Black Europe and the African Diaspora: Exploring History, Culture, and Identity

black europe and the african diaspora form an intricate tapestry that weaves together histories, cultures, and identities across continents. When we think about Europe, it's easy to imagine a continent defined by its medieval castles, Renaissance art, or industrial revolutions. Yet, the presence and influence of African-descended communities in Europe have deep roots and vibrant contemporary realities that challenge conventional narratives. This article delves into the rich story of Black Europe and the African diaspora, uncovering the layers of history, cultural contributions, and ongoing dialogues about identity and belonging.

Understanding the African Diaspora in Europe

The African diaspora refers to the communities around the world descended from the peoples of Africa, mostly as a result of the transatlantic slave trade, colonialism, and migration. When we talk about Black Europe, we are referring to these African-descended populations living across European countries, each with unique experiences shaped by the continent's diverse social, political, and historical landscapes.

The Historical Context of Black Presence in Europe

Black individuals have been part of European history for centuries, even before the infamous transatlantic slave trade. During the Roman Empire, African soldiers, traders, and servants lived in what is now modern-day Europe. The Middle Ages also saw notable Black figures in European courts — for example, Saint Maurice, a Black Roman legionary, became a Christian martyr revered in parts of Germany and Switzerland.

Fast forward to the 15th and 16th centuries, and the transatlantic slave trade dramatically altered the demographics of Europe and the Americas. While much focus is placed on the Americas, Europe itself became home to African-descended people through slavery, maritime work, and later, colonial administrators and migrants. Countries like Portugal, Spain, France, and the United Kingdom, with their colonial empires, witnessed the arrival of African and Afro-Caribbean populations.

Migration Waves and Modern Black Europe

The 20th century brought significant waves of migration from Africa and the Caribbean to Europe. Post-World War II reconstruction efforts in Britain, France, and the Netherlands, for example, attracted workers from former colonies. Migrants sought economic opportunities, education, and refuge from political unrest.

Today, Black Europeans can be found in cities from London and Paris to Lisbon and Berlin. Each community carries its unique story, shaped by language, culture, and the host country's attitudes toward race and immigration. This diversity within Black Europe reflects a broad spectrum of

identities, from second- and third-generation citizens to recent arrivals.

Cultural Contributions of Black Europe and the African Diaspora

Black Europeans have left an indelible mark on the cultural fabric of Europe, influencing music, art, literature, sports, and politics.

Music and the Arts

The African diaspora has profoundly impacted European music scenes. Jazz, reggae, hip-hop, and Afrobeat have become integral to many European cities' cultural life. Artists like Stormzy in the UK and Aya Nakamura in France blend African and European influences, creating sounds that resonate globally.

Visual arts also reflect the diaspora's narratives, with contemporary Black European artists exploring themes of identity, migration, and history. Museums and galleries increasingly showcase works by African-descended artists, helping to broaden understandings of European art beyond traditional Eurocentric frames.

Literature and Storytelling

Writers from the African diaspora in Europe have enriched literary traditions with powerful stories that challenge stereotypes and explore complex identities. Authors like Zadie Smith, Chimamanda Ngozi Adichie (though based in the US, with Nigerian roots), and Taiye Selasi offer nuanced perspectives on what it means to be Black and European.

Their works often navigate the intersections of race, culture, and belonging, providing readers with insights into the lived experiences of Black Europeans. This literary contribution is crucial in reshaping mainstream narratives about Europe's multicultural reality.

Identity and Belonging in Black Europe

The question of identity is central to discussions about Black Europe and the African diaspora. How do individuals reconcile their African heritage with their European upbringing or citizenship? What does it mean to belong in societies that have historically marginalized Black populations?

Negotiating Multiple Identities

Many Black Europeans live at the crossroads of multiple identities. They may identify as British,

French, Dutch, or German, while also embracing their African heritage. This dual or multi-layered identity can be a source of strength but also complexity.

For example, language can be a key marker of identity. Some Black Europeans speak African languages at home, alongside European languages learned in school. Food, music, and religious practices also play roles in maintaining cultural connections.

