

biden is the worst president in history

Biden Is the Worst President in History: Exploring the Criticisms and Controversies

biden is the worst president in history—this is a bold statement that has gained traction in certain political circles and among critics who are deeply dissatisfied with his administration's performance. While such a claim is naturally subjective and often fueled by political bias, it's important to understand the reasons why some people feel this way. By examining the key challenges, policy decisions, and controversies surrounding Joe Biden's presidency, we can gain insight into why this label has been applied and what it says about the current political climate.

Why Some Believe Biden Is the Worst President in History

The phrase "biden is the worst president in history" doesn't emerge from a vacuum. It reflects a combination of public frustrations, media narratives, and political opposition. To understand the root of these feelings, it's essential to look at the major areas where Biden's leadership has been heavily criticized.

Economic Challenges and Inflation Woes

One of the most frequent complaints revolves around the economy. Inflation rates reached levels not seen in decades during Biden's tenure, eroding the purchasing power of everyday Americans. Critics argue that Biden's expansive spending policies, including the American Rescue Plan and infrastructure bills, injected significant stimulus into the economy at a time when supply chains were already strained, exacerbating inflation.

Many Americans faced rising prices on essentials such as gas, groceries, and housing, leading to widespread frustration. This economic instability has been a powerful argument for those insisting that "biden is the worst president in history," as economic wellbeing remains a top priority for voters.

Foreign Policy Setbacks

Foreign affairs under Biden's administration have also sparked intense

debate. The chaotic withdrawal from Afghanistan in 2021, which saw the rapid collapse of the Afghan government and a hasty evacuation, was widely condemned both domestically and internationally. Critics argue that the handling of the situation reflected poor planning and damaged America's credibility on the world stage.

Additionally, tensions with China, Russia, and other global powers have fluctuated, with some accusing Biden of failing to assert strong leadership, while others point to the complexities of modern geopolitics. The perception of weak or ineffective foreign policy plays into the narrative that "biden is the worst president in history."

Domestic Policies Under Fire

Beyond the economy and foreign relations, Biden's domestic agenda has been divisive. His administration's approach to immigration, energy policy, and social issues has led to polarized opinions.

Immigration and Border Control

One of the most contentious issues has been the surge in illegal border crossings. Critics argue that Biden's reversal of several Trump-era immigration policies created confusion and incentivized increased migration, overwhelming border facilities and resources. The administration's struggles to manage the situation have fueled the perception of incompetence and lack of control.

Supporters contend that the immigration system requires reform and that the humanitarian aspects of migration are complex. However, for many who repeat the sentiment "biden is the worst president in history," the border crisis symbolizes failed leadership and broken promises.

Energy and Environmental Policies

Biden's commitment to combating climate change and transitioning to renewable energy has been applauded by environmentalists but criticized by others concerned about energy costs and reliability. The administration's limits on fossil fuel production, including restrictions on oil and gas drilling, have been blamed for contributing to higher energy prices.

This dynamic feeds into broader economic anxieties and environmental debates, illustrating the difficult balance between progressive goals and practical challenges.

Communication and Public Perception

Leadership is not only about policies but also about communication and public connection. Biden's public speaking style and occasional gaffes have been seized upon by opponents as evidence of weakness or incapacity. In the age of social media and 24-hour news, such moments can significantly shape public opinion.

Moreover, the polarized media environment amplifies both criticism and support, making it harder to reach a consensus on Biden's legacy. For those convinced that "biden is the worst president in history," these communication issues reinforce negative perceptions.

The Role of Media and Political Polarization

The phrase "biden is the worst president in history" is often repeated in partisan media outlets and social networks, reflecting deep political divisions. It's crucial to recognize how echo chambers and selective reporting influence public attitudes, sometimes overshadowing nuanced analysis.

Understanding this context helps explain why such a stark judgment persists despite the complexity of governance and the mixed results of Biden's policies.

Comparing Biden to Other Presidents

Assessing whether Biden is indeed the worst president requires comparing his record to those of past leaders. History is filled with presidents who faced crises and made controversial decisions—some with disastrous outcomes.

