**jennifer lopez contributions to society:** *America's Dark History* H. H. Charles, 2021-07-12 Trump's Make America Great Again was a crass slogan intended to appeal to the most antiquated and base emotions, resentments, and bigotry that plague far too many Americans who still believe in white supremacy. Using historical sources found on various research platforms, Part I reviews the genocide, persecution, and bigotry practiced from Columbus to Trump on natives, immigrants, Africans, and others. There is no review of Trump as what he has done and is doing is well-covered by present-day media. Acknowledging it is hardly an exhaustive compilation, Part II lists the contributions made by those who suffered from their not being white Anglo immigrants to America. The book is an attempt to have Americans, who will listen and care, recognize that America does not need to be made great again. America needs to be made great.

**jennifer lopez contributions to society:** *Who Owns Culture?* Susan Scafidi, 2005-05-18 It is not uncommon for white suburban youths to perform rap music, for New York fashion designers to ransack the world's closets for inspiration, or for Euro-American authors to adopt the voice of a geisha or shaman. But who really owns these art forms? Is it the community in which they were originally generated, or the culture that has absorbed them? While claims of authenticity or quality may prompt some consumers to seek cultural products at their source, the communities of origin are generally unable to exclude copyists through legal action. Like other works of unincorporated group authorship, cultural products lack protection under our system of intellectual property law. But is this legal vacuum an injustice, the lifeblood of American culture, a historical oversight, a result of administrative incapacity, or all of the above? *Who Owns Culture?* offers the first comprehensive analysis of cultural authorship and appropriation within American law. From indigenous art to Linux, Susan Scafidi takes the reader on a tour of the no-man's-land between law and culture, pausing to ask: What prompts us to offer legal protection to works of literature, but not folklore? What does it mean for a creation to belong to a community, especially a diffuse or fractured one? And is our national culture the product of Yankee ingenuity or cultural kleptomania? Providing new insights to communal authorship, cultural appropriation, intellectual property law, and the formation of American culture, this innovative and accessible guide greatly enriches future legal understanding of cultural production.

**jennifer lopez contributions to society:** *Creating Justice in a Multiracial Democracy* Alan Curtis, 2024-10-25 American democracy is at an inflection point. Will we stride toward the 22nd century with evidence and will? Or will we lurch fearfully backwards, reinscribing the white supremacist domination of the 19th century? After hundreds of urban protests in the 1960s, the presidential Kerner Commission, composed mainly of privileged white men, concluded, It is time to make good the promise of American democracy to all citizens--urban and rural, white and Black, Spanish surname, American Indian and every minority group. Today it still is time--to reduce racial injustice, economic inequality, and poverty. Since the Kerner Commission, there has been little or no progress in some areas, and in other ways things have gotten worse. Yet the visionaries on these pages are passionate about how the problem is not lack of resources, nor a dearth of knowledge on the economic, education, youth investment, criminal justice, public health, and housing policies that work. Rather, the problem is that America still does not have the new will the Kerner Commission

concluded was needed to scale up what works. How to create new will? We need to identify those who are thwarting majoritarian preferences. Use strengthened voter rights and new messaging techniques to advance Dr. King's economic justice movement based on both class and race. Weave the middle class into the coalition. Know that perfect unity is not necessary for effective collaboration. Better expose the exploitation of Americans by the privileged and the rigged system with its big myth of market fundamentalism. Make clear how that exploitation is smoke-screened by cultural deniers. Build moral language and moral fusion coalitions to revive the heart of democracy and advance a Third Reconstruction. Recover a moral commitment to long-term struggle. Balance outraged intensity with bridge-building persuasion. Don't just preach to the choir--but recognize that the choir is where, to use John Lewis' phrase, good trouble starts. Strengthen the role of nonprofit organizations. Base action on evidence and science, not on ideology, supposition, disinformation, and misinformation. Advocate for how universities can better engage their communities. And create a Harry Belafonte-like infrastructure of hope and empathy through the visual arts, monuments, and the performing arts. Through this book, and through its companion volume--the republication of the original Kerner Report of 1968--we commit to enhancing the movement and healing our divided society. Book Features: Brings together public and private sector decision-makers, seminal thinkers, activists, advocates, students, and commonsense change-oriented scholars to address a broad range of economic, education, youth investment, criminal justice, public health, and housing issues requiring urgent action. Cuts through campaign rhetoric to focus on evidence and science, not on ideology, supposition, disinformation, and misinformation. Examines what we have learned since the Kerner Commission and updates trends in economic, education, police reform, youth development, public health, and housing policies. Identifies what works and what doesn't work. Offers core lessons and takeaways for creating new political will to reduce racial and economic injustice, inequality, and poverty.
