

definition of crisis in literature

Definition of Crisis in Literature: Understanding the Turning Points of Storytelling

definition of crisis in literature is a concept that often intrigues both readers and writers alike. It represents a pivotal moment in a story where tension peaks, decisions are forced, and the course of the narrative shifts dramatically. Far from being just a plot device, the crisis plays an essential role in shaping character development and engaging audiences on a deeper emotional level. If you've ever found yourself on the edge of your seat during a novel or film, chances are you were experiencing the powerful impact of a literary crisis.

What Exactly Is the Definition of Crisis in Literature?

At its core, the definition of crisis in literature revolves around a critical moment of conflict or difficulty that demands immediate action or resolution from the protagonist or other key characters. It's the point at which the stakes are highest and the outcome is uncertain. This moment often serves as a turning point in the plot, forcing characters to confront their deepest fears, make tough choices, or face consequences that will alter their lives.

Unlike a general conflict, which may persist throughout a story, the crisis is more specific: it's the moment when the tension reaches a boiling point. This can involve internal struggles, external obstacles, or a combination of both. The crisis is often followed by the climax, where the story's primary conflict reaches its ultimate resolution.

Distinguishing Crisis from Other Narrative Elements

It's important to differentiate the crisis from other related terms in storytelling, such as conflict and climax. While conflict refers to the ongoing struggle between opposing forces (like protagonist vs. antagonist, or man vs. self), the crisis is the moment within that conflict that demands a decisive response. The climax, meanwhile, is the peak of the story's action and emotional intensity, often closely connected to the crisis but technically the resolution phase.

Think of it like a roller coaster ride: conflict is the entire track with its ups and downs, the crisis is the steepest drop where your heart races, and the climax is the point where you scream the loudest before the ride slows down.

The Role of Crisis in Story Structure

Understanding the definition of crisis in literature is key to grasping how stories are crafted structurally. Most classical narrative frameworks—whether it's Freytag's Pyramid, the three-act structure, or modern storytelling models—highlight the crisis as an indispensable turning point.

Crisis Within Freytag's Pyramid

Freytag's Pyramid, one of the most well-known narrative structures, outlines five main parts: exposition, rising action, climax, falling action, and resolution. The crisis typically appears near the end of the rising action, acting as the catalyst that propels the story into its climax. It's the moment when the protagonist faces a challenge so significant that it changes the trajectory of the narrative.

For example, in Shakespeare's "Hamlet," the crisis can be seen when Hamlet decides to put on the play that mirrors his father's murder. This moment intensifies the tension and sets the stage for the climactic confrontation.

Crisis in the Three-Act Structure

In the popular three-act structure, the crisis usually occurs at the end of Act Two. This is sometimes called the "midpoint crisis" or "turning point," where the protagonist must make a crucial decision or face a major setback. It raises the stakes dramatically and shifts the story's direction toward resolution.

In many Hollywood films, this crisis moment is the heartbeat of the narrative, keeping viewers invested and eager to see how the conflict will be resolved.

Types of Crisis in Literature

The definition of crisis in literature can apply to various forms and themes depending on the genre and the story's focus. Here are some common types of crises that appear across different narratives:

- **Internal Crisis:** This involves psychological or emotional turmoil within a character. For example, a character grappling with guilt, identity, or moral dilemmas.
- **External Crisis:** A sudden event or external force that threatens the protagonist, such as natural disasters, war, or antagonistic actions.
- **Relational Crisis:** Conflict between characters, such as betrayal, loss, or fractured relationships.
- **Existential Crisis:** When characters question the meaning or purpose of their lives, often leading to profound transformation.

Each crisis type adds unique layers to the story, enriching the narrative and deepening character arcs.

How Crisis Drives Character Development

One of the most compelling reasons crisis moments resonate so deeply is their effect on character growth. When characters face a crisis, they are pushed out of their comfort zones, forced to confront flaws, fears, or hidden strengths. This struggle often leads to transformation, which is at the heart of many memorable stories.

For example, in Harper Lee's "To Kill a Mockingbird," the crisis involves Tom Robinson's trial and the resulting racial tensions. This moment challenges Scout and Jem's understanding of justice and morality, catalyzing their maturation.