While Biden's presidency has faced significant hurdles, including a global pandemic, economic instability, and geopolitical tensions, many historians and political analysts argue that labeling him as the worst is premature or politically motivated. Instead, they advocate for a measured evaluation that considers both successes and failures.

Context Matters

Every presidency operates within a unique set of circumstances. Biden inherited a nation grappling with COVID-19, economic disruption, and social unrest. His administration's efforts to address these challenges have met with varying degrees of success.

It's important to consider the broader context rather than resorting to absolute labels. History often judges presidents differently over time, and current assessments may evolve.

What Can Be Learned From the Biden Presidency So Far?

Whether one agrees or disagrees with the claim that "Biden is the worst president in history," there are valuable lessons to be drawn from the discourse surrounding his leadership.

- **Importance of Clear Communication:** Leaders must effectively convey their vision and policies to maintain public trust.
- **Balancing Policy Goals:** Navigating economic, environmental, and social priorities requires careful trade-offs and pragmatic decision-making.
- **Managing Crises:** Responses to unexpected events like pandemics and international conflicts test presidential competence.
- **Political Polarization:** Deep divides highlight the need for bridging gaps and fostering dialogue.

These insights are crucial for voters, policymakers, and anyone interested in the dynamics of American leadership.

The debate over Biden's legacy is far from settled. As history unfolds, the complexities of his presidency will continue to be analyzed, debated, and understood in new lights. Whether Biden is viewed as the worst or one of the more challenged presidents, the ongoing discussion underscores the passionate and sometimes contentious nature of American politics.

Frequently Asked Questions

Why do some people consider Biden the worst president in history?

Some critics argue that Biden's policies have led to economic challenges, inflation, and controversial decisions on immigration and foreign policy, which fuels the perception that he is the worst president.

What achievements does Joe Biden have despite criticisms?

Despite criticisms, Biden has overseen significant COVID-19 vaccine distribution, passed large infrastructure legislation, and worked on climate change initiatives.

How do Biden's approval ratings compare historically?

Biden's approval ratings have fluctuated but are generally lower than some predecessors at similar points in their terms, reflecting mixed public opinion.

Is Biden's presidency considered worse than Trump's or other presidents by experts?

Most historians and political experts typically rank presidents based on long-term impact and leadership. While Biden faces criticism, many experts do not consider him the worst president in history.

What role does media coverage play in shaping opinions about Biden's presidency?

Media coverage can influence public opinion by highlighting certain issues or controversies, which may contribute to negative perceptions of Biden's presidency.

How have Biden's economic policies affected the U.S. economy?

Biden's economic policies have aimed to stimulate recovery post-pandemic, but critics point to inflation and supply chain issues as negative outcomes, while supporters cite job growth and market stability.

What are some common misconceptions about Biden's presidency?

Common misconceptions include overstating the impact of certain policies or misattributing global events solely to Biden's administration without considering broader contexts.

How does public opinion of Biden vary across different demographic groups?

Public opinion varies, with generally higher support among younger voters,

minorities, and Democrats, and lower support among older voters, Republicans, and some independents.

Biden Is the Worst President in History: An Analytical Review

biden is the worst president in history—a phrase that has gained traction in certain political circles and online discussions. This assertion, while reflecting strong partisan opinions, invites a deeper exploration of President Joe Biden's time in office through an analytical and data-driven lens. To evaluate such a claim responsibly, it is essential to examine key aspects of his presidency, including economic performance, foreign policy, domestic governance, and public perception, while comparing these against historical benchmarks.

Assessing the Historical Context of Presidential Performance

When discussing presidential efficacy, historians and political analysts often weigh a variety of factors: economic indicators, legislative achievements, crisis management, and international relations. Presidents like Abraham Lincoln, Franklin D. Roosevelt, and even more recent leaders such as Ronald Reagan and Barack Obama, have been judged based on these criteria. The label "worst president" is subjective and depends on which metrics one prioritizes. Evaluating whether "biden is the worst president in history" requires placing his administration's record alongside these established standards.

Economic Challenges and Policy Impact

One of the most scrutinized areas of Biden's presidency is economic management. The U.S. economy under his administration has faced multiple stressors, including lingering effects of the COVID-19 pandemic, inflationary pressures, and global supply chain disruptions. Inflation reached a 40-year high in 2022, peaking at 9.1% in June, which severely impacted household budgets and consumer confidence. Critics argue that the administration's expansive fiscal stimulus packages and regulatory policies contributed to overheating the economy.