Challenges and Resilience

Despite rich cultural contributions, Black Europeans often face systemic challenges, including racism, discrimination, and social exclusion. Issues such as police profiling, unequal employment opportunities, and underrepresentation in politics remain pressing concerns.

However, Black communities across Europe continue to build resilience through grassroots activism, cultural festivals, and educational initiatives. Organizations focused on racial justice and inclusion work tirelessly to promote equity and celebrate Black European heritage.

The Impact of Black Europe and the African Diaspora on Contemporary Society

The presence of the African diaspora in Europe is not just a historical footnote; it's a dynamic force shaping modern European societies.

Political Engagement and Representation

Increasingly, Black Europeans are gaining visibility in political arenas. Figures such as France's Rokhaya Diallo, the UK's Diane Abbott, and Belgium's Assita Kanko represent a growing movement toward inclusivity and diversity in governance.

Political activism within Black European communities often centers on combating racism, advocating for immigrant rights, and promoting social justice. This activism enriches democratic discourse and pushes European societies toward greater equality.

Education and Awareness

Educational institutions across Europe are beginning to integrate the histories and contributions of Black Europeans and the African diaspora into their curricula. This shift is vital for fostering a more comprehensive understanding of Europe's multicultural reality.

Awareness campaigns and cultural events also help dismantle stereotypes and celebrate diversity, inviting all Europeans to engage with the continent's rich mosaic of identities.

Exploring the Future of Black Europe and the African Diaspora

Looking ahead, the story of Black Europe and the African diaspora continues to evolve. As younger generations assert their identities and claim their spaces, Europe's cultural and social landscapes will undoubtedly become more inclusive and representative.

Efforts to document, celebrate, and educate about the African diaspora's role in Europe are crucial in this journey. Whether through art, activism, education, or everyday interactions, Black European communities contribute to a vibrant, pluralistic continent that embraces its complex heritage.

The journey of Black Europe and the African diaspora is one of resilience, creativity, and transformation—an ongoing narrative that enriches Europe beyond measure.

Black Europe and the African Diaspora: An Analytical Review

black europe and the african diaspora represent a complex and multifaceted phenomenon that encompasses history, culture, identity, and socio-political dynamics across the European continent. The African diaspora in Europe is not a singular narrative but a tapestry of diverse experiences shaped by migration patterns, colonial legacies, and contemporary social integration challenges. This article delves into the nuances of Black Europe and the African diaspora, examining their historical roots, demographic trends, cultural contributions, and ongoing struggles for recognition and equity.

Historical Context of Black Europe and the African Diaspora

The presence of Black people in Europe, often overlooked in mainstream historical accounts, dates

back centuries. While the transatlantic slave trade is a pivotal chapter in the African diaspora's history, African individuals have been part of European societies long before the 15th century. From the Roman Empire's inclusion of North African soldiers and intellectuals to the Moors' influence in medieval Spain and Portugal, Black Europeans have contributed to the continent's cultural and social fabric for generations.

The colonial era significantly altered the relationship between Europe and Africa. European powers' colonization of African territories from the 19th century onwards facilitated the forced and voluntary movement of Africans to Europe. Post-World War II labor shortages in Western Europe led to increased migration from former colonies, especially from countries like Nigeria, Ghana, Senegal, and the Caribbean. This migration wave laid the foundation for the contemporary African diaspora communities in cities such as London, Paris, Amsterdam, and Berlin.

Demographic Overview and Migration Patterns

Today, the African diaspora in Europe is estimated to number over nine million people, encompassing first-generation migrants and their descendants. This demographic diversity includes individuals from Sub-Saharan Africa, North Africa, and the Caribbean, reflecting a broad spectrum of cultural backgrounds and experiences.

Migration to Europe has been driven by various factors:

- **Economic Opportunities:** Many African migrants seek better employment prospects and improved living standards.
- **Education:** European universities attract African students, some of whom settle permanently.
- **Political Asylum:** Conflict, political instability, and persecution in African countries have led to asylum-seeking in European nations.

Countries like France, the United Kingdom, Germany, Italy, and the Netherlands have significant African diaspora populations. France, for example, hosts a large community primarily from its former colonies in West and Central Africa, while the UK's African diaspora includes large groups from Nigeria, Ghana, and the Caribbean.