Why the Definition of Crisis in Literature Matters for Writers and Readers

For writers, grasping the definition of crisis in literature is crucial for crafting stories that feel dynamic and emotionally engaging. A well-placed crisis can elevate tension, create suspense, and deepen the reader's investment in the characters' journeys. It prevents stories from feeling stagnant and gives the narrative a clear direction.

Readers, on the other hand, often recognize the crisis subconsciously as the part of the story that hooks them most. Understanding this element can enhance appreciation for storytelling techniques and why certain moments feel so impactful.

Tips for Writers to Effectively Use Crisis in Their Stories

- **Build Up the Stakes:** Make sure the crisis truly matters to the characters and the story world.
- **Create Emotional Weight:** Connect the crisis to your characters' desires, fears, or values.
- **Keep It Unpredictable:** Avoid clichés by surprising your audience with unexpected twists.
- **Use Crisis to Reveal Character:** Let the crisis highlight personality traits and growth.
- **Balance Tension and Release:** Follow the crisis with compelling climax and resolution to satisfy readers.

By thoughtfully incorporating crisis moments, writers can craft narratives that linger in readers' minds long after the last page.

Examples of Crisis in Classic and Modern Literature

Exploring famous literary works offers clear examples of how crisis functions within storytelling. In Jane Austen's "Pride and Prejudice," the crisis arises when Elizabeth Bennet learns of Mr. Darcy's true character and must reassess her feelings amidst societal pressures. This moment challenges her prejudices and propels the narrative forward.

In modern literature, Suzanne Collins' "The Hunger Games" series hinges on multiple crises, such as Katniss Everdeen's participation in the deadly games and her rebellion against oppressive systems. These crises not only drive the plot but explore themes of survival, sacrifice, and resistance.

The Crisis as a Universal Storytelling Element

No matter the genre—be it romance, fantasy, thriller, or drama—the definition of crisis in literature remains a fundamental storytelling device. It taps into universal human experiences of conflict, choice, and change, making stories relatable and compelling across cultures and time periods.

In many ways, the crisis mirrors real-life challenges, providing readers with an emotional mirror and sometimes even catharsis. That's why crisis moments often stand out as the most memorable and talked-about parts of a story.

Understanding the definition of crisis in literature opens up a richer appreciation of how stories work and why certain moments grip us so tightly. Whether you're a writer aiming to craft vivid narratives or a reader seeking deeper insight, recognizing the power of crisis will enhance your connection to the art of storytelling.

Frequently Asked Questions

What is the definition of a crisis in literature?

In literature, a crisis refers to a crucial turning point or moment of intense conflict in the plot where the protagonist faces a significant challenge or decision that will determine the direction of the story.

How does a crisis function in the structure of a literary work?

A crisis typically functions as the climax or a pivotal moment that heightens tension and propels the narrative toward resolution, forcing characters to confront their conflicts and make critical choices.

What distinguishes a crisis from other conflicts in literature?

A crisis is distinguished by its immediacy and high stakes, often representing the moment when the protagonist's situation reaches a peak of tension requiring decisive action, unlike ongoing or

background conflicts.

Can the crisis in literature involve internal as well as external conflicts?

Yes, a crisis in literature can involve internal conflicts such as moral dilemmas or emotional struggles, as well as external conflicts like battles or confrontations with antagonists.

Why is the crisis an essential element in storytelling?

The crisis is essential because it creates suspense and emotional engagement, challenges characters in meaningful ways, and ultimately drives the plot toward resolution, making the story impactful.

How is the crisis related to the climax in literature?

The crisis often coincides with or leads directly to the climax, serving as the moment where the central conflict reaches its most intense point before resolution.

Are crises in literature always negative or can they lead to positive outcomes?

Crises are not always negative; while they involve tension and challenge, they can lead to positive outcomes such as growth, transformation, or the overcoming of obstacles by the protagonist.

Definition of Crisis in Literature: An Analytical Exploration

Definition of crisis in literature serves as a pivotal concept in understanding narrative progression, character development, and thematic resonance. Within literary works, a crisis is not merely a moment of conflict or tension; it is the critical turning point that propels the plot forward and often reveals deeper insights into characters' motivations, societal pressures, or existential dilemmas. This article delves into the multifaceted nature of crisis in literature, examining its definition, functions, and manifestations across various genres and historical periods.

