We all harbor misconceptions that are accepted not only because they are popular but also because they make sense. It makes sense to believe, for example, that German chocolate originated in Germany rather than the truth: that German chocolate is so named because it was created by Sam German. It seems logical to believe that Mercury is the hottest planet because of its proximity to the sun, or that buttermilk contains butter, that Danish pastry is from Denmark, and that the boat race America's Cup was named after the United States of America. mickey mouse trivia questions and answers printable: Toscanini in Britain Christopher Dymont, 2012 This is the first book to describe Arturo Toscanini's activities - the life he led, his concerts and recording sessions - during his visits to London and elsewhere in Britain in the years 1900-1952. During the 1930s Arturo Toscanini conducted many concerts broadcast by the BBC from London's Queen's Hall, where he also made some unsurpassed recordings. Drawing on newly

researched material in British and American archives, Christopher Dymont reveals how the most renowned and influential conductor of the twentieth century, notoriously microphone-shy though he was, came to conduct so frequently in London, a tale replete with unexpected twists, turns and ingenious stratagems. Toscanini's dominating influence on London critics and audiences in the period covered by the narrative, extending through to his final appearances at the Royal Festival Hall in 1952, is copiously documented from contemporary sources. Dymont also presents fresh evidence showing how the remarkable combination of passionate conviction and architectural mastery that characterised Toscanini's conducting was grounded not only in his obsessive study of the score but also in his awareness of performing traditions dating back to the mid-nineteenth century. This book will fascinate those with a particular interest in Toscanini's career and recorded legacy. It is also essential reading for anyone with an interest in the history of conducting and recording in the first half of the twentieth century, set against the vividly evoked backdrop of London's concert scene of the period. This comprehensive study includes both an annotated table of all Toscanini's London concerts and his EMI discography. CHRISTOPHER DYMENT has written extensively about historic conductors since the 1970s, particularly Felix Weingartner and Arturo Toscanini. His first book, on Weingartner, was published in 1976.
