shani mootoo cereus blooms at night

The Enchanting Phenomenon of Shani Mootoo Cereus Blooms at Night

shani mootoo cereus blooms at night is a captivating natural event that has fascinated plant lovers and night-time garden enthusiasts alike. This rare and mesmerizing cactus flower opens only in the darkness of night, offering a fleeting yet unforgettable spectacle. Known for its ethereal beauty and unique blooming habits, the Shani Mootoo cereus is not just a plant but an experience, blending botanical wonder with the quiet mystery of the night.

Understanding the Shani Mootoo Cereus

Before diving into the nocturnal blooming habit, it's important to understand what exactly the Shani Mootoo cereus is. This species belongs to the cereus genus, a group of cacti known for their large, showy flowers and tall, columnar growth. The Shani Mootoo cereus, named after the artist and writer Shani Mootoo, is particularly prized for its delicate blooms and the almost magical way it reveals its flowers in the late hours.

What Makes the Shani Mootoo Cereus Unique?

Unlike many other cacti that bloom during the day, the Shani Mootoo cereus has adapted to bloom exclusively at night. This nocturnal blooming is a fascinating survival strategy, helping the plant avoid harsh daytime heat and attract specific night pollinators like moths and bats. The flowers tend to be large, white or pale-colored, and incredibly fragrant, making them easy to spot and smell in the darkness.

The Nighttime Bloom: A Closer Look

The phenomenon of shani mootoo cereus blooms at night is not just about when the flower opens, but also how it transforms the garden environment as darkness falls. The flower's petals unfurl slowly after sunset, often reaching full bloom just as the moon rises. This timing maximizes pollination opportunities and creates a stunning visual contrast against the dark sky.

Why Does the Shani Mootoo Cereus Bloom at Night?

The adaptation to nighttime blooming is primarily linked to the plant's ecological niche. Here are some of the key reasons:

- **Pollinator Attraction:** Many cereus species rely on nocturnal pollinators such as moths, bats, and certain beetles that are active only at night.
- Temperature Regulation: Blooming at night helps the flowers avoid the intense heat and sunlight of the day, reducing water loss and flower damage.
- Fragrance Dispersion: The cool night air allows the flower's scent to travel farther, increasing the chances of attracting pollinators.

The Blooming Process and Duration

The blooming process is remarkably swift and delicate. Typically, the flower begins to open shortly after sunset, reaching its peak bloom within a few hours. However, this exquisite bloom is short-lived; by dawn, the petals start to close, often wilting completely by mid-morning. This ephemeral nature adds to the allure, making every night of bloom a special occasion for observers.

Caring for Your Shani Mootoo Cereus

If you're fortunate enough to cultivate a Shani Mootoo cereus, understanding its unique nighttime blooming behavior is essential for proper care. Here are some tips to help your plant thrive and bloom beautifully in the dark:

Optimal Growing Conditions

- **Light:** While the cactus blooms at night, it still requires plenty of indirect sunlight during the day. Bright, filtered light mimics its natural habitat.
- **Soil:** Use well-draining cactus or succulent soil to prevent root rot. A mix that includes sand or perlite is ideal.
- Watering: Water sparingly, allowing the soil to dry out completely between watering. Overwatering can harm the plant and inhibit blooming.
- **Temperature:** Maintain warm temperatures during the growing season (70-85°F) and cooler temperatures (50-60°F) during dormancy to encourage flowering.

Encouraging Night Blooms

To stimulate the beautiful nighttime blooms, consider these practices:

- Consistent Care: Avoid sudden changes in watering or temperature, as stress can prevent blooming.
- **Proper Lighting Cycle:** Mimic natural day and night cycles to help regulate the plant's internal clock.
- Fertilization: Use a balanced, low-nitrogen fertilizer during the growing season to support healthy growth and flowering.

Experiencing the Magic: Observing Shani Mootoo Cereus Blooms at Night

Watching the Shani Mootoo cereus bloom is an experience that connects you intimately with nature's rhythms. Many plant enthusiasts set aside time after sunset to witness the flower's delicate petals unfurl. The combination of the soft glow of moonlight, the sweet scent of the bloom, and the quiet of the night creates a peaceful, almost spiritual moment.