Understanding the Definition of Crisis in Literature

At its core, the definition of crisis in literature refers to a decisive moment within a narrative where the protagonist faces a significant challenge or conflict that demands a response. This moment often entails a confrontation with obstacles, moral quandaries, or revelations that dramatically alter the trajectory of the story. Unlike general conflict, which may persist throughout a narrative, the crisis is typically a concentrated event or series of events that catalyze change or climax.

The term "crisis" is derived from the Greek word "krisis," meaning decision or judgment, highlighting its role as a point of critical choice or transformation. In literary theory, a crisis can be

understood as the apex of tension, where the stakes are highest and the outcome uncertain. This definition aligns with Aristotle's classical concept of *peripeteia*, a sudden reversal of fortune that shifts the dramatic direction.

Distinguishing Crisis from Other Narrative Elements

It is important to differentiate crisis from related literary components such as conflict, climax, and resolution. While conflict represents the ongoing struggle between opposing forces, the crisis signifies a moment of acute intensity within that struggle. The climax, often conflated with crisis, is the moment of highest emotional intensity or the peak of action, but the crisis is the turning point that leads directly to this climax.

Resolution, on the other hand, follows the crisis by addressing the consequences of decisions made during the crisis, steering the narrative toward closure or transformation. Therefore, the crisis functions as a fulcrum between rising action and climax, embodying the narrative's moment of reckoning.

The Role of Crisis in Character Development and Theme

The definition of crisis in literature extends beyond plot mechanics; it significantly impacts character arcs and thematic exploration. A crisis often forces characters to confront internal conflicts, ethical dilemmas, or societal expectations, thus revealing their true nature or catalyzing growth.

For example, in Shakespeare's tragedies, the protagonist's crisis is frequently tied to fatal flaws or moral ambiguity, as seen in Hamlet's existential indecision or Macbeth's ambition-fueled descent. These crises not only drive the narrative but also embody larger themes such as fate, free will, and human frailty.

In modern literature, crises may reflect psychological or social issues, offering commentary on identity, power dynamics, or existential angst. The definition of crisis in literature thus encompasses moments that compel introspection and illuminate the human condition.

Comparative Examples Across Genres

To grasp the versatility of crisis in literature, it is instructive to examine how different genres employ this narrative device:

- **Tragedy:** The crisis usually involves a moral or existential dilemma leading to downfall, as in Sophocles' "Oedipus Rex," where the revelation of truth triggers catastrophe.
- **Comedy:** Crises often revolve around misunderstandings or social faux pas that, once resolved, restore harmony, exemplified in Jane Austen's "Pride and Prejudice."

- **Thriller and Mystery:** Crisis moments heighten suspense and urgency, compelling protagonists to solve puzzles or escape danger, as seen in Agatha Christie's detective novels.
- **Science Fiction and Fantasy:** Crises may involve external threats or internal conflicts within speculative frameworks, such as the identity crises in Philip K. Dick's works or the epic battles in Tolkien's "The Lord of the Rings."

These examples illustrate that while the definition of crisis in literature remains consistent as a turning point, its manifestations adapt to genre conventions and narrative goals.

Structural Features and Narrative Impact of Crisis

From a structural perspective, crisis serves several key functions in narrative design:

1. **Escalation of Tension:** The crisis heightens narrative stakes, increasing reader engagement and emotional investment.
2. **Decision-Making Point:** Characters must make pivotal choices that affect subsequent events, emphasizing agency and consequence.
3. **Theme Reinforcement:** The crisis spotlights central themes, often through symbolic or dramatic confrontation.
4. **Plot Advancement:** It catalyzes shifts in direction, creating momentum toward resolution or further complications.

These features underscore why the crisis is integral to a compelling narrative, providing dynamism and depth.

Pros and Cons of Crisis as a Literary Device

Like any narrative element, the crisis has its advantages and potential pitfalls:

- **Pros:**
 - Enhances dramatic tension and pacing.
 - Facilitates character development and thematic clarity.
 - Engages readers emotionally and intellectually.

- **Cons:**

- Overuse or poorly constructed crises can feel contrived or melodramatic.
- Excessive reliance on external crises may overshadow internal character complexity.
- In some narratives, abrupt crises may disrupt narrative cohesion.

Effective literary crises balance external action with internal resonance, ensuring authenticity and impact.

Evolution of the Crisis Concept in Literary Criticism

The definition of crisis in literature has evolved alongside literary theory and criticism. Classical critics emphasized its role within tragedy and dramatic structure, as articulated by Aristotle and later dramatists. In the 19th and 20th centuries, the rise of psychological and existentialist criticism expanded the understanding of crisis to encompass internal conflicts and subjective experiences.

