

lose 50 pounds in 2 months diet plan

Lose 50 Pounds in 2 Months Diet Plan: A Realistic Approach to Rapid Weight Loss

lose 50 pounds in 2 months diet plan — it's a phrase that catches the eye of many who are eager to transform their bodies quickly. Dropping such a significant amount of weight in a short period sounds like a daunting challenge, and it is. However, with the right strategy, mindset, and nutritional guidance, it's possible to achieve impressive results safely. This article explores how to craft an effective lose 50 pounds in 2 months diet plan that balances rapid fat loss with health and sustainability.

Understanding the Challenge: Is Losing 50 Pounds in 2 Months Feasible?

Before diving into the specifics of a diet plan, it's essential to grasp the reality behind losing 50 pounds in just eight weeks. Generally, health experts recommend a weight loss rate of 1 to 2 pounds per week for sustainable results. Losing 50 pounds in 2 months equates to about 6 pounds per week, which is substantially higher and requires a more aggressive approach.

That said, people with higher starting weights or those following medically supervised programs may achieve faster initial losses, especially by reducing water weight and body fat simultaneously. However, this kind of rapid weight loss must be approached cautiously to avoid nutritional deficiencies, muscle loss, and other health issues.

Calorie Deficit: The Core Principle

At the heart of any weight loss journey is creating a calorie deficit — consuming fewer calories than your body burns. To lose one pound of fat, you generally need to create a deficit of about 3,500 calories. Losing 50 pounds means a total deficit of approximately 175,000 calories over two months.

Breaking this down:

- $175,000 \text{ calories} \div 60 \text{ days} = \text{about } 2,917 \text{ calories deficit per day.}$

This level of deficit is extreme and difficult to maintain without professional guidance, but it highlights how crucial it is to combine diet adjustments with physical activity and lifestyle changes.

Key Components of an Effective Lose 50 Pounds in 2 Months Diet Plan

When your goal is rapid weight loss, the diet plan must be carefully structured to maximize fat burning while preserving muscle and overall health.

1. Focus on High-Protein Intake

Protein is essential during weight loss because it helps:

- Preserve lean muscle mass.
- Increase satiety, making you feel fuller longer.
- Boost metabolism through the thermic effect of food.

Aim for about 1.2 to 1.5 grams of protein per pound of your target body weight daily. Good sources include lean meats, fish, eggs, low-fat dairy, legumes, and plant-based proteins like tofu and tempeh.

2. Low-Carb, High-Fiber Vegetables

Reducing carbohydrates can speed up fat loss by lowering insulin levels and encouraging the body to burn stored fat. Incorporate plenty of non-starchy vegetables such as spinach, broccoli, cauliflower, zucchini, and bell peppers. These are low in calories but high in fiber, aiding digestion and keeping hunger at bay.

3. Healthy Fats in Moderation

Don't shy away from fats altogether. Healthy fats from sources like avocados, nuts, seeds, and olive oil support hormone production and brain health. They also promote satiety but should be consumed in controlled portions due to their high calorie density.

4. Meal Timing and Frequency

Some people find success with intermittent fasting or eating smaller, more frequent meals to manage hunger and stabilize blood sugar levels. For example, adopting a 16:8 fasting protocol — eating during an 8-hour window and fasting for 16 hours — can help reduce overall calorie intake without feeling deprived.

Sample Daily Meal Plan for Rapid Weight Loss

Here's a practical example of what a day might look like on a lose 50 pounds in 2 months diet plan:

- **Breakfast:** Scrambled eggs with spinach and tomatoes cooked in olive oil, plus a small avocado slice.
- **Snack:** Greek yogurt with a handful of mixed berries and chia seeds.
- **Lunch:** Grilled chicken breast with a large mixed green salad topped with cucumber, carrots,

and a lemon vinaigrette.

- **Snack:** Celery sticks with almond butter.
- **Dinner:** Baked salmon with roasted broccoli and cauliflower rice.
- **Hydration:** Plenty of water throughout the day, herbal teas, and avoiding sugary drinks.

Incorporating Exercise to Accelerate Fat Loss

While diet is paramount, combining it with a consistent exercise routine can enhance results significantly.

