**mcgraw hill math grade 8: The TurnAround ToolKit** Lynn Winters, Joan Herman, 2011 Lynn Winters's and Joan Herman's The Turnaround Toolkit is written for school leaders who are focused on transforming instruction, and who may be working under significant time constraints to reverse declining student achievement or public perceptions of school failure. Based on the evidence that simply implementing "continuous improvement" is not enough to close the achievement gap, The Turnaround Toolkit provides a nine-step formative evaluation program designed to achieve an immediate and consistent focus on improving instruction in order to bolster student achievement. In a straightforward and accessible fashion, Herman and Winters explain three overarching "Turnaround Tasks" that frame these steps and the necessary-and sometimes drastic-actions that must be taken by school leaders as they use data to strategically choose, implement, monitor, and revise school interventions. A dedicated, online "toolkit" offers numerous worksheets and templates that support each stage of the process and help school leaders scaffold the work of educators to put an aggressive turnaround plan into action while a leadership guide at the end of the book provides guidance to turnaround teams and facilitators.

Volume 6 features presentations from a Boston University conference organized by READ and the Pioneer Institute. The essays represent truly diverse viewpoints on the education of limited-English students, rare in the complex and contentious arena of bilingual education. The lead article, Rethinking Bilingual Education, by Charles L Glenn of Boston University, inspired the conference's organization. Dr. Glenn proposes new ways of schooling limited-English-speaking children that depart dramatically from the practices of the past 30 years. He proposes sound recommendations for revising Massachusetts bilingual education law, ideas that could well be applied in other states. Also included are Christine Rossell's Mystery on the Bilingual Express, a critique of the controversial study by Thomas and Collier; Rosalie Pedalino Porter's follow-up review of El Paso, Texas's programs for English learners; Mark Lopez's Labor Market Effects of Bilingual Education; Bethlehem, Pennsylvania's English Acquisition Program, by Thomas J.
