there. Seduced by the sleek designs and smart capabilities of the newest gadgets, we end up stumped by their complicated set-up instructions and exasperating error messages. In this fascinating history, Joseph J. Corn maps two centuries of consumer frustration and struggle with personal technologies. Aggravation with the new machines people adopt and live with is as old as the industrial revolution. Clocks, sewing machines, cameras, lawn mowers, bicycles, electric lights, cars, and computers: all can empower and exhilarate, but they can also exact a form of servitude. Adopters puzzle over which type and model to buy and then how to operate the device, diagnose its troubles, and meet its insatiable appetite for accessories, replacement parts, or upgrades. It intrigues Corn that we put up with the frustrations our technology thrusts upon us, battling with the unfamiliar and climbing the steep learning curves. It is this ongoing struggle, more than the uses to which we ultimately put our machines, that animates this thought-provoking study. Having extensively researched owner's manuals, computer user-group newsletters, and how-to literature, Corn brings a fresh, consumer-oriented approach to the history of technology. *User Unfriendly* will be valuable to historians of technology, students of American culture, and anyone interested in our modern dependence on machines and gadgets.

**old singer sewing machine manuals: *How to Make a Mao Suit*** Antonia Finnane, 2023-08-03

When the People's Republic of China was founded in 1949, new clothing protocols for state employees resulted in far-reaching changes in what people wore. In a pioneering history of dress in the Mao years (1949–1976), Antonia Finnane traces the transformation, using industry archives and personal stories to reveal a clothing regime pivoted on the so-called 'Mao suit'. The time of the Mao suit was the time of sewing schools and sewing machines, pattern books and homemade clothes. It was also a time of close economic planning, when rationing meant a limited range of clothes made, usually by women, from limited amounts of cloth. In an area of scholarship dominated by attention to consumption, Finnane presents a revisionist account focused instead on production. *How to Make a Mao Suit* provides a richly illustrated account of clothing that links the material culture of the Mao years to broader cultural and technological changes of the twentieth century.

**old singer sewing machine manuals:** *Feet First* Walter A. Baran, 2003 This is a story of a first generation son of immigrant parents who came to America after the turn-of-the-century in the early 1900's. It traces the life of a boy who never lost sight of who he was or what was expected of him. His formative years were spent during the great depression in an area that had little to offer but where much was expected even when the going proved difficult. It is a story that disguises pathos as humor even though the humor is genuine. It portrays a life fraught with difficulty but where each difficulty is overcome by sheer force of willpower. The writer displays affection for his mother by portraying a person of such great strength and character that one must imagine a giant only to find a thin aging woman barely five feet tall. Each segment of the story has its own unique appeal. One episode dealing with the writer's description of life at a CCC camp is especially compelling. It deals with Polish/American boys interacting with the Catholic Church three thousand miles from home and is sure to bring a tear to the eye of even the hardest heart. Although the entire piece is essentially esoteric it has meaning and purpose to anyone who survived that era. . . . Reviewed by Tom Topolski

He's notorious for his reckless ways with women. What could possibly go wrong? Kate Bennet owns a small bookstore in the breathtaking Central Coast town of Cambria, California. Two years out from a divorce that left her emotionally fragile, she's starting to think that maybe she's ready for love again—or at least for a fling with a hot man. Jackson Graham is a local chef who's controlling when it comes to food, careless when it comes to love, and temperamental when it comes to just about everything. When Kate's friends set things up between Kate and Jackson, she expects some casual pleasure followed by a hasty goodbye, but Jackson's long-term crush on Kate means that he's in this one to win. The problem is, neither he nor Kate knows whether he can change the self-defeating habits that usually send women scurrying for the door. *Cambria Sky*: A ruined reputation. A second chance. A conflict between love and ambition. Genevieve Porter was forced to flee the art world of Manhattan after she blew the whistle on the shady practices of a powerful dealer. Now she owns a small gallery in the scenic beach town of Cambria, California. For Gen, this is a place to regroup; she's poised to restore her name in the art world and return to New York in triumph. When she meets Ryan Delaney, a cattle rancher who's more than he appears to be, she's ready for a sexy roll in the hay—literally. But as her feelings for him become more than casual, she realizes that his roots on the Central Coast go back generations, and it's going to be a challenge to lure him away from his family's land. If they're going to make a life together, one of them will have to give up old ideas, old goals—old feelings about what success means, and what makes a place a true home. *Nearly Wild*: She's finished with men. But after a phony date with doctoral candidate Will Bachman—concocted to help him save his ego in front of an

ex-girlfriend—Rose realizes that the possibility of true love is perhaps the scariest thing she's ever had to face. Fire and Glass: She's engaged to a man with a promising future. But even as she makes plans to say "I do," another man is hoping that she won't.... It wasn't easy for Lacy Jordan to watch her best friends get paired off one by one, while she was still single and toiling away at a low-paying job. Maybe that's how she ended up engaged to her mother's chiropractor—a man who looks good on paper, but whose stiff manner and controlling ways leave Lacy cold. When steamy-hot glass artist Daniel Reed rescues Lacy from a dicey situation, she finds herself feeling things for him that she's never felt for another man. But Daniel's reluctance to accept her love—and everything that comes with it—means he's the one who needs an adjustment, before both of their hearts are shattered.

**old singer sewing machine manuals: Gendered Capitalism** Paula De La Cruz-Fernández, 2021-05-05 Gendered Capitalism: Sewing Machines and Multinational Business in Spain and Mexico, 1850-1940 is a history of the gendered corporation, a study that examines how ideas and ideals about domesticity and the cultures of sewing and embroidery, being gender-specific, shaped the US-headquartered Singer Sewing Machine Company's operations around the world. In contrast to production-driven and culture-neutral analyses of the multinational enterprise, this book focuses on both the supply and the demand side to argue that consumers and the cultural worlds of those—mainly women—using the sewing machine for personal purposes or for the market shaped corporate organization. This book is a global history of Singer, but it also focuses on the cases of Spain and Mexico to highlight nations where the sewing machine multinational never established manufacturing operations. Casa Singer was a mostly profitable and a long-term selling and marketing operation in both countries. Gendered Capitalism demonstrates that local Spanish and Mexican agents, both men and women, developed and expanded Singer's selling system to the extent that the multinational company was seen as domestic, both in the location sense, and because of its focus on the private sphere of the home. By bringing the cases of Spain and Mexico, and the cultural, everyday realm of practices related to sewing and embroidery that the sewing machine was part of, to the center of the study of international business, Gendered Capitalism further reveals the layers of complexities and multitudes that conform the history of global capitalism. This book will be of interest to readers and scholars in the fields of business history, economic cultural history, management studies, international business, women's history, gender studies, and the history of technology.