Cardiovascular Workouts

Engaging in cardio activities such as brisk walking, jogging, cycling, or swimming helps burn calories and improves heart health. Aim for at least 30-45 minutes of moderate to high-intensity cardio 4-5 times per week.

Strength Training

Building muscle through strength training exercises like weightlifting or bodyweight workouts is crucial for maintaining metabolism. Muscle tissue burns more calories at rest than fat, so preserving muscle mass during rapid weight loss is vital.

High-Intensity Interval Training (HIIT)

HIIT workouts alternate short bursts of intense exercise with periods of rest or low-intensity movement. This approach can burn a lot of calories in a shorter time and improve cardiovascular fitness.

Additional Tips for Maximizing Success

- **Track Your Progress:** Use a journal or app to log food intake, exercise, and weight changes. This creates accountability and helps identify what's working.
- **Prioritize Sleep:** Aim for 7-9 hours per night. Poor sleep can disrupt hormones related to hunger and fat storage.

- **Manage Stress:** Chronic stress increases cortisol, which can promote fat storage, especially around the abdomen. Incorporate relaxation techniques such as meditation or yoga.
- **Stay Consistent:** Rapid weight loss requires dedication. Avoid fad diets and focus on sustainable habits that support your health long-term.

When to Seek Professional Guidance

Attempting to lose 50 pounds in 2 months is an aggressive goal that may not be suitable for everyone. Consulting a healthcare provider, registered dietitian, or certified fitness professional can ensure your plan is safe and tailored to your unique needs. They can monitor your progress, adjust your diet and exercise regimen, and help prevent complications.

Achieving such a dramatic transformation requires a comprehensive approach that combines a carefully designed diet, regular physical activity, and lifestyle adjustments. While the journey might be challenging, the rewards extend beyond just the number on the scale—improved energy, confidence, and overall well-being await those who commit to the process with patience and care.

Frequently Asked Questions

Is it safe to lose 50 pounds in 2 months with a diet plan?

Losing 50 pounds in 2 months is an aggressive goal and generally not considered safe or sustainable by health professionals. A healthy weight loss rate is about 1-2 pounds per week. Rapid weight loss can lead to muscle loss, nutritional deficiencies, and other health issues.

What kind of diet plan can help lose 50 pounds in 2 months?

A diet plan aiming to lose 50 pounds in 2 months would likely involve a very low-calorie intake combined with high protein, low carbohydrates, and healthy fats. However, such extreme plans should only be undertaken under medical supervision to ensure safety and nutritional balance.

What role does exercise play in losing 50 pounds in 2 months?

Exercise is crucial for weight loss and overall health. Combining a calorie deficit diet with regular cardio and strength training exercises can help maximize fat loss while preserving muscle mass. However, exercise alone is unlikely to achieve such rapid weight loss without dietary changes.

Are there any risks associated with rapid weight loss in 2 months?

Yes, rapid weight loss can cause gallstones, dehydration, electrolyte imbalances, fatigue, and loss of muscle mass. It may also negatively affect metabolism and mental health. Consulting a healthcare provider before starting any extreme diet plan is important.

How can one ensure nutritional balance while trying to lose 50 pounds quickly?

To maintain nutritional balance during rapid weight loss, it's important to consume a variety of nutrient-dense foods, including lean proteins, vegetables, fruits, whole grains, and healthy fats. Supplementation and monitoring by a dietitian or healthcare provider can help prevent deficiencies.

What are healthier alternatives to losing 50 pounds in 2 months?

A healthier alternative is to set realistic goals, such as losing 1-2 pounds per week through a balanced diet and regular exercise. This approach supports long-term weight maintenance, reduces health risks, and promotes sustainable lifestyle changes.

****Effective Strategies to Lose 50 Pounds in 2 Months Diet Plan: A Critical Review****

lose 50 pounds in 2 months diet plan is a goal that many individuals aspire to achieve, especially when looking for rapid weight loss solutions. However, such an ambitious target requires a careful and informed approach to ensure safety, sustainability, and the overall well-being of the individual. This article investigates the feasibility of losing 50 pounds in just two months through diet plans, analyzing the science behind aggressive weight loss, potential risks, and practical strategies that can be employed.

