neopost in 300 series user manual: *The Palgrave Handbook of Global Politics in the 22nd*

Century Laura Horn, Ayşem Mert, Franziska Müller, 2023-01-01 This handbook offers a unique approach to the question: How do scholars write the future of global politics? Written in futur antérieur style, around the 200-year anniversary of the birth of International Relations (IR) as an academic discipline, the contributions engage in world-building and imagine different futures of IR. Set in a multiverse, 23 chapters draw on a range of possible themes and imaginaries, for instance post-pandemic conditions, the Anthropocene, and not least academic practices and the role of researchers. A concluding chapter anchors these explorations in contemporary discussions. The book mirrors the format and style of existing handbooks, combining outlines and discussions of theories, structures, processes, and core issues in IR with an academic science fiction account of how these might play out over the course of the next century. In doing so, the book challenges IR and provides alternative imaginaries, rather than predicting future conditions for all humanity. The book invites readers to reflect on how thinking about the future has become an increasingly radical, but more than ever necessary act.

That moment provided Norm Coleman his second opportunity for major political reinvention (the first being when he switched parties). Following the tragedy, Coleman shifted gears to run a kinder, gentler series of television ads that hardly mentioned his new opponent, Walter Mondale. Meanwhile, when Republicans accused Democrats of turning the Wellstone memorial service into a carefully choreographed political rally, Franken was outraged. He immediately set upon a mission to unseat Coleman, which ended up with their eventual head-to-head run in 2008. The unprecedented recount and legal drama that ultimately decided the election was an appropriate coda to what had already been an extraordinary Minnesota Senate race. *A Funny Thing Happened on the Way to the Senate* tells the whole story.