Photography and Documentation Tips

For gardeners and nature photographers, capturing the nighttime bloom is a rewarding challenge:

- **Use a Tripod:** Low light conditions require steady support for your camera to avoid blurry images.
- Adjust Settings: A slow shutter speed and high ISO will help capture the delicate details of the flower.
- Natural Light: Avoid flash to preserve the natural ambiance and prevent disturbing pollinators.

Sharing the Experience

Social media and plant enthusiast communities have helped spread the fascination with shani mootoo cereus blooms at night. Sharing photos, videos, and stories about this unique cactus encourages conservation and appreciation for night-blooming plants worldwide.

The Ecological Significance of Night-Blooming Cacti

Night-blooming plants like the Shani Mootoo cereus play an important role in their ecosystems. By flowering at night, they fill a niche that daytime plants cannot, supporting nocturnal pollinators and maintaining biodiversity.

Pollination Partners

The primary pollinators for night-blooming cereus flowers include:

- Moths: Many moth species are attracted to the strong fragrance and pale color of the flowers.
- Bats: Certain nectar-feeding bats rely on these blooms as a food source during their nightly foraging.
- Beetles and Other Insects: Some beetles are active at night and contribute to pollination.

Conservation Considerations

As habitats change due to urbanization and climate shifts, protecting night-blooming plants like the Shani Mootoo cereus becomes increasingly important. Their survival ensures the continuation of complex ecological relationships and the preservation of nighttime natural beauty.

- - -

The allure of the Shani Mootoo cereus lies not only in its breathtaking blooms but also in the story it tells about adaptation, survival, and the quiet splendor of the night. Whether you're a seasoned gardener, a curious naturalist, or someone who simply appreciates rare floral wonders, witnessing the shani mootoo cereus blooms at night is an invitation to slow down and marvel at one of nature's most enchanting secrets.

Frequently Asked Questions

Who is Shani Mootoo and what is her connection to 'Cereus Blooms at Night'?

Shani Mootoo is a Trinidadian-Canadian writer and visual artist. She is the author of the novel 'Cereus Blooms at Night', which explores themes of identity, trauma, and healing.

What is the significance of the title 'Cereus Blooms at Night'?

'Cereus Blooms at Night' refers to a rare and beautiful night-blooming cactus flower, symbolizing hidden beauty, resilience, and the unfolding of secrets in the novel.

What are the main themes explored in Shani Mootoo's 'Cereus Blooms at Night'?

The novel explores themes such as trauma, memory, sexuality, identity, family secrets, and the effects of abuse and healing.

How does Shani Mootoo use the setting in 'Cereus Blooms at Night'?

Mootoo sets the story in a fictional Caribbean village, which adds cultural depth and context, highlighting postcolonial issues and the complexities of community life.

What narrative style does Shani Mootoo employ in 'Cereus Blooms at Night'?

The novel uses a multi-perspective narrative with poetic and evocative language, blending past and present to reveal the characters' inner lives and histories.

Why is 'Cereus Blooms at Night' considered important in LGBTQ+ literature?

'Cereus Blooms at Night' is notable for its sensitive portrayal of queer identities and relationships, addressing issues of sexuality and gender in a Caribbean context.

What impact has 'Cereus Blooms at Night' had on contemporary Caribbean literature?

The novel is acclaimed for its innovative storytelling and for addressing difficult social issues, contributing to expanding the scope of Caribbean literature to include diverse voices and experiences.

Additional Resources

The Enigmatic Night Bloom of Shani Mootoo Cereus: A Botanical Review

shani mootoo cereus blooms at night, unveiling a captivating spectacle that has intrigued botanists, horticulturists, and plant enthusiasts alike. This nocturnal flowering phenomenon, characteristic of various cereus species, presents a unique intersection of ecological adaptation and aesthetic allure. The Shani Mootoo cereus, named after the acclaimed writer and artist Shani Mootoo, has garnered attention not only for its striking blossoms but also for its distinct blooming pattern that unfolds under the veil of darkness.