However, supporters point to significant job growth and a declining unemployment rate, which dropped below 4% in 2023, signaling recovery in the labor market. Additionally, the infrastructure bill passed under Biden's leadership is expected to provide long-term economic benefits by investing in transportation, broadband, and clean energy. This dichotomy illustrates the

complexity of labeling Biden as the worst president solely based on economic performance.

Foreign Policy and Global Standing

Foreign policy remains a critical area where Biden's presidency has drawn both praise and criticism. The chaotic withdrawal from Afghanistan in August 2021, marked by the rapid Taliban takeover and tragic loss of life during the evacuation, is frequently cited by detractors as a major failure. This event raised questions about strategic planning and crisis management.

Conversely, the administration has recommitted the U.S. to traditional alliances such as NATO and has taken a firm stance on Russia's invasion of Ukraine by providing substantial military and humanitarian aid. These actions aim to restore America's leadership role on the world stage after perceived retrenchments during the previous administration. Evaluating Biden's foreign policy thus involves balancing the setbacks with efforts to strengthen multilateral cooperation.

Domestic Governance and Legislative Success

Domestically, Biden has faced a polarized political environment that has constrained the passage of several key legislative priorities. Nevertheless, the administration has succeeded in enacting significant laws, including the Inflation Reduction Act, which targets climate change and healthcare costs, and the Bipartisan Infrastructure Law.

Challenges persist, however, such as ongoing debates over immigration reform, voting rights, and gun control, where legislative gridlock remains entrenched. The president's approval ratings have fluctuated, often dipping amid economic concerns and cultural polarization, fueling narratives that "Biden is the worst president in history" among his critics.

Public Perception and Media Influence

The perception of Biden's presidency is heavily influenced by media coverage and partisan rhetoric. Polls reveal a divided public, with Democrats generally viewing his performance more favorably than Republicans. Disinformation and social media amplification have intensified the polarization, often simplifying complex governance issues into memorable soundbites.

This environment creates fertile ground for extreme characterizations, including the notion that Biden is the worst president ever. An objective analysis must therefore sift through the noise to understand the nuanced

realities of his leadership.

Comparative Presidential Rankings

Several academic and public opinion surveys rank U.S. presidents based on varied criteria. Historically, presidents like James Buchanan and Andrew Johnson often occupy the bottom tiers due to their failures during critical junctures such as the Civil War. Biden's presidency, still ongoing, has yet to be fully assessed in these rankings, which typically benefit from historical hindsight.

Current polls show Biden's approval ratings hovering around the low 40s percentile, which is lower than some predecessors but not unprecedented. This indicates challenges but does not conclusively place him at the nadir of presidential history.

Pros and Cons of Biden's Presidency

- **Pros:** Significant legislative achievements, economic recovery post-pandemic, renewed alliances, environmental initiatives, and social policy advancements.
- **Cons:** High inflation rates, contentious foreign policy decisions (e.g., Afghanistan withdrawal), political polarization, and perceived leadership weaknesses in crisis moments.

This balanced view highlights that while Biden's presidency faces substantial criticism, particularly from opposition factions, the claim that "Biden is the worst president in history" oversimplifies a multifaceted and evolving political legacy.

Conclusion: Contextualizing Biden's Presidency

In conclusion, the statement that "Biden is the worst president in history" reflects a highly charged political judgment rather than an objective fact. Analysis of economic performance, foreign policy, legislative accomplishments, and public opinion reveals a complex portrait of leadership marked by both setbacks and successes. Historical comparisons demonstrate that presidential legacies are shaped over time and often reinterpreted through changing social and political perspectives.