Understanding the Basics of Rapid Weight Loss

The human body's ability to shed weight depends primarily on creating a caloric deficit—burning more calories than consumed. A pound of fat roughly equates to 3,500 calories; therefore, to lose 50 pounds, one must theoretically burn 175,000 calories more than they consume over the course of two months. This translates to a daily deficit of approximately 2,916 calories. Given that average daily caloric needs range from 1,800 to 2,500 calories depending on gender, age, and activity level, achieving this deficit through diet alone is extraordinarily challenging and potentially unsafe.

The Science Behind Rapid Weight Loss

Rapid weight loss often involves a combination of caloric restriction, increased physical activity, and metabolic changes. While some individuals may experience initial rapid drops in weight due to water loss and depletion of glycogen stores, sustained fat loss at the rate of more than 6 pounds per week is uncommon and can be harmful.

Medical experts typically recommend losing 1 to 2 pounds per week, considering this to be a safe and sustainable rate. Losing 50 pounds in two months implies losing over 6 pounds weekly, which exceeds these guidelines and may lead to muscle loss, nutritional deficiencies, and metabolic slowdown.

Components of a Lose 50 Pounds in 2 Months Diet Plan

Despite the challenges, some structured diet plans aim to help individuals achieve rapid weight loss under medical supervision. These plans integrate strict dietary control, exercise regimens, and lifestyle modifications.

Caloric Intake and Macronutrient Balance

A diet plan designed for rapid weight loss generally involves a significant reduction in caloric intake, often ranging from 800 to 1,200 calories per day in medically supervised cases. Such low-calorie diets (LCDs) or very low-calorie diets (VLCDs) typically emphasize:

- High protein intake to preserve lean muscle mass
- Limited carbohydrates to reduce insulin spikes and promote fat burning
- Healthy fats to support hormonal balance and satiety
- Essential vitamins and minerals to prevent deficiencies

For example, a sample day might include lean meats, fish, leafy greens, non-starchy vegetables, nuts, and seeds while excluding processed foods, sugars, and refined grains.

Meal Timing and Frequency

Intermittent fasting or time-restricted eating patterns are often incorporated into aggressive diet plans to enhance fat loss. Eating within an 8-hour window while fasting for 16 hours may improve insulin sensitivity and increase fat oxidation. However, when combined with an extremely low-calorie intake, care must be taken to avoid hypoglycemia and fatigue.

Exercise and Physical Activity

Physical activity is a critical adjunct to any weight loss plan. Cardio exercises such as walking, cycling, and swimming can increase daily caloric expenditure. Meanwhile, resistance training helps maintain muscle mass, which is crucial for sustaining metabolic rate during rapid weight loss.

A lose 50 pounds in 2 months diet plan often includes daily exercise sessions ranging from 30 to 60 minutes. However, overtraining should be avoided as it can lead to injuries and burnout.

Risks and Considerations

While the desire to lose 50 pounds in two months is understandable, it is essential to weigh the risks associated with such rapid weight loss.

Potential Health Risks

- **Muscle Loss:** Rapid weight loss can result in significant muscle breakdown, which negatively impacts metabolism.
- **Nutritional Deficiencies:** Severely restricted diets may lack essential nutrients, leading to fatigue, hair loss, and weakened immunity.
- **Gallstones:** Rapid fat loss increases the risk of gallstone formation.
- **Metabolic Adaptive Response:** Extreme calorie deficits may slow metabolism, making future weight maintenance difficult.
- **Psychological Impact:** Strict dieting can cause stress, mood swings, and disordered eating behaviors.

Who Should Avoid Extreme Diet Plans?

Individuals with pre-existing medical conditions such as diabetes, heart disease, or kidney problems should avoid aggressive weight loss plans without professional guidance. Pregnant or breastfeeding women should also refrain from rapid weight loss diets.

Comparing Popular Diet Plans for Rapid Weight Loss

There are several diet plans that claim to help lose significant weight in a short period. An investigative look at some of the popular options reveals varied approaches and effectiveness.

Keto Diet

The ketogenic diet emphasizes a very low carbohydrate intake and high fat consumption to induce ketosis, a metabolic state where the body burns fat for fuel. While many have reported rapid initial weight loss on keto, the sustainability and long-term safety of such diets remain debated in the scientific community.