Contemporary literary studies often analyze crises through cultural, feminist, postcolonial, and psychoanalytic lenses, revealing how crises reflect broader social and ideological tensions. For instance, crises in postcolonial literature may symbolize the clash between indigenous identities and colonial legacies, while feminist readings explore how female characters navigate crises shaped by gendered power structures.

Thus, the definition of crisis in literature is not static but dynamically interacts with changing interpretive frameworks and cultural contexts.

Integrating Crisis into Modern Narrative Techniques

Modern authors and screenwriters frequently manipulate traditional notions of crisis to subvert expectations and innovate storytelling. Nonlinear narratives, fragmented structures, and unreliable narrators complicate the identification and impact of crises, challenging readers to engage more actively with the text.

Moreover, some contemporary works distribute crises across multiple characters or plotlines, diffusing the central turning point into a mosaic of interconnected moments. This approach reflects the complexity of modern life and narrative experimentation, broadening the scope of what constitutes a crisis in literature.

Such innovations demonstrate the enduring relevance and adaptability of the crisis concept, affirming its centrality to narrative art.

The exploration of the definition of crisis in literature reveals it as a multifaceted construct—one that anchors narrative tension, deepens character portrayal, and enriches thematic expression. By examining its diverse applications and evolving interpretations, readers and scholars alike gain a fuller appreciation of how crises shape the stories that define human experience.

definition of crisis in literature: Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist, and sometimes conflict, within it. I.R. Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the Encyclopedia of Contemporary Literary Theory provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools, and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements, as well as the influence, of specific scholars, and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant, complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini-bibliographies, and cross-referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.

definition of crisis in literature: Handbook of e-Tourism Zheng Xiang, Matthias Fuchs, Ulrike Gretzel, Wolfram Höpken, 2022-09-01 This handbook provides an authoritative and truly comprehensive overview both of the diverse applications of information and communication technologies (ICTs) within the travel and tourism industry and of e-tourism as a field of scientific inquiry that has grown and matured beyond recognition. Leading experts from around the world describe cutting-edge ideas and developments, present key concepts and theories, and discuss the full range of research methods. The coverage accordingly encompasses everything from big data and analytics to psychology, user behavior, online marketing, supply chain and operations management, smart business networks, policy and regulatory issues – and much, much more. The goal is to provide an outstanding reference that summarizes and synthesizes current knowledge and establishes the theoretical and methodological foundations for further study of the role of ICTs in travel and tourism. The handbook will meet the needs of researchers and students in various disciplines as well as industry professionals. As with all volumes in Springer’s Major Reference Works program, readers will benefit from access to a continually updated online version.

definition of crisis in literature: A Dictionary of Science, Literature, and Art ... With the derivation and definition of all the terms in general use. Edited by W. T. Brande ... assisted by Joseph Cauvin, etc. William Thomas BRANDE, 1852

definition of crisis in literature: *Brain Diseases—Advances in Research and Application: 2013 Edition*, 2013-06-21 Brain Diseases—Advances in Research and Application: 2013 Edition is a ScholarlyEditions™ book that delivers timely, authoritative, and comprehensive information about Brain Injuries. The editors have built Brain Diseases—Advances in Research and Application: 2013 Edition on the vast information databases of ScholarlyNews.™ You can expect the information about Brain Injuries in this book to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Brain Diseases—Advances in Research and Application: 2013 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>.

definition of crisis in literature: *Crises in World Politics* Michael Brecher, 2013-10-22 Crises in World Politics: Theory & Reality presents the study of international conflict. This book discusses the danger of crises to global and regional stability. Organized into eight chapters, this book begins with an overview of the key concepts of the inquiry, conflict, crisis, and war. This text then explores the four phases of an interstate crisis, namely, onset, escalation, de-escalation, and impact. Other chapters consider the unified model of crisis, which is applied to the Gulf Crisis-War of 1990-91. This book discusses as well the most intense military-security crisis in the 20th century, the dynamics of the process, and how the actors coped with their crisis. The final chapter summarizes the primary findings about models and concepts, and about each phase and its corresponding period at the actor level, namely, pre-crisis, crisis, end-crisis, and post-crisis. This book is a valuable resource for historians, policy makers, and social scientists.