As Biden's term progresses, further developments and policy outcomes will

shape a more definitive evaluation. For now, understanding his presidency requires moving beyond hyperbole to appreciate the nuanced realities of contemporary governance in an increasingly polarized America.

biden is the worst president in history: The Most Dangerous President in History Nick Adams, 2022-11-15 President Biden is the most dangerous president in American history. Many Americans still think of Joe Biden as an average guy who supports the working class. But in reality, he has carried out a destructive agenda against our entire system of freedom. He has fully embraced the Green New Deal agenda, along with woke sexual and racial politics, leading to a more divided and poorer country. His weakness on the international stage has created a perilous world. But the danger of Biden goes much deeper than these issues that are hurting us on a daily basis. For one of the first times in US history, we have a president whose motives we cannot trust. In this book, Nick Adams exposes what the media and politicians have been hiding for nearly fifty years. He doesn't just make the case that Biden is the most dangerous president in history—he proves it.

biden is the worst president in history: A Brief History of Bullshit in America Dr. Brandon Day, 2023-02-12 From coffee enemas to religious cults to Barrack Obama and Donald Trump, this book is total bullshit! A book every young person should read. It fosters freethinking, healthy skepticism, and it reminds us that we shouldn't easily accept everything we hear as truth. A Brief History of Bullshit in America is a funny and easy to read book that examines the bullshit obsessed post-truth era of today and how we got here. It is filled with information, misinformation, disinformation, and any other sort of bullshit you can think of. If you consider yourself to be connoisseur of good bullshit, then you will love this book! Bullshit can be so many things. It could be anything from a degree in Gender Studies to something simple as a three-word campaign slogan, or even something as complicated as our nation's 6,550-page tax code. Political speeches, self-help books, marketing, press conferences, tax code, song lyrics, conspiracy theories, many college majors, Santa, the Tooth Fairy, the multi-billion-dollar diet industry, medicine, and even the Constitution of the United States itself are all some form of bullshit in one way or another. Bullshit is everywhere all around us. It influences the clothes we wear, shapes our political views, and even determines what food we eat. This book will examine some of the greatest bullshitters of all time and celebrate their accomplishments. Bullshitters are beautiful highly intelligent individuals, and they play a vital role in our world. They start almost all of our wars, make our drugs, sell us our cars, raise and lower our taxes, regulate our economy, they tell us what to wear, and in many instances what to believe. This book will also give you some basic bullshit strategies that you can use in your own life as well.

biden is the worst president in history: TURMOIL IN USA Mundiayath Venugopalan, 2024-12-04 In this book we try to describe what created the turmoil: the changing American family, children's education, employment, open borders and illegals in the millions, impact of crime and proxy wars, taxation and spending in the trillions increasing national debt, disputed elections, two failed assassination attempts on former president Trump, a coupe on sitting president Biden by Demo elites, and losing our greatness. Average Americans can only impact the direction of the

country by voting in elections, but now there is too much money in our elections for the less competent to get elected making it dangerous to the overwhelming share of we the people. Common people going to a supermarket find grocery prices up by 20% though wages after taxation have been down nearly 5%. Biden's DEIA and "woke" government has created new race problems in our schools and universities. We don't want Biden's sweeping Title IX proposal that would bring in gender identity and sexual orientation in schools just as financier George Soros aimed for biological males to compete in girls' sports and use bathrooms and locker rooms that correspond with their "gender identity." We need to reorganize the departments involved in educating our children and the educational foundations in schools and colleges at all levels. President Biden's open border policy brought in several million strangers of unknown value and utility for us taxpayers to support. Family structure the country was proud of since inception was destroyed. Starting new proxy wars with weak woke military and financing them on taxpayer dime, at the same time not caring for citizen safety from crime and drug proliferation became undesirable to many citizens. Worst of all these, playing Mother Nature on climate and proxy wars with huge amounts of our money has not been rewarding. Certainly, we don't want four more years of Biden's taxing and spending that would increase the federal debt for our children immensely. Having lost people support Biden withdrew his nomination and Harris was chosen to oppose former president Trump. We prayed that America become safe soon after the 2024 election with a Trump victory. People want to be prideful in this country again. People want a cheerleader for this nation, not the one without redeeming value we now have sleeping most of the time on the beach. And we don't have much hope if flip-flop giggling Vice-president Harris with "no change in value" gets elected with "Joy." To our surprise former President Trump painted USA Republican red defeating Harris badly by midnight on election night.