Understanding the Shani Mootoo Cereus and Its Night Blooming Habit

The Shani Mootoo cereus is a member of the Cactaceae family, renowned for its large, fragrant flowers that bloom exclusively at night. This night-blooming trait is a survival strategy evolved to maximize pollination efficiency. Unlike many flowering plants that rely on diurnal pollinators such as bees and butterflies, cereus species, including the Shani Mootoo, depend on nocturnal pollinators like moths and bats. The timing of the bloom ensures that the flowers open when these pollinators are most active, facilitating effective reproduction.

The flowers of the Shani Mootoo cereus are typically large and white or pale in color, which enhances their visibility under moonlight and in low-light conditions. This adaptation not only attracts pollinators but also minimizes water loss during the hot daytime hours, an important consideration for cacti thriving in arid environments.

Botanical Features of Shani Mootoo Cereus

The structural and physiological characteristics of the Shani Mootoo cereus contribute significantly to its nocturnal blooming. Key features include:

• Stems: Thick, ribbed, and succulent, designed for water storage and

resilience against drought.

- Flowers: Large, trumpet-shaped, with numerous petals that unfurl rapidly after dusk.
- **Scent:** Often emit a strong, sweet fragrance that intensifies at night to lure nocturnal pollinators.
- **Pollination mechanism:** Primarily reliant on moths and bats, which are attracted by the flower's scent and visibility.

These features reflect an evolutionary specialization that aligns with the plant's environmental niche and reproductive needs.

The Ecological and Cultural Significance of Night Blooming

The nocturnal blooming behavior of the Shani Mootoo cereus has broader ecological implications. By flowering at night, the plant reduces competition for pollinators with day-blooming species and exploits a relatively unoccupied temporal niche. This strategy can increase the likelihood of successful pollination and seed production.

From an ecological perspective, the Shani Mootoo cereus plays a vital role in supporting nocturnal pollinator populations. Moths and bats, often undervalued in ecosystem services discussions, depend on these night-blooming cacti for nectar and sustenance. The symbiotic relationship underscores the interconnectedness of desert and tropical ecosystems where these plants are native.

Culturally, night-blooming cereus species have inspired folklore, art, and literature across various societies. The ephemeral nature of the bloom—opening at night and often wilting by dawn—symbolizes transience and beauty. While direct cultural references to the Shani Mootoo cereus are limited, the plant's evocative name and dramatic flowering pattern resonate with themes explored in Shani Mootoo's literary works, adding an additional layer of interpretive depth.

Comparative Analysis: Shani Mootoo Cereus Versus Other Night-Blooming Cacti

The Shani Mootoo cereus shares its nocturnal blooming habit with other members of the Cereus genus and related genera such as Selenicereus and Epiphyllum. However, several distinctions set it apart:

- **Bloom Duration:** While some night-blooming cereus species maintain flowers for multiple nights, the Shani Mootoo cereus exhibits a relatively brief bloom window, often lasting only a single night.
- Flower Size and Fragrance: Its flowers tend to be larger and emit a more intense, sweeter scent compared to similar species, enhancing pollinator attraction.
- **Growth Habit:** The Shani Mootoo cereus may demonstrate a more upright, columnar growth pattern versus the sprawling or climbing habits of other night-blooming cacti.

Understanding these differences is critical for horticulturists aiming to cultivate this species and for conservationists monitoring its natural habitats.

Cultivation and Care Considerations for Shani Mootoo Cereus

For enthusiasts interested in growing the Shani Mootoo cereus, recognizing its nocturnal blooming tendencies offers both challenges and rewards. Cultivation requires replicating as closely as possible the plant's native environmental conditions.

Optimal Growing Conditions

- **Light:** Bright, indirect sunlight during the day to mimic natural desert or tropical understory light.
- **Temperature:** Warm temperatures, ideally between 70°F and 85°F (21°C to 29°C), with protection from frost.
- Watering: Moderate watering during the growing season, ensuring soil dries out between sessions to prevent root rot.
- Soil: Well-draining, sandy or rocky soil mixes designed for cacti and succulents.