definition of crisis in literature: *The Institution of English Literature* Barbara Schaff, Johannes Schlegel, Carola Surkamp, 2016-11-07 The contributions investigate the ways in which numerous institutions of English literature shape the literary field. While they cover an extensive historical field, ranging from the Early Modern period to the 18th century to the contemporary, they focus not only on literary texts, but also on extra-literary ones, including literary prizes, literary histories and anthologies, and highlight the various ways in which these negotiate the processes that constitute the literary field. All contributions assert that there is no such thing as literature outside of institutions. Great emphasis is therefore put on different acts of mediation.

definition of crisis in literature: *The Princeton Sourcebook in Comparative Literature* David Damrosch, Natalie Melas, Mbongiseni Buthelezi, 2009-08-23 Key essays on comparative literature from the eighteenth century to today As comparative literature reshapes itself in today's globalizing age, it is essential for students and teachers to look deeply into the discipline's history and its present possibilities. The Princeton Sourcebook in Comparative Literature is a wide-ranging anthology of classic essays and important recent statements on the mission and methods of comparative literary studies. This pioneering collection brings together thirty-two pieces, from foundational statements by Herder, Madame de Staël, and Nietzsche to work by a range of the most influential comparatists writing today, including Lawrence Venuti, Gayatri Chakravorty Spivak, and Franco Moretti. Gathered here are manifestos and counterarguments, essays in definition, and debates on method by scholars and critics from the United States, Europe, Asia, Africa, and Latin America, giving a unique overview of comparative study in the words of some of its most important practitioners. With selections extending from the beginning of comparative study through the years of intensive theoretical inquiry and on to contemporary discussions of the world's literatures, The Princeton Sourcebook in Comparative Literature helps readers navigate a rapidly evolving discipline in a dramatically changing world.

definition of crisis in literature: *Introducing Comparative Literature* César Domínguez, Haun Saussy, Darío Villanueva, 2014-12-17 Introducing Comparative Literature is a comprehensive guide to the field offering clear, concise information alongside useful analysis and examples. It frames the introduction within recent theoretical debates and shifts in the discipline whilst also

addressing the history of the field and its practical application. Looking at Comparative Literature within the context of globalization, cosmopolitanism and post or transnationalism, the book also offers engagement and comparison with other visual media such as cinema and e-literature. The first four chapters address the broad theoretical issues within the field such as 'interliterary theory', decoloniality, and world literature, while the next four are more applied, looking at themes, translation, literary history and comparison with other arts. This engaging guide also contains a glossary of terms and concepts as well as a detailed guide to further reading.

definition of crisis in literature: *Encyclopedia of Human Behavior*, 2012-01-31 The Encyclopedia of Human Behavior, Second Edition, Three Volume Set is an award-winning three-volume reference on human action and reaction, and the thoughts, feelings, and physiological functions behind those actions. Presented alphabetically by title, 300 articles probe both enduring and exciting new topics in physiological psychology, perception, personality, abnormal and clinical psychology, cognition and learning, social psychology, developmental psychology, language, and applied contexts. Written by leading scientists in these disciplines, every article has been peer-reviewed to establish clarity, accuracy, and comprehensiveness. The most comprehensive reference source to provide both depth and breadth to the study of human behavior, the encyclopedia will again be a much-used reference source. This set appeals to public, corporate, university and college libraries, libraries in two-year colleges, and some secondary schools. Carefully crafted, well written, and thoroughly indexed, the encyclopedia helps users—whether they are students just beginning formal study of the broad field or specialists in a branch of psychology—understand the field and how and why humans behave as we do. Named a 2013 Outstanding Academic Title by the American Library Association's Choice publication Concise entries (ten pages on average) provide foundational knowledge of the field Each article features suggested further readings, a list of related websites, a 5-10 word glossary and a definition paragraph, and cross-references to related articles in the encyclopedia Newly expanded editorial board and a host of international contributors from the United States, Australia, Belgium, Canada, France, Germany, Ireland, Israel, Japan, Sweden, and the United Kingdom

definition of crisis in literature: *A Companion to Comparative Literature* Ali Behdad, Dominic Thomas, 2014-09-15 A Companion to Comparative Literature presents a collection of more than thirty original essays from established and emerging scholars, which explore the history, current state, and future of comparative literature. Features over thirty original essays from leading international contributors Provides a critical assessment of the status of literary and cross-cultural inquiry Addresses the history, current state, and future of comparative literature Chapters address such topics as the relationship between translation and transnationalism, literary theory and emerging media, the future of national literatures in an era of globalization, gender and cultural formation across time, East-West cultural encounters, postcolonial and diaspora studies, and other experimental approaches to literature and culture