Cultural Contributions and Identity Formation

The African diaspora in Europe has enriched the continent's cultural landscape in numerous ways. From music and literature to fashion and cuisine, Black Europeans have introduced dynamic elements that challenge and expand traditional European cultural narratives.

Arts, Music, and Literature

Artists of African descent in Europe have gained increasing recognition, contributing to genres such as jazz, hip-hop, Afrobeats, and contemporary visual arts. The literary scene features prominent Black European authors who explore themes of identity, migration, and postcolonial legacies, adding critical perspectives to European literature.

Negotiating Identity and Belonging

Identity among Black Europeans is often a negotiation between heritage and the societal context of their countries of residence. Many individuals navigate complex intersections of race, nationality, and culture, confronting issues of marginalization, stereotyping, and systemic discrimination. The concept of “Black Europe” thus embodies a transnational identity that resists simplistic categorizations.

Challenges and Socio-Political Dynamics

Despite their contributions, the African diaspora in Europe faces persistent challenges related to integration, discrimination, and socio-economic disparities. Studies indicate that Black Europeans often experience higher rates of unemployment, lower income levels, and barriers in accessing quality education compared to the general population.

Racism and Discrimination

Institutional racism and everyday discrimination remain significant obstacles. Reports from the European Union Agency for Fundamental Rights reveal that many Black Europeans encounter racial profiling, hate crimes, and exclusion in housing and employment sectors. Such systemic issues have spurred activism and policy debates around equality and anti-racism.

Political Representation and Activism

In recent years, there has been a growing movement advocating for greater political representation and social justice for Black Europeans. Grassroots organizations, cultural festivals, and academic initiatives highlight the importance of recognizing the African diaspora’s role in shaping Europe’s future. Political figures of African descent are increasingly visible in European parliaments and local governments, signaling gradual shifts toward inclusivity.

Comparative Perspectives: Black Europe vs. African Diaspora in Other Regions

Comparing the African diaspora in Europe with those in North America and Latin America reveals distinctive patterns shaped by historical contexts and contemporary policies. Unlike the United States, where the African American community has a unique historical trajectory rooted in slavery and civil rights struggles, Black Europe's diaspora is more heterogeneous, comprising multiple waves of migration from various African nations and the Caribbean.

Moreover, Europe's colonial history directly impacts the diaspora's composition and experiences. The diversity of languages, cultures, and colonial ties results in varied integration processes and identity formations. While systemic racism is prevalent across all regions, European countries differ in their approaches to multiculturalism, citizenship, and anti-discrimination laws, affecting diaspora communities differently.

Economic Integration and Social Mobility

Economic outcomes for the African diaspora in Europe vary by country and community. For example, immigrants in the UK often benefit from relatively more robust anti-discrimination frameworks and higher educational attainment, which can enhance social mobility. Conversely, in countries with less inclusive policies or more rigid labor markets, such as Italy or Greece, African migrants face greater economic precarity.

Language and Cultural Retention

Language plays a crucial role in cultural retention and integration. Francophone African communities in France and Belgium maintain strong linguistic ties to their countries of origin, which can both aid cultural preservation and complicate full integration. In contrast, Anglophone African migrants in the UK often find linguistic familiarity that facilitates access to education and employment but may encounter different challenges in cultural acceptance.

The Future of Black Europe and the African Diaspora

Looking ahead, the trajectory of Black Europe and the African diaspora will likely be shaped by demographic trends, policy reforms, and evolving social attitudes. The youth within these communities represent a growing demographic with increasing educational attainments and cultural influence, poised to redefine European societies.

Technology and social media have also empowered diaspora communities to connect transnationally, fostering solidarity and amplifying their voices in public discourse. Moreover, ongoing debates around immigration, integration, and identity in Europe suggest that the African diaspora will continue to play a central role in shaping notions of European diversity and inclusivity.