Intermittent Fasting

Intermittent fasting cycles between periods of eating and fasting. It can lead to caloric restriction and improved metabolic health. However, its success depends greatly on the quality of food consumed during feeding periods.

Low-Calorie and Very Low-Calorie Diets (LCDs and VLCDs)

These diets involve strict calorie limits, often supplemented with meal replacement shakes to ensure nutrient adequacy. They have been demonstrated to produce rapid weight loss under medical supervision but are not suitable for unsupervised or long-term use.

Practical Tips for Those Pursuing Rapid Weight Loss

If an individual chooses to pursue a lose 50 pounds in 2 months diet plan, the following practices can enhance safety and effectiveness:

1. **Consult a Healthcare Professional:** Before starting, seek medical advice to rule out contraindications and receive personalized guidance.
2. **Prioritize Nutrient-Dense Foods:** Focus on whole foods rich in vitamins, minerals, and fiber.
3. **Stay Hydrated:** Adequate water intake supports metabolism and reduces hunger.
4. **Incorporate Regular Exercise:** Combine cardio and strength training for optimal results.
5. **Monitor Progress:** Track weight, body composition, and overall health indicators.
6. **Adjust as Needed:** Be flexible to modify the plan based on how the body responds.

Final Reflections on Losing 50 Pounds in 2 Months

The concept of a lose 50 pounds in 2 months diet plan is alluring but carries significant challenges and risks. Sustainable weight management typically requires gradual lifestyle changes rather than extreme caloric restriction. While medically supervised programs may achieve rapid results safely, self-directed attempts can compromise health and lead to rebound weight gain.

Ultimately, the most successful weight loss strategies combine balanced nutrition, consistent physical activity, adequate rest, and psychological support. Individuals aiming for substantial weight reduction should prioritize long-term wellness over rapid results, ensuring that their approach fosters not only weight loss but also overall health and vitality.

lose 50 pounds in 2 months diet plan: Eat Clean, Stay Lean: The Diet The Editors of Prevention, Wendy Bazilian, 2016-12-20 The easiest way to get slim, healthy, and happy: clean eating You've seen it in magazines and all over the Internet: clean eating, the super easy and delicious way to slim down and achieve better health. Clean eating offers you a more sustainable and nourishing way to eat--without skimping on flavor or leaving you hungry. And now, you can take clean eating to a new level with the next book in Prevention magazine's Eat Clean series: Eat Clean, Stay Lean: The Diet. This book will teach you to leverage clean eating--instead of counting calories, going carb-free, or adopting restrictive habits--to help you lose weight while still enjoying life. Choose the easy 3-week plan or stick with the program longer, as Eat Clean, Stay Lean: The Diet helps you customize clean eating to fit your individual needs, deliciously. The 70 clean and tasty recipes will keep you satisfied and on track with your weight-loss goals. These meals, combined with exercise tips and advice on removing everyday, metabolism-messing toxins from your home and personal care products, will help you adopt a cleaner overall lifestyle. Now, clean eating and losing weight are easier--and more rewarding--than ever before.

lose 50 pounds in 2 months diet plan: The 2-Day Diet Sarí Harrar, Editors Of Prevention Magazine, 2013-05-28 Based on the latest scientific research, The 2-Day Diet is a dieter's dream come true. Diet for just 2 days a week and lose more pounds, more inches, more body fat, and more belly fat than you would on conventional pounds-off plans! Our test panelists lost an average of 9.1 pounds--and 10.9 inches--in just 6 weeks! And you can, too, with the easiest weight-loss plan ever. • It's flexible! Can't diet today? No problem. Do it tomorrow. • It's easy! A simple 2-day-a-week diet with quick recipes--and a healthy eating plan for the other 5 days. • It's permanent! Includes a healthy plan you can follow for life. No more lose 10 pounds, gain 15. Avoid regain and stay trim and healthy forever. • It's super-efficient! A quick, twice-a-week exercise program to help you melt inches while you drop pounds. • It's healthy! Our test panelists saw big improvements in blood sugar, cholesterol, triglycerides, and blood pressure level--lowering the risk for cancer, diabetes, heart disease, and more.