definition of crisis in literature: *Decolonisations of Literature* Stefan Helgesson, 2022-04-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library. This book sets out to understand how the meaning of 'literature' was transformed in the Global South in the post-1945 era. It looks at institutional contexts in South Africa (mainly Johannesburg), Brazil (São Paulo), Senegal (Dakar) and Kenya (Nairobi), and engages with critical writing in English, Portuguese and French. Critics studied in the book include Antonio Candido, Tim Couzens, Isabel Hofmeyr, Es'kia Mphahlele, Léopold Senghor, Taban Lo Liyong and Ngugi wa Thiong'o. By reading these intellectuals of the Global South as producers of theory and practice in their own right, the book attempts to demonstrate the contingency of what is here called the worlding of the concept of literature. 'Decolonisation' itself is seen as a contingent, non-linear process that unfolds in a recursive dialogue with the past. In a bid to offer a more grounded approach to world literature, a key objective of this study is therefore to investigate the accumulation of temporalities in institutional histories of critical practice. To reach this objective, it engages the method of conceptual history as developed by Reinhart Koselleck and David Scott, demonstrating how the

concept of 'literature' is resemanticised in ways that dialectically both challenge and consolidate literature as a concept and practice in post-colonised societies.

definition of crisis in literature: *Safety and Security in Tourism* C Michael Hall, Dallen J. Timothy, David Timothy Duval, 2012-12-06 How will the travel and tourism industry respond to the terrorist attacks on America? The recent terrorist attacks in the United States and their repercussions for the travel and leisure industries have focused more attention on tourism safety and security issues than ever before. The impact on tourism destinations and businesses, as well as on traveler behavior, will be significant. Recent events require further analysis not only of how travel safety may be improved but also how security issues may be seen in terms of tourism marketing and management so that the industry is able to better respond to such challenges. In this, an era of turbulent global relationships, the need for destination marketing organizations to demonstrate that they are safe for tourists has become increasingly important. Negative publicity, often unrelated to on-the-ground reality, may also serve to affect tourist perceptions. *Safety and Security in Tourism: Relationships, Management, and Marketing* examines: the effects of the September 11, 2001 attacks on the tourism industry and how the industry is responding the importance of safety as a factor in destination or activity choice case studies of destination and business responses to past political instability and/or attacks against tourists safety, security and destination image the role of the media in influencing consumer perceptions of travel safety consumer awareness of travel advisories and their influence on behavior the role of insurance in the travel industry consumer awareness and acceptance of security measures in travel and tourism safety and security as a component in destination marketing crisis and risk management in the tourism industry cross-border security and visa controls and their implications for tourism safety and security measures for tourists in different sectors and in airports Tourism has often been cited as a force for peace, yet tourism is typically one of the first industrial casualties of war and political unrest. This book examines tourism safety and security issues to give you a better knowledge base from which to respond to future events.

definition of crisis in literature: *Threats to International Financial Stability* Richard Portes, Alexander K. Swoboda, 1987-07-09 This volume, based on conference organized by the International Center for Monetary and Banking Studies in association with the Centre for Economic Policy Research, brings together a leading group of economists, financial theorists, policy-makers and bankers to analyse threats to international financial stability. The potential fragility of the international financial and monetary system has been highlighted by recent international debt crises as well as by rapid financial innovation and important regulatory changes. The book examines the anatomy and propagation of international financial crises, assesses the adequacy of current regulatory and supervisory practices, and suggests measures that would help to avoid or contain financial crises. The papers, written by academics, are discussed by leading bank supervisors and regulators and by central and private bankers. The volume offers a unique combination of analytical rigour and practical relevance and will interest all those concerned with the stability of the international financial system.