Encouraging Night Blooming

The distinctive nocturnal bloom of the Shani Mootoo cereus can be stimulated through careful attention to environmental cues:

- Day-Night Temperature Fluctuations: Mimicking natural diurnal temperature changes can trigger flowering.
- **Light Cycles:** Maintaining consistent light-dark periods supports the plant's internal biological clock.
- Nutrient Management: Balanced fertilization during the active growing phase enhances flower development.

While the allure of witnessing the Shani Mootoo cereus bloom at night is considerable, growers must be prepared for the fleeting nature of the flowers, which often require nighttime observation to fully appreciate.

Challenges and Conservation Status

Despite its captivating attributes, the Shani Mootoo cereus, like many specialized plants, faces environmental pressures. Habitat loss due to urbanization, climate change impacts, and illegal collection threaten wild populations. Furthermore, the specific ecological requirements for its nocturnal pollinators highlight the vulnerability of the entire reproductive cycle.

Conservation efforts must focus on habitat preservation and public education about the ecological roles of night-blooming cacti. Botanical gardens and research institutions play a pivotal role in ex-situ conservation by maintaining genetic diversity and facilitating study.

- - -

In tracing the nocturnal secrets of the Shani Mootoo cereus blooms at night, one uncovers not only the marvel of botanical adaptation but also a microcosm of ecological interdependence and cultural resonance. This mysterious flowering event continues to inspire scientific inquiry and horticultural fascination, ensuring that the Shani Mootoo cereus remains a symbol of nature's intricate rhythms and ephemeral beauty.

shani mootoo cereus blooms at night: Cereus Blooms at Night Shani Mootoo, 2009 This book is a haunting multi-generational novel about the shifting faces of Mala - adventurer and protector, recluse and madwoman. The plot contains sexual violence and mature themes -- Prové de l'editor.

shani mootoo cereus blooms at night: Island Paradise Melanie A. Murray, 2009 A colonial discourse has perpetuated the literary notion of islands as paradisal. This study explores how the notions of island paradise have been represented in European literature, the oral and literary indigenous traditions of the Caribbean and Sri Lanka, a colonial literary influence in these islands, and the literary experience after independence in these nations. Persistent themes of colonial narratives foreground the aesthetic and ignore the workforce in a representation of island space as idealized, insular, and vulnerable to conquest; an ideal space for management and control. English landscape has been replicated in islands through literature and in reality - the 'Great House' being an ideological symbol of power. Island Paradise: The Myth investigates how these entrenched notions of paradise, which islands have traditionally represented metonymically, are contested in the works of four postcolonial authors: Jamaica Kincaid, Lawrence Scott, Romesh Gunesekera, and Jean Arasanayagam, from the island nations of the Caribbean and Sri Lanka. It analyzes texts which focus on gardens, island space, and houses to examine how these motifs are used to re-vision colonial/contested sites. This book examines the relationship between landscape and identity and, with reference to Homi K. Bhabha, considers how these writers offer an alternative space for negotiating the ambivalence of hybridity.

shani mootoo cereus blooms at night: Embracing the Other Dunja M. Mohr, 2008 In the wake of addressing multiculturalism, transculturalism, racism, and ethnicity, the issue of xenophobia and xenophilia has been somewhat marginalized. The present collection seeks, from a variety of angles, to investigate the relations between Self and Other in the New Literatures in English. How do we register differences and what does an embrace signify for both Self and Other? The contributors deal with a variety of topics, ranging from theoretical reflections on xenophobia, its exploration in terms of intertextuality and New Zealand/Maori historiography, to analyses of migrant and border narratives, and issues of transitionality, authenticity, and racism in Canada and South Africa. Others negotiate identity and alterity in Nigerian, Malaysian, Australian, Indian, Canadian, and Caribbean texts, or reflect on diaspora and orientalism in Australian-Asian and West Indian contexts.