lose 50 pounds in 2 months diet plan: The ProportionFit Diet for Meal Measure Nicholas Meyer, 2015-03-21 The original book, The ProportionFit Diet, has been adapted to accompany Meal Measure, a tool for measuring portions by the cup. Dieting has never been so easy with this combination of The ProportionFit Diet and Meal Measure, creating a system so simple, effective, and inexpensive that anyone can succeed at weight loss.

lose 50 pounds in 2 months diet plan: The Stubborn Fat Fix Keith Berkowitz, Valerie Berkowitz, 2009-04-14 Named a Best Book 2010 in the Health: Diet/Weight Loss Category Do you feel tired all the time? Do you feel hungry between meals, even if you've just eaten? Do you crave candy, soda, or coffee, especially in the mid-afternoon? If you answered yes to any of these questions, you may have a metabolic disadvantage. Most diet plans fail because they don't address the underlying metabolic conditions that contribute to increased hunger and weight gain. In fact, they often worsen the problem by cutting calories and prompting food cravings. This further stresses your metabolism and leaves you hungrier—and heavier—than ever. The Stubborn Fat Fix remedies this by identifying and treating metabolic imbalances. Based on the results of simple quizzes, you'll choose between two eating plans that prescribe the ideal foods needed to repair your metabolic disorder and turn off faulty hunger signals. On both plans, you'll lose weight by doing something that seems counterintuitive—eat more, move less—in order to heal your metabolism. You can even

incorporate luxury foods—indulging in ice cream, salty snacks, bread, wine or beer, or even chocolate—to stay on track without feeling deprived. A tailored supplement program, carefully controlled exercise, and stress-reduction techniques complete the metabolic cure. Even better, once your metabolism is in balance, you will not only permanently drop pounds but also improve your cholesterol, blood pressure, blood sugar, and energy levels for overall better health. Hundreds of the Berkowitzes' patients, like those profiled in the book, have successfully lost up to 70 pounds with this plan. With The Stubborn Fat Fix—featuring more than 30 delicious recipes and the exclusive Fiber Ratio tool created by Valerie to help you get the most out of your favorite foods—you, too, can lose that stubborn fat forever.

lose 50 pounds in 2 months diet plan: The ProportionFit Diet: Orthopedic Edition

Nicholas Meyer, 2016-04-04 This Orthopedic Edition is an adapted version of The ProportionFit Diet, specifically addressing the challenges that orthopedic patients face when challenged with obesity. lose 50 pounds in 2 months diet plan: Dash Diet Plan : The Ultimate Dash Diet Cheat

Sheet For Weight Loss Scott Green, 2015-06-10 Based on the two key research studies that were backed by the NHLBI or the National Heart, Lung and Blood Institute, blood pressure can actually be decreased through a diet plan that does not only include low amounts of total fat, cholesterol and saturated fat but is also mainly composed of low-fat or fat-free milk and milk products, vegetables and fruits. The eating plan that they have determined has since then been referred to as the DASH eating plan which is mainly composed of nuts, poultry, fish and whole grain products. It involves minimal consumption of sugar-containing beverages, added sugars, sweets and lean red meat. Grab the book to learn more!

lose 50 pounds in 2 months diet plan: 365 Tips for Losing Weight Liz Petersen, 2012 365

Tips for Losing Weight gives a new tip each day to help you stay focused on your weight loss goal day-in and day-out. I lost 50 pounds in 5 1/2 months and have kept the weight off since 2001 by using these tips. I did not use a specific program or system to lose weight, but if you do these tips will help you lose weight faster when your weight loss program and tips are used together. A FREE eJournal, with printable pages for everything tips ask you to record, is available from the supporting website. Losing weight is not a matter of knowing what to do. If I asked you right now to tell me what you need to do to lose weight, what would you answer? You would probably answer, without hesitating, Eat less and/or exercise more, like everyone else does. If we already know what to do, why do we keep looking for a faster, easier way? We have been bombarded with messages and products promising easy, fast, effortless ways to lose weight. We want to believe it, but deep down, we know better. I've been there, tried that, learned that lesson. To me, losing weight isn't a matter of not knowing what to do, but a matter of knowing how to do it - day in and day out for long enough to get the results you want. 365 Tips for Losing Weight will help you from the first pound to the 30th pound to the 50th pound and beyond - and on to your maintenance phase too. Some tips are specific