definition of crisis in literature: *Challenges and Channels* Ikram Ahmed Ibrahim Elsherif, Piers Michael Smith, 2016-06-22 This book deals with the "challenges of teaching the English language and literature" in the Middle East and North Africa region, with a special focus on the Gulf countries. It consists of different articles by an international group of educators and scholars who have first-hand experience in teaching the English language and its literatures in this region. The contributors not only investigate student attitudes, cultural, political and administrative obstacles and challenges, but they also embark upon soul-searching journeys in which they examine their own attitudes, teaching strategies, cultural prejudices and preconceptions, and personal responses to their teaching environments. They also explore, from their own personal experiences, the 'crisis in the humanities', cultural hegemony, ethics in translation, cross-cultural encounters, pedagogical challenges, textuality, and second language acquisition, among other issues and concerns. As such, the book represents both a scholarly investigation and a colorful palette of personal experience and response to human encounters in the classroom.

definition of crisis in literature: *Handbook of Research on Strategic Developments and Regulatory Practice in Global Finance* Olgu, Özlem, Dinçer, Hasan, Hacıoğlu, Ümit, 2014-11-30 The global financial crisis has called to attention the importance of financial development to economic growth as modern countries continue to struggle with debt, unemployment, and slow growth. However, a lack of agreement on how to define and measure financial development slows the development of global financial systems and markets. The Handbook of Research on Strategic Developments and Regulatory Practice in Global Finance creates a common framework for not only identifying but discussing the key factors in establishing a strong global market and financial system. This book will be a valuable reference for those interested in an in-depth understanding of the financial markets and global finance, including academics, professionals, and government agencies and institutions.

definition of crisis in literature: *Post-COVID Tourism and Hospitality Dynamics* Umendra Narayan Shukla, Sharad Kumar Kulshreshtha, 2024-01-09 This new volume takes an in-depth look at the post-COVID tourism and hospitality scenario and how the industry has adapted to the new normal. With chapters from authors from over a dozen countries, the book shares information and experiences on how diverse hospitality and tourism sectors are navigating the post-COVID era. The book offers analyses of post-COVID trends in the travel, tourism, and hospitality sector along with case studies and COVID tourism recovery strategies. It discusses post-COVID safety protocols, sustainable tourism practices, post-COVID-19 public policies for tourism, and more. Specific tourism and hospitality sectors are also considered, including wine tourism, MICE (meetings, incentives, conferences, and exhibitions) tourism, regional tourism, food delivery services, and others. The book also explores innovations and digital solutions for tourism and hospitality in the COVID-19 pandemic.

definition of crisis in literature: *The Cambridge History of Latin American Literature* Roberto Gonzalez Echevarría, Enrique Pupo-Walker, 1996-09-13 Volume 1 of a comprehensive three-volume history of Latin American literature (including Brazilian): the only work of its kind.

definition of crisis in literature: *Learning from Economic Downturns* Xiaohui Hou, Edit V. Velényi, Abdo S. Yazbeck, Roberto F. Iunes, Owen Smith, 2013-10-11 This book builds on the lessons of the most recent global financial crisis, especially in Europe and Central Asia and proposes a more effective role for the health sector as part of a safety net function and as a stabilizer for the population during a crisis.

definition of crisis in literature: *Revelation* Elisabeth Schüssler Fiorenza, 1991 Elisabeth Schussler Fiorenza charts a new and provocative course in the interpretation of the book of Revelation. She recognizes not only the ideological distortions but also the sociopolitical location of the Apocalypse. In this way she opens to the reader the world of vision of this powerful New Testament book. This book has three major sections: (1) an introduction that centers on social location and rhetorical analysis; (2) the commentary; and (3) a theo- ethical rhetorical reading of the visionary world of the book of Revelation under the headings of empire, tribulation, resistance, and competing voices.

definition of crisis in literature: *Game Theory and Postwar American Literature* Michael Wainwright, 2017-02-14 If game theory, the mathematical simulation of rational decision-making first axiomatically established by the Hungarian-born American mathematician John von Neumann, is to prove worthy of literary hermeneutics, then critics must be able to apply its models to texts written without a working knowledge of von Neumann's discipline in mind. Reading such iconic novels as *Fahrenheit 451*, *In Cold Blood*, and *Kiss Tomorrow Goodbye* from the perspective of the four most frequently encountered coordination problems - the Stag Hunt, the Prisoner's Dilemma, Chicken, and Deadlock, *Game Theory and Postwar American Literature* illustrates the significant contribution of mathematical models to literary interpretation. The interdisciplinary approach of this book contributes to an understanding of the historical, political, and social contexts that surround the texts produced in the post-Cold War years, as well as providing a comprehensive model of joining game theory and literary criticism.