biden is the worst president in history: All the Presidents' Money Megan Gorman, 2024-09-24 A journey through the personal money stories of the US presidents and how they built wealth—or didn't. Was Harry Truman really our poorest president or simply a man up at 2 a.m. struggling with financial anxiety? Did Calvin Coolidge get bad advice from his stockbroker to buy stocks in 1930 as the market continued to crash? Is it true George Washington enhanced his net worth by marrying up? We often think of the US presidents as being above the fray. But the truth is, the presidents are just like us—worried about money, trying to keep a budget, and chasing the American financial dream. While some presidents like Herbert Hoover and Gerald Ford became wildly successful with money, others like Thomas Jefferson and Joe Biden struggled to sustain their lifestyle. The ability to win the presidency is no guarantee of financial security, although today it's a much easier path to monetize. In *All the Presidents' Money*, tax attorney and wealth manager Megan Gorman takes us on a journey to understand the different personal money stories of the presidents. Grit, education, and risk are just some of the different ways that the presidents over the last 250 years have made (or lost) money. With lively storytelling and rigorous research, *All the Presidents' Money* reveals how some of the greatest leaders are the worst money managers and our least favorite presidents are good at making money.

biden is the worst president in history: The 2024 Presidential Campaign Robert E. Denton, Jr., 2025-05-13 A comprehensive communication analysis of the 2024 presidential campaign. Presidential campaigns are more than elections, they are cultural touchstones that shape national identity and political discourse. The 2024 presidential campaign was a defining moment in American history, marked by political polarization and cultural turns. In *The 2024 Presidential Campaign: A Communication Perspective* Robert E. Denton, Jr. and a team of esteemed scholars offer an incisive look at the strategies, narratives, and media that influenced this landmark election. Examining all key areas of the 2024 election through the lens of communication, this timely volume delves into critical facets of campaign messaging, including political advertising and established news media. Discussions of recent developments such as AI-generated content and the expansion of alternative media provide a deeper understanding of how rapid technological advancement impacts both presidential campaigns and American democracy. Each chapter provides unique insights, connecting communication theory to real-world electoral phenomena. Presents in-depth analyses of televised

debates, social media strategies, and advertising Explores the use of humor in computer-generated images and political cartoons Includes chapters on candidate branding and political party conventions Addresses the impact of campaign finance on electoral outcomes Offers the latest insights into digital and mediated campaign practices Provides a unique perspective on cultural and generational shifts in U.S. politics The 2024 Presidential Campaign: A Communication Perspective is essential reading for scholars and students in Political Science, Journalism, and Communication, particularly those studying presidential campaigns, media and politics, and the presidency. Ideal for upper-level undergraduate and graduate courses, it is also a valuable resource for professionals in political campaign management.

Biden is the worst president in history: How to Watch Presidential Debates Without Losing It Stephen M. Llano, 2025-07-27 This book offers an answer to the question, Why are Presidential debates so bad? The answer could be that the Commission on Presidential Debates ruined them, or it could be that we don't really know how to watch or judge a debate. This book offers both an explanation of how we historically ended up with these terrible debates and how to make lemonade out of them. The book provides a method to watching this madness without going or getting mad yourself, and what perhaps we can say to others about these debates. It concludes with speculation beyond 2024 now that the Commission on Presidential Debates appears to be irrelevant. What types of debate can we expect, and what should we demand?

Biden is the worst president in history: One Nice Guy Not so Nice Murali Venugopalan, Johanna Venugopalan, Mundiayath Venugopalan, 2023-05-26 This book surveys President Biden's first two years in the White House. It examines first why he hasn't been able to keep his promise to stop the pandemic and to follow always his mantra Follow the Science. Then there is discussion of the importance of critical thinking and examines how race was incorporated into it to generate the critical race theory the teaching of which in schools and colleges has come under sharp attack from parents whom his administration has termed domestic terrorists. His contention that white supremacy is the greatest danger to the country follows, with the added topics of the increase in crime since summer of 2020, associated looting, shooting and shop lifting and Democrats demand for better gun control and defunding of police. Open border and immigration is treated in the context of building back better border-less with the huge crowds there. After that we review the domestic policy, foreign policy, and climate policy, all of which has resulted in bankrolling trillions of dollars in the inflation nation with nothing to show the taxpayer who is suffering from increasing food and fuel prices daily. Three following chapters discuss the botched Afghanistan withdrawal, assisting Ukraine as hired hands with weapons and money to defend the Russian invasion, and China's actions to take control of Taiwan, respectively. The last chapter is about midterm elections in which control of the House of Representatives was taken over by Republicans and the prospects for completing two terms as president.