to dos to help you cut calories. Some help motivate you to exercise. Some teach the principles you'll need to succeed and keep it off for life. Some help change the way you think about losing weight. All tips are about keeping your head in the game! Here are some of the actual tips you'll find in this book: Day 13 - Replace part of each meal with fruit or salad. Try new, different fruits and salad vegetables as they're in season. Fresh fruit is obviously best. Frozen fruit is convenient since it doesn't spoil. Canned fruit isn't the best but if it's a better choice than you usually make, have it. Day 14 - One day at a time, one pound at a time. If you take it one day at a time, one meal at a time, and one decision at a time, you'll see results one pound at a time. ... Day 31 - Use my 3-Bite Rule for high calorie, high fat or high sugar foods - make it 3 bites, even if you can eat it in 1. The trick here is to eat the 3 bites slowly, really slowly, and really enjoy each bite. The first bite is just a warm up and your taste buds will want another, you really enjoy the second bite and look forward to the next, then that third bite is absolutely satisfying. And since you're satisfied, you don't need another bite! I know my story is not typical - and neither is yours. Everybody has obstacles, some more, some less, some more serious for sure. I KNOW you can do it, because I have been where you are right now. If I can do it, you can do it. Through these tips I will teach you everything I learned through this journey - the thoughts I had, the things I did, and the changes I went through. If you're ready to begin your journey, let's Start Losing Weight Today!

lose 50 pounds in 2 months diet plan: *The Belly Off! Workouts* Jeff Csatri, David Jack, 2012-12-24 Banish belly fat, lose weight, and build lean muscle with simple at-home workouts designed specifically for men and women who don't like to go to the gym. Using the basic diet principles and easy workout strategies found in the bestselling *The Belly Off! Diet*, this new book offers beginners an ultra simple program of no-gym, no-gear exercise routines that they can do in the privacy of their own home to shed belly fat fast and improve their health starting with the first easy workout. The genius of this exciting new fitness manual is that it's accessible to anyone of any fitness level, but mostly to people who haven't pried themselves from the couch cushions in years, let alone touched their toes. The workouts progress from easy walking intervals and simple calisthenics to bodyweight-only exercises that build strength and muscle, the true secret to fast, sustainable weight loss. The workouts are based on those that worked best for *Belly Off! Club* members who have lost 50 pounds or more. Most of the workouts take 20 minutes or less and can be done at home, far away from intimidating gyms. With a review of *Belly Off! Diet* principles, dozens of new weight-loss tips and delicious new recipes, *The Belly Off! Workouts* is a total package choreographed to take the out-of-shape beginner from flabby to fit in just four to six weeks' time.

lose 50 pounds in 2 months diet plan: *The Coconut Ketogenic Diet* Bruce Fife, 2017-08-11 You can enjoy eating rich, full-fat foods and lose weight without counting calories or suffering from hunger. The secret is a high-fat, ketogenic diet. Our bodies need fat. It's necessary for optimal health. It's also necessary in order to lose weight safely and naturally. Low-fat diets have been heavily promoted for the past three decades, and as a result we are fatter now than ever before. Obviously, there is something wrong with the low-fat approach to weight loss. There is a better solution to the obesity epidemic, and that solution is *The Coconut Ketogenic Diet*. This book exposes many common myths and misconceptions about fats and weight loss and explains why low-fat diets don't work. It also reveals new, cutting-edge research on one of the world's most exciting weight loss aids—coconut oil—and how you can use it to power up your metabolism, boost your energy, improve thyroid function, and lose unwanted weight. This revolutionary weight loss program is designed to keep you both slim and healthy using wholesome, natural foods, and the most health-promoting fats. It has proven successful in helping those suffering from obesity, diabetes, heart and circulatory problems, low thyroid function, chronic fatigue, high blood pressure, high cholesterol, and many other conditions. You will learn: Why you need to eat fat to lose fat Why you should not eat lean protein without a source of fat How to lose weight without feeling hungry or miserable How to stop food cravings dead cold Which fats promote health and which ones don't (the answers may surprise you) How to jumpstart your metabolism How to restore thyroid function How to use your diet to overcome common health problems How to reach your ideal weight and stay