shani mootoo cereus blooms at night: <u>Impossible Desires</u> Gayatri Gopinath, 2005-04-19 Argues for the uses of queer, feminist transnational theory in order to understanding South Asian and South Asian diasporic identities and cultural production.

shani mootoo cereus blooms at night: Flight from Certainty, 2021-11-01 shani mootoo cereus blooms at night: Asian American Literature in Transition, 1996-2020: Volume 4 Betsy Huang, Victor Román Mendoza, 2021-06-17 This volume examines the concerns - political, literary, and identity-based - of contemporary Asian American literatures in neoliberal times.

shani mootoo cereus blooms at night: Queer Postcolonial Narratives and the Ethics of Witnessing Donna McCormack, 2015-07-30 Queer Postcolonial Narratives and the Ethics of Witnessing is a critically engaged exploration of power and its relation to ethics and bodies. By

revisiting and revising Judith Butler's and Homi Bhabha's queer and postcolonial theories of literary performance, McCormack expands current understandings of the performative workings of power through an embodied, multisensory ethics. That remembering is an embodied act which necessitates an undoing of one's sense of self captures how colonial and familial histories silenced by hegemonic structures may only emerge through opaque bodily sensations. These non-institutionalised forms of witnessing serve both to reconfigure theories of performativity, by re-situating the act of witnessing as integral to the workings of power, and to interrogate the current emphasis on speech in trauma studies, by analysing the multifarious, communal and public ways in which memories emerge. In Queer Postcolonial Narratives and the Ethics of Witnessing the body is reinstated as central to both the workings of and the challenges to colonial discourses--

shani mootoo cereus blooms at night: The Routledge Introduction to Canadian Literature and Illness Jessica Duffin Wolfe, 2025-06-06 The Routledge Introduction to Canadian Literature and Illness considers the key literary and historical frameworks for reading stories about sickness. Transcending disciplinary boundaries, this book analyzes narrative depictions of major epidemics, disastrous injuries, mental and maternal health, medical assistance in dying, and the curative effects of decolonization. This accessible and engaging guide illustrates how illness, encompassing states of physical and mental disorder, injury, and disruption, provides structure and focus to many of the most significant works of English narrative published in Canada. Giving distinct consideration to Indigenous authors who may or may not identify as Canadian and whose representations of illness reflect centuries of colonial violence, this volume offers timely resources to think critically and originally about the Canadian canon for fruitful classroom discussion. Students of both literature and health humanities will find that this book deepens their understanding of literary portrayals of illness and the impact of narrative on concepts of affliction and healing.

shani mootoo cereus blooms at night: Contemporary Women's Writing in India Varun Gulati, Maratt Mythili Anoop, 2014-12-24 The word doyennes signifies the various expressions of female, feminine, and feminist aspects of contemporary literature in India, through multiple theoretical frameworks. Contemporary Women's Writing in India is an edited collection dealing with a range of these issues set in the society of Indian culture. Indian women's literature is still a fertile ground for critical enquiry. There are three sections in the collection: Section I deals with specific instances in history, historical constructions, and representations of gender. Section II offers a varied spectrum of feminist critical discourse on contemporary Indian women's writing, intersecting with the frameworks of post-colonial theory, deconstruction, perspectives on race and ethnicity, and eco-feminism. Section III touches upon the notion of the woman's body and psyche through the varied perspectives of psychoanalysis, feminism, and post-feminism. By thoroughly exploring a range of issues, Contemporary Women's Writing promises to take the reader by the hand, and journey through the unfamiliar but refreshing landscape of women's literature in India.

shani mootoo cereus blooms at night: <u>Postcolonial Traumas</u> Abigail Ward, 2015-10-12 This collection of essays explores some new possibilities for understanding postcolonial traumas. It examines representations of both personal and collective traumas around the globe from Palestinian, Caribbean, African American, South African, Maltese, Algerian, Indian, Australian and British writers, directors and artists.