The interplay between historical legacies and contemporary realities makes Black Europe and the African diaspora a critical area for continued research, policy attention, and cultural engagement. Their stories and contributions challenge Europe to reconsider its narratives and embrace a more pluralistic vision of its identity.

black europe and the african diaspora: Black Europe and the African Diaspora Darlene Clark Hine, Trica Danielle Keaton, Stephen Small, 2023-12-11 The presence of Blacks in a number of European societies has drawn increasing interest from scholars, policymakers, and the general public. This interdisciplinary and multi-disciplinary collection penetrates the multifaceted Black presence in Europe, and, in so doing, complicates the notions of race, belonging, desire, and identities assumed and presumed in revealing portraits of Black experiences in a European context. In focusing on contemporary intellectual currents and themes, the contributors theorize and re-imagine a range of historical and contemporary issues related to the broader questions of blackness, diaspora, hegemony, transnationalism, and Black Europe itself as lived and perceived realities. Contributors are Allison Blakely, Jacqueline Nassy Brown, Tina Campt, Fred Constant, Alessandra Di Maio, Philomena Essed, Terri Francis, Barnor Hesse, Darlene Clark Hine, Dienne Hondius, Eileen Julien, Trica Danielle Keaton, Kwame Nimako, Tiffany Ruby Patterson, T. Denean Sharpley-Whiting, Stephen Small, Tyler Stovall, Alexander G. Weheliye, Gloria Wekker, and Michelle M. Wright.

black europe and the african diaspora: *Belonging in Europe - The African Diaspora and Work* Caroline Bressey, Hakim Adi, 2013-09-13 This publication does not just mark the presence of black people in Europe, but brings research to a new stage by making connections across Europe through the experience of work and labour. The working experience for black peoples in Europe was not just confined to ports and large urban areas – often the place black people are located in the imagination of the European map both today and historically. Work took place in small towns, villages and on country estates. Until the 1800s enslaved Africans would have worked alongside free blacks and their white peers. How were these labour relations realised be it on a country estate or a town house? How did this experience translate into the labour movements of the twentieth century? These are some of the questions the essays in this collection address, contributing to new understandings of European life both historically and today. This book was originally published as a special issue of *Immigrants and Minorities*.

black europe and the african diaspora: **Black Spaces** Heather Merrill, 2018-05-25 *Black Spaces* examines how space and place are racialized, and the impacts on everyday experiences among African Italians, immigrants, and refugees. It explores the deeply intertwined histories of Africa and Europe, and how people of African descent negotiate, contest, and live with anti-blackness in Italy. The vast majority of people crossing the Mediterranean into Europe are from West Africa and the Horn of Africa. Their passage is part of the legacy of Italian and broader European engagement in colonial projects. This largely forgotten history corresponds with an ongoing effort to erase them from the Italian social landscape on arrival. *Black Spaces* examines these racialized spaces by blending a critical geographical approach to place and space with Afro-Pessimist and critical race perspectives on the lived experiences of Blackness and anti-blackness in Italy.

black europe and the african diaspora: **Germany and the Black Diaspora** Mischa Honeck, Martin Klimke, Anne Kuhlmann, 2013-07-01 The rich history of encounters prior to World War I between people from German-speaking parts of Europe and people of African descent has gone

largely unnoticed in the historical literature—not least because Germany became a nation and engaged in colonization much later than other European nations. This volume presents intersections of Black and German history over eight centuries while mapping continuities and ruptures in Germans' perceptions of Blacks. Juxtaposing these intersections demonstrates that negative German perceptions of Blackness proceeded from nineteenth-century racial theories, and that earlier constructions of “race” were far more differentiated. The contributors present a wide range of Black-German encounters, from representations of Black saints in religious medieval art to Black Hessians fighting in the American Revolutionary War, from Cameroonian children being educated in Germany to African American agriculturalists in Germany's protectorate, Togoland. Each chapter probes individual and collective responses to these intercultural points of contact.

black europe and the african diaspora: *Writing the History of the African Diaspora* Toyin Falola, 2024-06-06 This Element is an analysis of the African Diaspora. It will define the African Diaspora and how the concepts behind the term came to be socially and historically engineered. The African diaspora is then placed into a broader historical context where the diverse, global, and overlapping histories of Africa's ancient-ongoing diasporas will be explored. In particular, themes of injustice, agency, resistance, and diversity (regarding people, diasporas, and experiences) will feature heavily. Through this exploration, this Element will interrogate dominating narratives regarding African diaspora-related discourse, seeking to address prevailing ideas that inadequately capture the true complexity and nuance of the subject. It does so to construct a more comprehensive understanding of the subject matter while lining out a more holistic approach to thinking about the very nature of 'diaspora.' Finally, this Element will analyze the present circumstances of the African diaspora, bringing into conversation a progressively global and connected world.