there Why eating rich, delicious foods can help you lose weight Which foods are the real troublemakers and how to avoid them

lose 50 pounds in 2 months diet plan: The Complete Book of Diet Drugs Steven R. Peikin, 2001-01-01 One of America's foremost leading experts on safe diet drugs and drug-assisted weight control presents an innovative guide to losing weight with prescription and non-prescription diet drugs that discusses how the diet drugs work, possible side effects, finding the right one, and much more. lose 50 pounds in 2 months diet plan: The Parent's Guide to Childhood Eating Disorders Marcia Herrin, Nancy Matsumoto, 2002-02-06 A successful new approach to treating eating disorders in preteens and teens, from a nationally renowned expert in the field. In a society where eating disorders are rampant, it often takes special awareness and vigilance to raise children who will come to the dinner table free of the modern food-related phobias: fear of being fat, fear of excess calories, and obsession with physical appearance. Emphasizing a nutritional approach to treatment, The Parent's Guide to Childhood Eating Disorders will prove to parents that effective solutions can begin in the home with a reasonable investment of time, effort, and love. This groundbreaking guide includes information on: - spotting early warning signs - normalizing eating and exercises - dealing with school, friends, sports, and camp - knowing when to seek professional help - avoiding a relapse As an expert in eating disorders, a former anorexic, and the mother of two teenagers, Dr. Marcia Herrin speaks with rare authority and understanding. The Parent's Guide to Childhood Eating Disorders takes readers step-by-step through the healing journey that Herrin makes with each of her patients. This important new addition to the literature is a warm, accessible guide that all parents concerned about eating disorders will turn to for practical and reassuring information.

lose 50 pounds in 2 months diet plan: Curves Gary Heavin, Carol Coleman, 2004-12-07 The power to amaze in 30 minutes a day, 3 days a week. Two million women have discovered Gary Heavin's secret to permanent weight loss at more than six thousand Curves fitness and weight-loss centers around the country. In thirty minutes, three times a week—and without a restrictive diet—many have been able to take off the weight and keep it off for good. The Curves Promise: A unique three-part nutrition plan that produces results quickly and shows how to maintain weight loss in order to eat normally for 28 days, and only monitor food intake two days a month A Metabolic Tune-Up helps deter yo-yo dieting and shows how to lose weight by eating more, not less Simple self-tests determine calorie or carbohydrate sensitivity, helping women individualize their food plan Shopping lists, meal plans, recipes, food and supplement guides, and charts to track progress and guide users through every phase of the nutrition and exercise plan A complete Curves At-Home workout, combining strength training and aerobics and taking only thirty minutes a day—no more than three times a week

lose 50 pounds in 2 months diet plan: The Simple Diet James Anderson, M.D., Nancy J. Gustafson, 2011-12-27 Lose up to 50 pounds in 12 weeks with a doctor's proven plan for losing weight—quickly, easily, and permanently. No counting, no measuring, no hassle. If you have tried to lose weight and failed, or lost weight and failed to keep it off, you're not alone. Two out of three

Americans are overweight, many with between thirty and one hundred pounds to lose. Now Dr. James W. Anderson, a professor of medicine and clinical nutrition at the University of Kentucky, shares his groundbreaking, scientifically based nutritional plan that has already helped thousands of Americans lose weight-sometimes more than one hundred pounds-and keep it off permanently. It can also help you: Lower cholesterol, high blood pressure, and high blood sugar. Reverse type 2 diabetes, heart disease, and other obesity-related health conditions. Decrease your risk for type 2 diabetes and its related consequences. Eliminate the need for dangerous (and expensive) gastric bypass surgery. Help you feel better about yourself and enjoy your life! Best of all, you can use prepared foods that are easy to find in the supermarket. There's no calorie counting. No measuring. No guesswork. And if you stick with this easy-to-follow plan-as thousands of people already have-there's a nearly foolproof guarantee of success. Lifelong success. Many people have changed their eating habits and improved their health by using this program. Now it's your turn.