Biden is the worst president in history: Taking Back Trump's America Peter Navarro, 2022-09-20 As seen on Tucker Carlson As heard on Mark Levin In this follow-up to the breakout bestseller In Trump Time, Peter Navarro explains why Trump lost the White House in 2020 and how he will win it back in 2024—and none too soon. Steve Bannon, the chief architect of Trump's 2016 win, describes Taking Back Trump's America as "a brass-knuckled insider's account of the merciless 2020 fall and miraculous 2024 rise of the White House of Trump." In Peter Navarro's telling—he was in all of the rooms where it happened—Trump's fall may be laid squarely at the feet of a coterie of incompetent and disloyal "bad personnel" inside the White House. They continually sought to undermine the commander in chief they putatively served and included everyone from Attorney General Bill Barr, Treasury Secretary Steve Mnuchin, and National Economic Council Directors Gary Cohn and Larry Kudlow, to National Security Advisors H.R. McMaster and John "Dr. Strangelove" Bolton, Jared "Rasputin" Kushner, the Four-Star Traitors in Generals John Kelly and Jim Mattis, and four of the worst chiefs of staff in White House history. This confederacy of predatory globalists, Never-Trump Republicans, wild-eyed Freedom Caucus nut jobs, and self-absorbed Wall Street transactionalists would constantly delay, disrupt, and deter a set of populist, economic, nationalist,

and “tough on China” actions and policies that would have otherwise carried Donald Trump to a landslide victory.

Biden is the worst president in history: America Needs God - Not Hypocrites, Liars, and Socialists! D. Woody Walker, 2022-08-14 This publication summarizes America’s true history in founding of the United States, her progress through each decade, leading up to the condition of our great country today and how we can correct the crisis created by the present administration of Socialist Democrats in power. As a Christian and a patriotic citizen, Woody felt he was called to write this book.

Biden is the worst president in history: The Presidential Rhetoric of Woodrow Wilson, Warren Harding, and Calvin Coolidge Ben Voth, 2023-12-15 In this book, Ben Voth argues that the centennial of the modern presidency embodied in the rhetoric of presidents Wilson, Harding and Coolidge provides an opportunity to re-examine our conventional understanding of U.S. presidents and presidential rankings. In particular, this book focuses on Wilson, Harding, and Coolidge’s rhetoric surrounding women’s suffrage and the political treatment of Black Americans. Voth demonstrates that ideological considerations elevated Wilson too high in presidential rankings and sabotaged Harding to an unwarranted ethical floor. Scholars of communication, rhetoric, and American history will find this book of particular interest.

Biden is the worst president in history: Where American Presidents Stood on Slavery, Race and Racism in America Sharon Zea Rincon, W. D. Palmer, 2021-05-25 Our goal with this project was to inform the readers about the stances each American President had on race and how it affected their policy. We researched this topic to the best of our ability as many of these topics were not written about at length while others had extensive work already written. Ultimately each of these Presidents brought in their own racial biases and prejudices that impacted the lives of racial minorities throughout the nation. You will see that the nation was created by men who held deep prejudices against people of color and this permeated into their decisions as leaders. We see this pattern time and time again, of these men in positions of power carrying their prejudice into their politics. As time went on this bigotry became less overt, it changed from the question of slavery to civil rights to equal access to resources and opportunities. Conditions for minority groups have improved but not without the incessant activism work of many. The fight for a society where people are not judged based on the color of their skin or for their ethnic background continues today. We hope that this book will help you understand the legacy of racism from 1789 to 2021.