Twenty-six activists, academics, and artists cover a wide range of topics, engaging with processes of affiliation, discrimination, and resistance. They negotiate the methodological foundations of the field, explore different meanings and politics of 'African' and 'European', and investigate African European representations in literature, film, photography, art, and other media. In three thematic sections, the book focusses on: African European social and historical formations African European cultural production Decolonial academic practice *Locating African European Studies* features innovative transdisciplinary research, and will be of interest to students and scholars of various fields, including Black Studies, Critical Whiteness Studies, African American Studies, Diaspora Studies, Postcolonial Studies, African Studies, History, and Social Sciences.

black europe and the african diaspora: *African Europeans* Olivette Otele, 2021-05-04 A dazzling history of Africans in Europe, revealing their unacknowledged role in shaping the continent One of the Best History Books of 2021 — Smithsonian Conventional wisdom holds that Africans are only a recent presence in Europe. But in *African Europeans*, renowned historian Olivette Otele debunks this and uncovers a long history of Europeans of African descent. From the third century, when the Egyptian Saint Maurice became the leader of a Roman legion, all the way up to the present, Otele explores encounters between those defined as Africans and those called Europeans. She gives equal attention to the most prominent figures—like Alessandro de Medici, the first duke of Florence thought to have been born to a free African woman in a Roman village—and the untold stories—like the lives of dual-heritage families in Europe's coastal trading towns. *African Europeans* is a landmark celebration of this integral, vibrantly complex slice of European history, and will redefine the field for years to come.

black europe and the african diaspora: *Twenty-First Century Arab and African Diasporas in Spain, Portugal and Latin America* Cristián H. Ricci, 2022-12-30 This volume considers the Arabic

and African diasporas through the underexplored Afro-Hispanic, Luso-Africans, and Mahjari (South American and Mexican authors of Arab descent) experiences in Spain, Portugal, and Latin America. Utilizing both established and emerging approaches, the authors explore the ways in which individual writers and artists negotiate the geographical, cultural, and historical parameters of their own diasporic trajectories influenced by their particular locations at home and elsewhere. At the same time, this volume sheds light on issues related to Spain, Portugal, and Latin American racial, ethnic, and sexual boundaries; the appeal of images of the Middle East and Africa in the contemporary marketplace; and the role of Spanish, Portuguese, and Latin American economic crunches in shaping attitudes towards immigration. This collection of thought-provoking chapters extends the concepts of diaspora and transnationalism, forcing the reader to reassess their present limitations as interpretive tools. In the process, Afro-Hispanic, Afro-Portuguese, and Mahjaris are rendered visible as national actors and transnational citizens.

black europe and the african diaspora: *The Workings of Diaspora* Mario Nisbett, 2021-11-04 Engaging the past, the present, and the future, *The Workings of Diaspora: Jamaican Maroons and the Claims to Sovereignty* shows how the lived experience of Jamaican Maroons is linked to the African Diaspora. In so doing, this interdisciplinary undertaking interrogates the definition of Diaspora but mainly emphasizes the term's use. Mario Nisbett demonstrates that an examination of Jamaican Maroon communities, particularly their socio-political development, can further highlight the significance of the African Diaspora as an analytical tool. He shows how Jamaican Maroons inform resistance to abjection, a denial of full humanity, through claiming their African origin and developing solidarity and consciousness in order to affirm black humanity. This book establishes that present-day Jamaican Maroons remain relevant and engage the African Diaspora to improve black standing and bolster assertions of sovereignty.

