Abbie E. Goldberg, Danielle C. Slakoff, Carrie L. Buist, 2023-08-25 This book examines the representation and misrepresentation of queer people in true crime, addressing their status as both victims and perpetrators in actual crime, as well as how the media portrays them. The chapters apply an intersectional perspective in examining criminal cases involving LGBTQ people, as well as the true crime media content surrounding the cases. The book illuminates how sexual orientation, gender, race, and other social locations impact the treatment of queer people in the criminal legal system and the mass media. Each chapter describes one or more high-profile criminal cases involving queer people (e.g., the murders of Brandon Teena and Kitty Genovese; serial killer Aileen

Wuornos; the Pulse nightclub mass shooting). The authors examine how the cases are portrayed in the media via news, films, podcasts, documentaries, books, social media, and more. Each chapter discusses not only what is visible or emphasized by the media but also what is invisible in the accounting or societal focus surrounding the case. Lesser-known (but similar) cases are used in the book to call attention to how race, gender, sexuality, sexual orientation, social class, and/or other features influence the dominant narrative surrounding these cases. Each chapter addresses teachable moments from each case and its coverage, leaving readers with several considerations to take with them into the future. The book also provides media resources and supplemental materials so that curious readers, including scholars, students, content creators, and advocates, can examine the cases and media content further. true crime society podcast hosts: Second Life Amanda Hess, 2025-05-06 "Second Life is a tender, perceptive account of pregnancy and early motherhood—and a stylish confrontation with the demented landscape of digital parenting content." —Anna Wiener, author of *Uncanny Valley* As an internet culture critic for The New York Times, Amanda Hess had built a reputation among readers as a sharp observer of the seductions and manipulations of online life. But when Hess discovered she was pregnant with her first child, she found herself unexpectedly rattled by a digital identity crisis of her own. In the summer of 2020, a routine ultrasound detected a mysterious abnormality in Hess's baby. Without hesitation, she reached for her phone, looking for answers. But rather than allaying her anxieties, her search sucked her into the destabilizing morass of the internet, and she was vulnerable—more than ever—to conspiracy, myth, judgment, commerce, and obsession. As Hess documents her escalating relationship with the digital world, she identifies how technologies act as portals to troubling ideologies, ethical conflicts, and existential questions, and she illuminates how the American traditions of eugenics, surveillance, and hyper-individualism are recycled through these shiny products for a new generation of parents and their children. At once funny, heartbreaking, and surreal, *Second Life* is a journey that spans a network of fertility apps, prenatal genetic tests, gender reveal videos, rare disease Facebook groups, "freebirth" influencers, and hospital reality shows. Hess confronts technology's distortions as they follow her through pregnancy and into her son's early life. The result is a critical record of our digital age that reveals the unspoken ways our lives are being fractured and reconstituted by technology.

true crime society podcast hosts: The Podcaster's Dilemma Nicholas L. Baham, III, Nolan Higdon, 2022-02-15 A fascinating exploration of modern podcasting as a tool for decolonization In The Podcaster's Dilemma: Decolonizing Podcasters in the Era of Surveillance Capitalism, Drs. Nolan

Higdon and Nicholas Baham III connect contemporary podcasting to the broader history of the use of radio technology in the service of anti-colonial struggle and revolution. By organizing the book's analysis of decolonization through podcasting via three distinct activities—interrogation and critique, counter-narrative, and call to action—the authors create a lens through which they analyze and evaluate the decolonizing potential of new podcasts. The book also critiques the threat to the decolonizing efforts of some modern podcasts by the growing phenomena of surveillance capitalism and the emerging podcast oligopoly. The Podcaster's Dilemma reveals both potential and challenges in the podcasting space as podcasters struggle to put forward insightful new narratives funded by anti-capitalist models. This important book also includes: A thorough introduction to the podcasters profiled in the book and an examination of how they're using podcasts to decolonize themselves from colonial mentalities Practical discussions of how the profiled podcasters interrogate and critique the veracity of neoliberal, racist, imperialist, patriarchal, heterosexist, classist, and ableist white-centered ideologies Comprehensive explorations of the counter-narrative production phase of a decolonizing podcaster's process In-depth treatments of the community activism created by decolonizing podcasts The Podcaster's Dilemma: Decolonizing Podcasters in the Era of Surveillance Capitalism is an indispensable new resource for critical media, communications, ethnic studies, and political science scholars, as well as undergraduate and graduate students. It is also perfect for anyone interested in the broad expansion of intersectional voices in dialogue about everything from political organizing to plant-based diets.