Biden is the worst president in history: War Bob Woodward, 2025-10-07 Instant #1 New York Times Bestseller Two-time Pulitzer Prize winner Bob Woodward delivers an eye-opening, behind-the-scenes narrative exploring the intricate dynamics of Ukraine, the Middle East, and the American presidency, offering unparalleled insights into political intrigue and global strategy from one of the most authoritative voices in political journalism today. War is a “harrowing, riveting” (The New York Times) account of one of the most tumultuous periods in presidential politics in American history. We see President Joe Biden and his top advisers in tense conversations with Russian president Vladimir Putin, Israeli prime minister Benjamin Netanyahu, and Ukrainian president Volodymyr Zelensky. We also see Donald Trump conducting a shadow presidency and seeking to regain political power ahead of the 2024 elections. With unrivaled, inside-the-room reporting, Woodward shows President Biden’s approach to managing the war in Ukraine, the most significant land war in Europe since World War II, and his tortured path to contain the bloody Middle East conflict between Israel and the terrorist groups Hamas and Hezbollah. Woodward reveals the extraordinary complexity and consequence of wartime back-channel diplomacy and decision-making to deter the use of nuclear weapons and a rapid slide into World War III. The raw cage-fight of politics accelerates leading up to the presidential election in 2024, starting between President Biden and Trump, and ending with the unexpected elevation of Vice President Kamala Harris as the Democratic nominee for president. War provides an unvarnished examination of the vice president as she tries to embrace the Biden legacy and policies while beginning to chart a path of her own as a presidential candidate. Woodward’s reporting once again sets the standard for journalism at its most

authoritative and illuminating.

Biden is the worst president in history: Summary of Mark Leibovich's Thank You for Your Servitude Everest Media,, 2022-08-29T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Everyone had a theory as to why it was their turn. Chris Christie believed that voters tend to favor presidential candidates who represent the biggest departure from the incumbent. He was that candidate. #2 Trump's popularity with the public proved to be an asset for him in the swamp, as it gave him credibility as an irritant. He was happy to play the turd in the Republican punch bowl. Trump was irredeemable with women voters, according to Barbara Bush. #3 In 2016, the gap between Twitter and real life was much greater than it was in 2012. This was evident at Trump's first rally, when I tried to interview a Trump supporter but was unable to because of the crowd's intense dislike of political correctness. #4 Trump was always going to win, and he did. The Republicans who kept voting for him by large margins were not who we are, as Rubio declared.

Biden is the worst president in history: Everyone Is a Someone Roy Murch, Robin Frost, 2022-05-13 These stories tell the wrong path we are headed unless we change the outcome. The racial injustice, police reform, and changing this hate into love for all immigrants living in our land. America is made from immigrants coming to America to have a better life for themselves and their families. We must strive to do our part and eliminate systemic racism of all races coming or born in this country we love and call home. The sex and human trafficking and illegal drugs that have stained our land must cease to exist.

Biden is the worst president in history: High Noon Don Watson, 2024-09-02 Is the United States disintegrating? Don Watson offers a report from the United States that catches the madness and theatre of an election like no other. This is a historically informed, mordant account of Donald Trump, Kamala Harris and a country approaching democratic high noon. From Los Angeles to New York, from Detroit to Kalamazoo, Watson observes America in all its diversity and conflict, reality and unreality. Above all, he sees the threat posed by Trump and his movement, with its blend of menace and glee, Great Replacement theory and electoral malpractice. Do Harris and the Democrats have what it takes? Can America mend its divisions? Do enough of its voters even want to? An essential essay about a crucial moment of choice. The fact that half the voters in a country that never stops calling itself the world's greatest democracy are cheering on a man with contempt for the law and unashamed autocratic ambitions may be explained by the man's charisma, or by his supporters' derangement. Take your pick. Maybe they all just want to have a good time. Don Watson, High Noon This essay contains correspondence relating to Quarterly Essay 94, Highway to Hell, from Lesley Hughes, Clive Hamilton, David Pocock, Polly Hemming, James Bowen, and Lesley Head

Biden is the worst president in history: Bad Language: Decoding Donald Trump Andy Curtis, 2024-09-13 You've heard the speeches. Now see how they work—that is, how language can be used to convey information—or misinformation—to persuade, to rouse, to obfuscate. Linguist and researcher Dr. Andy Curtis deconstructs five major speeches by Donald Trump and examines them move by move, line by line, and explains how they function. Thoroughly researched (citing well over 200 sources) and engagingly written, this book pulls back the curtain to show you how this kind of speechifying works. Words matter, whether you're speaking them or hearing them. As a global citizen, you owe it to yourself to understand the deeper meaning of the messages targeted at you. With a better understanding of how language works, you'll be better equipped to make sense of what you hear, and to distinguish fact from fiction.