black europe and the african diaspora: *Black Girls* Sabrina Marchetti, 2014-06-26 In today's Europe, migrant domestic workers are indispensable in supporting many households which, without their employment, would lack sufficient domestic and care labour. *Black Girls* collects and explores the stories of some of the first among these workers. They are the Afro-Surinamese and the Eritrean women who in the 1960s and 70s migrated to the former colonising country, the Netherlands and Italy respectively, and there became domestic and care workers. Sabrina Marchetti analyses the narratives of some of these women in order to powerfully demonstrate how the legacies of the colonial past have been, at the same time, both their tool of resistance and the reason for their subordination.

black europe and the african diaspora: *A Companion to Comparative Literature* Ali Behdad, Dominic Thomas, 2014-09-15 *A Companion to Comparative Literature* presents a collection of more than thirty original essays from established and emerging scholars, which explore the history, current state, and future of comparative literature. Features over thirty original essays from leading international contributors Provides a critical assessment of the status of literary and cross-cultural inquiry Addresses the history, current state, and future of comparative literature Chapters address such topics as the relationship between translation and transnationalism, literary theory and emerging media, the future of national literatures in an era of globalization, gender and cultural formation across time, East-West cultural encounters, postcolonial and diaspora studies, and other experimental approaches to literature and culture

black europe and the african diaspora: *British Dance: Black Routes* Christy Adair, Ramsay Burt, 2016-10-04 *British Dance, Black Routes* is an outstanding collection of writings which re-reads the achievements of Black British dance artists, and places them within a broad historical, cultural and artistic context. Until now discussion of choreography by Black dance practitioners has been dominated by the work of African-American artists, facilitated by the civil rights movement. But the work produced by Black British artists has in part been within the context of Britain's colonial legacy. Ramsay Burt and Christy Adair bring together an array of leading scholars and practitioners to review the singularity and distinctiveness of the work of British-based dancers who are Black and its relation to the specificity of Black British experiences. From sub-Saharan West African and

Caribbean dance forms to jazz and hip-hop, British Dance, Black Routes looks afresh at over five decades of artistic production to provide an unparalleled resource for dance students and scholars. black europe and the african diaspora: Decolonizing the Westernized University Ramón Grosfoguel, Ernesto Rosen Velásquez, Roberto Hernández, 2016-10-26 An underlying assumption undergirding institutions of higher education is that they serve as a means to upward socioeconomic mobility and, in turn, a way to address poverty that is tied to certain racialized/sexualized bodies. Although the education crisis is not an American or European problem in the geographic sense, but instead a global problem that plays itself out differentially across space and time, this volume focuses on the westernized university, in the US and abroad. It asks questions about what is westernized about the university, what its aims are, and how those who work in, through and outside these sites of knowledge production—with local or global social movements—can participate in the slow, careful process of decolonizing the westernized university. *Decolonizing the Westernized University: Interventions in Philosophy of Education from Within and Without* provides a sharper understanding of the crisis and the responses to the westernized university at multiple sites around the world. As an intervention in the philosophy of education discourse, which tends to assume the university is a neutral space, this collection will be of particular value to students and scholars working in philosophy of education, Latina/o philosophy, Africana philosophy, social epistemology, education, cultural studies, and ethnic studies, as well as to intellectual activists in the United States, south of the border, and around the world.

black europe and the african diaspora: Africa and its Historical and Contemporary Diasporas Tunde Adeleke, Arno Sonderegger, 2023-07-03 *Africa and its Historical and Contemporary Diasporas* edited by Tunde Adeleke and Arno Sonderegger is an interdisciplinary study of the changing and complex nature of the Africa-Black Diaspora relationship. The contributors highlight the problems and challenges of this relationship and provide strategies for developing a more functional and mutually beneficial engagement in a radically changing global environment. This book presents new methodological approaches and research to study the many dimensions and

complexities of Africa and its Diasporas. Collectively, this book addresses three vital themes. First, it foregrounds new and emerging forces reshaping the Africa-Black Diaspora nexus. Second, it highlights new and interdisciplinary approaches to “Diaspora” and “Pan-Africanism” (culture, religion, ideology, literature, philosophy, and epistemology). Third, it examines factors infusing the transformation in, and challenges of, African Diaspora and Pan-Africanist collaborations, and possible strategies of strengthening the relationship.

