jason rekulak political views: Hated by All the Right People Jason Zengerle, 2025-11-11
From a seasoned political journalist, an eye-opening examination of Tucker Carlson's rise through conservative media and his ideological transformation over the past 25 years, tracking the concurrent shifts in the political media landscape that have both influenced and succumbed to the hyper-partisan politics of today. To many, Tucker Carlson is synonymous with modern conservative politics. Carlson has been gracing screens for almost three decades and is as known for his bowtie as he is his increasingly extreme right-wing views. But those who knew Carlson in his earlier days in political journalism remember a very different man—a serious and gifted journalist who both enjoyed debating with liberal friends and calling out conservative failures in equal measure. But after watching Carlson turn away from honest reporting, while simultaneously gaining unparalleled power in Donald Trump's Republican Party, most are left asking, What the hell happened to Tucker? New York Times Magazine writer Jason Zengerle's evocative biography of Tucker Carlson tells the story of how the former Fox News talking head rose through the ranks from a young writer at The Weekly

Standard to one of the most powerful voices in right-wing politics. Through personal anecdotes and a sweeping view of the political and media landscape over the past 30 years, Zengerle examines how Tucker Carlson’s career offers a unique lens into the radical transformation of American conservatism and, just as importantly, the media that covers and ultimately shapes it. As conservative news outlets seem to fight daily over who can report the most disreputable stories and clicks and views take precedent over facts and substance, Carlson’s evolution is a window into how the right has radicalized and taken the media with it.

jason rekulak political views: Republican Like Me Ken Stern, 2019-10-15 In this controversial National Bestseller, the former CEO of NPR sets out for conservative America wondering why these people are so wrong about everything. It turns out, they aren’t. Ken Stern watched the increasing polarization of our country with growing concern. As a longtime partisan Democrat himself, he felt forced to acknowledge that his own views were too parochial, too absent of any exposure to the “other side.” In fact, his urban neighborhood is so liberal, he couldn’t find a single Republican—even by asking around. So for one year, he crossed the aisle to spend time listening, talking, and praying with Republicans of all stripes. With his mind open and his dial tuned to the right, he went to evangelical churches, shot a hog in Texas, stood in pit row at a NASCAR race, hung out at Tea Party meetings and sat in on Steve Bannon’s radio show. He also read up on conservative wonkery and consulted with the smartest people the right has to offer. What happens when a liberal sets out to look at issues from a conservative perspective? Some of his dearly cherished assumptions about the right slipped away. Republican Like Me reveals what lead him to change his mind, and his view of an increasingly polarized America.