Shani mootoo cereus blooms at night: Literary Fantasy in Contemporary Chinese Diasporic Women's Literature Fang Tang, 2019-12-03 This book explores the use of literary fantasy in the construction of identity and 'home' in contemporary diasporic Chinese women's literature. It argues that the use of fantasy acts as a way of undermining the power of patriarchy and unsettling fixed notions of home. The idea of home explored in this book relates to complicated struggles to gain a sense of belonging, as experienced by marginalized subjects in constructing their diasporic identities — which can best be understood as unstable, shifting, and shaped by historical conditions and power relations. Fantasy is seen to operate in the corpus of this book as a literary mode, as defined by Rosemary Jackson. Literary fantasy offers a way to rework ancient myths, fairy tales, ghost stories and legends; it also subverts conventional narratives and challenges the power of patriarchy and

other dominant ideologies. Through a critical reading of four diasporic Chinese women authors, namely, Maxine Hong Kingston, Adeline Yen Mah, Ying Chen and Larissa Lai, this book aims to offer critical insights into how their works re-imagine a 'home' through literary fantasy which leads beyond nationalist and Orientalist stereotypes; and how essentialist conceptions of diasporic culture are challenged by global geopolitics and cultural interactions.

shani mootoo cereus blooms at night: Contradictory Indianness Atreyee Phukan, 2022-07-15 Introduction: Indenture, creolization, and literary imaginary -- Passage and poetics in Totaram Sanadhya and LalBihari Sharma -- Repatriation and the Indian problem in Ismith Khan's The Jumbie bird (1960) -- The trope of the ricefield in Harold Sonny Ladoo's No pain like this body (1972) -- (En)Gendering indenture in Shani Mootoo's Cereus blooms at night (1992).

shani mootoo cereus blooms at night: <u>The Caribbean Novel Since 1945</u> Michael Niblett, 2012-02-16 How fiction, its forms, and its evolution reflect countries in the midst of postcolonial change

shani mootoo cereus blooms at night: *Transnational Testimonios* Patricia DeRocher, 2018-10-16 The activist storytelling practice of testimonio, long associated with Latin American struggles for justice, forges coalitions across social differences for the purpose of social change. Beyond Central and South America, Patricia DeRocher examines testimonios from a wide range of geopolitical sites, including Argentina, Egypt, Haiti, India, Jamaica, and Trinidad, as well as the United States, and suggests that feminist testimonios offer a model for cross-border feminist alliance building. Transnational Testimonios focuses on the questions of translation, knowledge, and power that characterize the creation and reception of these life writings. DeRocher demonstrates how these stories can mobilize social activism and intervene in epistemological impasses between the Global North and South, offering vital tools for reimagining transnational feminist politics.

shani mootoo cereus blooms at night: Heritage and Ruptures in Indian Literature, Culture and Cinema Cornelius Crowley, Geetha Ganapathy-Doré, 2017-03-07 This book investigates the millennial history of the Indian subcontinent. Through the various methods adopted, the objects and moments examined, it questions various linguistic, literary and artistic appropriations of the past, to address the conflicting comprehensions of the present and also the figuring/imagining of a possible future. The volume engages with this general cultural condition, in relation both to the subcontinent's current "synchronic" reality and to certain aspects of the culture's underlying diachronic determinations. It also reveals how the multiple heritages are negotiated through the subcontinent's long-term sedimentational history. It scrutinizes both conservative interpretations of heritage and a possibly incremental enrichment, and the additional possibility of a mode of appropriation open to a dialectic of creative destruction, in which the patrimonial imperative is challenged, leaving room for processes of renewal and rejuvenation. The collection is organized around four major topics: Orientalism, addressed by way of the Tamil Epic Manimekalai, through the evocation of the Hastings Circle and views on a possible Hindu-Muslim unity sketched out by Sayyid Ahmed Khan; modernism in Indian and Burmese texts written in English; pictorial art, through a consideration of the work of British Asian and Indian film directors; and, finally, the current state of a body of critical thinking on gender.