black europe and the african diaspora: African Migrants, European Borders, and the Problem with Humanitarianism P. Khalil Saucier, Tryon P. Woods, 2024-06-10 African Migrants, European Borders, and the Problem with Humanitarianism presents a probing examination of the contemporary migrant “crisis” in the Mediterranean Basin. By centering our analysis on how racial slavery has shaped European democratic culture, its abolitionist traditions, and the global structures of capital accumulation, P. Khalil Saucier and Tryon P. Woods reveal and confront how contemporary discourse on the migrant “crisis” displaces Black sovereign mobility. Their inquiry into the modern world’s culture of politics investigates “freedom of movement” discourse’s ostensible confrontation with border policing, the memorializing of Black migrant deaths by artists and advocates, and the visual imagery of a cosmopolitan and multicultural Europe as conceived by filmmakers in response to the migrant “crisis” as variants of a slaveholding culture instantiated in the early Mediterranean and Atlantic worlds. This analysis allows the authors to formulate a new critical framework for analysis of both the problems of contemporary migration and borders and the leading prescriptions on offer from analysts, advocates, and policy makers in order to develop alternate ways of conceptualizing global society.

black europe and the african diaspora: *Transatlantic Cultural Exchange* Katharina Gerund, 2014-03-15 From Josephine Baker's performances in the 1920s to the 1970s solidarity campaigns for Angela Davis, from Audre Lorde as »mother« of the Afro-German movement in the 1980s to the literary stardom of 1993 Nobel Laureate Toni Morrison, Germans have actively engaged with African American women's art and activism throughout the 20th century. The discursive strategies that have shaped the (West) German reactions to African American women's social activism and cultural work are examined in this study, which proposes not only a nuanced understanding of »African Americanizations« as a form of cultural exchange but also sheds new light on the role of African American culture for (West) German society, culture, and national identity.

black europe and the african diaspora: *Africa in Europe* Professor Eve Rosenhaft, Robbie Aitken, 2013-01-16 This volume explores the lives and activities of people of African descent in Europe between the 1880s and the beginning of the twenty-first century. It goes beyond the still-dominant Anglo-American or transatlantic focus of diaspora studies to examine the experiences of black and white Africans, Afro-Caribbeans and African Americans who settled or travelled in Germany, France, Portugal, Italy and the Soviet Union, as well as in Britain. At the same time, while studies of Africans in Europe have tended to focus on the relationship between colonial (or former colonial) subjects and their respective metropolitan nation states, the essays in this volume widen the lens to consider the skills, practices and negotiations called for by other kinds of border-crossing: The subjects of these essays include people moving between European states and state jurisdictions or from the former colony of one state to another place in Europe, African-born colonial settlers returning to the metropolis, migrants conversing across ethnic and cultural boundaries among ‘Africans’, and visitors for whom the face-to-face encounter with European society involves working across the ‘colour line’ and testing the limits of solidarity. Case studies of family life, community-building and politics and cultural production, drawing on original research, illuminate the transformative impact of those journeys and encounters and the forms of ‘transnational practice’ that they have generated. The contributors include specialist scholars in social history, art history, anthropology, cultural studies and literature, as well as a novelist and a filmmaker who reflect on their own experiences of these complex histories and the challenges of narrating them.

black europe and the african diaspora: Africa and the Diaspora Jamaine M. Abidogun,

Sterling Recker, 2021-05-27 This edited volume presents intersectionality in its various configurations and interconnections across the African continent and around the world as a concept. These chapters identify and discuss intersectionalities of identity and their interplay within precolonial, colonial, and neo-colonial constructs that develop unique and often conflicting interconnections. Scholars in this book address issues in cultural, feminist, Pan African, and postcolonial studies from interdisciplinary and traditional disciplines, including the Arts, Humanities, and Social Sciences. While Intersectionality as a framework for race, gender, and class is often applied in African-American studies, there is a dearth of work in its application to Africa and the Diaspora. This book presents a diverse set of chapters that compare, contrast, and complicate identity constructions within Africa and the Diaspora utilizing the social sciences, the arts in film and fashion, and political economies to analyze and highlight often invisible distinctions of African identity and the resulting lived experiences. These chapters provide a discussion of intersectionality's role in understanding Africa and the Diaspora and the intricate interconnections across its people, places, history, present, and future.