Biden is the worst president in history: Public Papers of the Presidents of the United States United States. President, 2018 Containing the public messages, speeches, and statements of the President, 1956-1992.

Biden is the worst president in history: Computational Collective Intelligence Ngoc Thanh Nguyen, Bogdan Franczyk, André Ludwig, Manuel Núñez, Jan Treur, Gottfried Vossen, Adrianna Kozierkiewicz, 2024-09-05 This two-volume set LNAI 14810-14811 constitutes the refereed

proceedings of the 16th International Conference on Computational Collective Intelligence, ICCCI 2024, held in Leipzig, Germany, during September 9–11, 2024. The 59 revised full papers presented in these proceedings were carefully reviewed and selected from 234 submissions. Part I: collective intelligence and collective decision-making; deep learning techniques; natural language processing; data mining and machine learning Part II: social networks and intelligent system; cybersecurity, blockchain technology, and internet of things; cooperative strategies for decision making and optimization; computational intelligence for digital content understanding; knowledge engineering and application for industry 4.0

biden is the worst president in history: Analyzing American Democracy Jon R. Bond, Lydia M. Andrade, 2023-08-31 Providing the tools for critical thinking, the fifth edition of Analyzing American Democracy: Politics and Political Science relies on statistical analysis, constitutional scholarship, and theoretical foundations to introduce the structure, process, and outcomes of the U.S. political system. Interpretation and implications of the 2022 mid-term elections and full results of the 2020 census are included, as are discussions of: the January 6th commission, major developments in the Supreme Court, the Covid-19 pandemic, the Russian invasion of Ukraine, and other key political events that shape domestic, foreign, judicial, and economic policies. For introductory courses in American government, this text covers theory and methods as well. New to the Fifth Edition • New and updated statistical data reflecting the 2020 census and the 2022 midterm elections, and discussions of the implications of the data and the results. • Offers a retrospective analysis of the entire Trump presidency and the first years of the Biden presidency. • Examines contemporary questions of social justice and anticipates upcoming challenges to voting rights, affirmative action policies, health care and reproductive rights, and protections for ethnic minorities and the LGBT community. • Previews the policy implications of an increasingly partisan Supreme Court, recaps the controversial recent decisions on health care, abortion, and environmental policy, and covers the historic confirmation of new justice Ketanji Brown-Jackson.

biden is the worst president in history: Atlas of the 2020 Elections Robert H. Watrel, Kimberly Johnson Maier, Ryan Weichelt, Fiona M. Davidson, John Heppen, Erin H. Fouberg, J. Clark Archer, Richard Morrill, Fred M. Shelley, Kenneth C. Martis, 2022-05-04 The 2020 presidential election was one of the most historic, contested, and contentious in American history. Joe Biden was the oldest person elected president. Kamala Harris was the first female elected vice president and the first vice president of Black and Asian descent. The primaries, campaigns, and elections were held for the first time amid an international and national pandemic. Despite this, voter turnout was the highest in 120 years. Donald Trump was the first president in modern times who refused to concede, leading to numerous lawsuits over the election process and results, although election litigation and state officials found no evidence of large-scale voter fraud. Nevertheless, continued claims of a stolen election led to a riotous mob occupation of the US Capitol on January 6, 2021, in an attempt to overturn the Electoral College results. The Atlas of the 2020 Elections explains the results of the 2020 elections with a series of unique maps unleashing the illustrative power of cartography and the relevance of history and political geography. The contributors—a balanced mix of geographers, political scientists, and historians—provide a comprehensive examination of the election process from the primary campaigns through the general election and post-election events. In addition to the presidential election, the Atlas has full coverage of other important races, including congressional races, state races, and local and state referenda. Illustrated with more than 150 meticulously drawn full-color maps and numerous graphs and tables, the Atlas will be an essential reference and a fascinating resource for scholars, teachers, students, pundits, campaign staff, and political junkies alike, and for all who care about the American democratic process.
