andersons business law 22nd edition: Business Law in Japan Christopher Heath, Moritz Bälz, 2012-04-12 Compilations of cases with commentary - in Japanese Hanrei Hyakusen - often provide the most practical way to obtain a quick and reliable understanding of a specific field of law, as well as guidance on how best to proceed in specific situations. In this respect, leading cases much more than statutory provisions are essential for understanding the reality of Japanese commercial law. This incomparable book compiles 72 of the most important commercially relevant Japanese court decisions in the fields of civil law, labour law, company law, financial transactions, intellectual property, antitrust, conflict of laws, and arbitration. Each decision is presented in English translation and is accompanied by a practical and explanatory commentary by an expert in the field, be it from academia or private practice. There are 50 commentators in all, brought together here to honour the 60th birthday of Harald Baum, widely regarded as one of the world's foremost scholars on Japanese business law. The cases encompass a wide reach of causes of action in fields such as: breach of contract; tort liability; product liability; unjust enrichment; collective bargaining; shareholders'

rights; directors' duty of care; political donations; insider trading; patent infringement; parallel imports; trade mark rights; unfair competition; publicity rights; price fixing; arbitration agreements; and recognition of foreign judgements. Whether serving as practical guidance or as a basis for academic research, this compilation will be warmly welcomed by practicing lawyers, teachers and students of Japanese and international law, and all others who need to understand the various fields of Japanese commercial law.

andersons business law 22nd edition: Legal and Ethical Standards in Corporate Insolvency Elizabeth Streten, 2024-06-17 Recent financial crisis and the global financial impacts of the COVID-19 pandemic have brought renewed interest to the regulation and practice of corporate insolvency and restructuring. Modernisation of the insolvency profession, and the regulation of its practitioners, is a contemporary concern and recent years have seen significant reforms of insolvency law. The success of such reforms can be enhanced through a clear understanding of difficulties faced by the insolvency profession in achieving successful restructuring and insolvency outcomes and through the determination of effective solutions to those difficulties. However, there is limited empirical data to inform the day-to-day practice of insolvency, nor the difficulties experienced by insolvency practitioners in pursuing insolvency and restructuring solutions. This book addresses this absence of data and understanding, examining the role and practice of corporate insolvency practitioners and exploring the challenges that they encounter. Offering an empirical study together with a comparative analysis of the experiences of practitioners around the world, this book facilitates a greater understanding of corporate insolvency practice, confronting a misunderstanding of, and under-confidence in, corporate insolvency practitioners, making it key reading for academics, practitioners and regulators working in the area of corporate insolvency.