shani mootoo cereus blooms at night: Disabling Domesticity Michael Rembis, 2016-12-20 Bringing together a range of authors from the multidisciplinary field of disability studies, this book uses disability and the experiences of disabled people living in the United States and Canada to explore and analyze dynamic sites of human interaction in both historical and contemporary contexts to provide readers with new ways of envisioning home, care, and family. Contributors to Disabling Domesticity focus on the varied domestic sites where intimate – and interdependent – human relations are formed and maintained. Analyzing domesticity through the lens of disability forces readers to think in new ways about family and household forms, care work, an ethic of care, reproductive labor, gendered and generational conflicts and cooperation, ageing, dependence, and local and global economies and political systems, in part by bringing the notion of interdependence, which undergirds all of the chapters in this book, into the foreground.

shani mootoo cereus blooms at night: Twentieth-Century Caribbean Literature Alison Donnell, 2007-05-07 A historiography of Caribbean literary history and criticism, the author explores different critical approaches and textual peepholes to re-examine the way twentieth-century Caribbean literature in English may be read and understood.

shani mootoo cereus blooms at night: *Undead Souths* Eric Gary Anderson, Taylor Hagood, Daniel Cross Turner, 2015-10-19 Depictions of the undead in the American South are not limited to our modern versions, such as the vampires in True Blood and the zombies in The Walking Dead. As Undead Souths reveals, physical emanations of southern undeadness are legion, but undeadness also appears in symbolic, psychological, and cultural forms, including the social death endured by enslaved people, the Cult of the Lost Cause that resurrected the fallen heroes of the Confederacy as secular saints, and mourning rites revived by Native Americans forcibly removed from the American Southeast. To capture the manifold forms of southern haunting and horror, Undead Souths explores a variety of media and historical periods, establishes cultural crossings between the South and other regions within and outside of the U.S., and employs diverse theoretical and critical approaches. The result is an engaging and inclusive collection that chronicles the enduring connection between southern culture and the refusal of the dead to stay dead.

shani mootoo cereus blooms at night: Unreliable Truths Sissy Helff, 2013 While many people see 'home' as the domestic sphere and place of belonging, it is hard to grasp its manifold implications, and even harder to provide a tidy definition of what it is. Over the past century, discussion of home and nation has been a highly complex matter, with broad political ramifications, including the realignment of nation-states and national boundaries. Against this backdrop, this book suggests that 'home' is constructed on the assumption that what it defines is constantly in flux and thus can never capture an objective perspective, an ultimate truth. Along these lines, Unreliable Truths offers a comparative literary approach to the construction of home and concomitant notions of uncertainty and unreliable narration in South Asian diasporic women's literature from the UK, Australia, South Africa, the Caribbean, North America, and Canada. Writers discussed in detail include Feroza Jussawalla, Suneeta Peres da Costa, Meera Syal, Farida Karodia, Shani Mootoo, Shobha Dé, and Oonya Kempadoo. With its focus on transcultural homes, Unreliable Truths goes beyond discussions of diaspora from an established postcolonial point of view and contributes with its investigation of transcultural unreliable narration to the representation of a g/local South Asian diaspora.

shani mootoo cereus blooms at night: The Oxford Handbook of the Literature of the U.S. South Fred Hobson, Barbara Ladd, 2016 The Oxford Handbook of the Literature of the U.S. South brings together contemporary views of the literature of the region in a series of chapters employing critical tools not traditionally used in approaching Southern literature. It assumes ideas of the South--global, multicultural, plural: more Souths than South--that would not have been embraced two or three decades ago, and it similarly expands the idea of literature itself. Representative of the current range of activity in the field of Southern literary studies, it challenges earlier views of antebellum Southern literature, as well as, in its discussions of twentieth-century writing, questions the assumption that the Southern Renaissance of the 1920s, 1930s, and 1940s was the supreme epoch of Southern expression, that writing to which all that had come before had led and by which all that came afterward was judged. As well as canonical Southern writers, it examines Native American literature, Latina/o literature, Asian American as well as African American literatures, Caribbean studies, sexuality studies, the relationship of literature to film, and a number of other topics which are relatively new to the field.
