here comes honey boo boo anna: Class Divisions in Serial Television Sieglinde Lemke, Wibke Schniedermann, 2016-12-21 This book brings the emergent interest in social class and inequality to the field of television studies. It reveals how the new visibility of class matters in serial television functions aesthetically and examines the cultural class politics articulated in these programmes. This ground-breaking volume argues that reality and quality TV's intricate politics of class entices viewers not only to grapple with previously invisible socio-economic realities but also to reconsider their class alignment. The stereotypical ways of framing class are now supplemented by those dedicated to exposing the economic and socio-psychological burdens of the (lower) middle class. The case studies in this book demonstrate how sophisticated narrative techniques coincide with equally complex ways of exposing class divisions in contemporary American life and how the examined shows disrupt the hegemonic order of class. The volume therefore also invites a rethinking of conventional models of social stratification.

here comes honey boo boo anna: Reality TV Jon Kraszewski, 2017-02-24 From early first-wave programs such as Candid Camera, An American Family, and The Real World to the shows on our television screens and portable devices today, reality television consistently takes us to cities—such as New York, Los Angeles, and Boston—to imagine the place of urbanity in American culture and society. Jon Kraszewski offers the first extended account of this phenomenon, as he makes the politics of urban space the center of his history and theory of reality television. Kraszewski situates reality television in a larger economic transformation that started in the 1980s when America went from an industrial economy, when cities were home to all classes, to its post-industrial economy as cities became key points in a web of global financing, expelling all economic classes except the elite and the poor. Reality television in the industrial era reworked social relationships based on class, race, and gender for liberatory purposes, which resulted in an egalitarian ethos in the genre. However, reality television of the post-industrial era attempts to convince viewers that cities still serve their interests, even though most viewers find city life today economically untenable. Each chapter uses a key theoretical concept from spatial theory—such as power geometries, diasporic nostalgia, orientalism, the imagination of social expulsions, and the relationship between the country and the city—to illuminate the way reality television engages this larger transformation of urban space in America.

here comes honey boo boo anna: Popular Culture as Everyday Life Dennis D. Waskul, Phillip Vannini, 2015-11-19 In *Popular Culture and Everyday Life* Phillip Vannini and Dennis Waskul have brought together a variety of short essays that illustrate the many ways that popular culture intersects with mundane experiences of everyday life. Most essays are written in a reflexive ethnographic style, primarily through observation and personal narrative, to convey insights at an intimate level that will resonate with most readers. Some of the topics are so mundane they are legitimately universal (sleeping, getting dressed, going to the bathroom, etc.), others are common enough that most readers will directly identify in some way (watching television, using mobile phones, playing video games, etc.), while some topics will appeal more-or-less depending on a reader's gender, interests, and recreational pastimes (putting on makeup, watching the Super Bowl, homemaking, etc.). This book will remind readers of their own similar experiences, provide opportunities to reflect upon them in new ways, as well as compare and contrast how experiences relayed in these pages relate to lived experiences. The essays will easily translate into rich and lively classroom discussions that shed new light on a familiar, taken-for-granted everyday life—both individually and collectively. At the beginning of the book, the authors have provided a grid that shows the topics and themes that each article touches on. This book is for popular culture classes, and will also be an asset in courses on the sociology of everyday life, ethnography, and social psychology.

here comes honey boo boo anna: Talking White Trash Tasha R. Dunn, 2018-12-07 *Talking White Trash* documents the complex and interwoven relationship between mediated representations and lived experiences of white working-class people—a task inspired by the author's experiences growing up in a white working-class family and neighborhood and how she came to understand herself through watching films and television shows. The increasing presence of white working-class people in media, particularly within the genre of reality television, and their role in fueling the unprecedented rise of Donald Trump, has made this population a central subject of U.S. cultural discourse. Rather than relying solely on analyses of mediated portrayals, Dunn makes use of personal narratives, interviews, focus groups, textual analysis, and critical autoethnography to specifically analyze how popular media articulates certain ideas about white working-class people, and how those who identify as members of this population, including herself, negotiate such articulations. Dunn's work provides alternative stories that are rarely, if ever, found in popular media—stories that feature the varied reactions and lived experiences of white working-class people; stories that talk to, talk with, and talk back to mediated representations and dominant cultural ideas; stories that illuminate the multidimensionality of a population that is often portrayed in one-dimensional ways; stories that move inside and outside the white working-class to better understand their role within, and influence upon, U.S. culture.

here comes honey boo boo anna: Neoliberalism and the Media Marian Meyers, 2019-01-31 This book examines the multiple ways that popular media mainstream and reinforce neoliberal ideology, exposing how they promote neoliberalism's underlying ideas, values and beliefs so as to naturalize inequality, undercut democracy and contribute to the collapse of social notions of community and the common good. Covering a wide range of media and genres, and adopting a variety of qualitative textual methodologies and theoretical frameworks, the chapters examine

diverse topics, from news coverage of the 2016 U.S. presidential election to the NBC show Superstore (an atypical instance in which a TV show, for one brief season, challenged the central tenets of neoliberalism) to kitchen porn. The book also takes an intersectional approach, as contributors explore how gender, race, class and other aspects of social identity are inextricably tied to each other within media representation. At once innovative and distinctive in its illustration of how the media is complicit in perpetuating neoliberal ideology, *Neoliberalism and the Media* offers students and scholars alike an incisive portrait of the intersection between media and ideology today.

here comes honey boo boo anna: Reality TV's Real Men of the Recession Shannon O'Sullivan, 2022-10-11 In this book, Shannon O' Sullivan explores "blue-collar frontier shows", a subgenre of reality television showcasing white, working-class men performing hazardous occupations in remote, wilderness settings. O'Sullivan argues that the proliferation of these programs represents a subtle yet potent reactionary veneration of white, rural, working-class men as "real Americans" amid the Great Recession and social movements challenging white supremacy, heteropatriarchy, and capitalism, nearly a decade before Donald Trump kicked off his presidential campaign. Through analyses of *Deadliest Catch*, *Ax Men*, *Ice Road Truckers*, and *Gold Rush*, O'Sullivan reframes dominant understandings of social class and challenges the neoliberal tendency to configure identity and social categories as stylized performances delinked from power relations. The author highlights the political significance of these series in relation to Donald Trump's rhetorical strategy and media narratives about his supporters. O'Sullivan also incorporates an

analysis of Duck Dynasty, which exemplifies how affluent, white men take up stereotypical white, rural, working-class masculine performances to attain a public perception of masculine authenticity. Scholars of media studies, gender studies, television studies, communication, and political rhetoric will find this book of particular interest.

here comes honey boo boo anna: *Small-Screen Souths* Lisa Hinrichsen, Gina Caison, Stephanie Rountree, 2017-11-16 As the first collection dedicated to the relationship between television and the U.S. South, *Small-Screen Souths* addresses the growing interest in how mass culture represents the region and influences popular perceptions of it. In sixteen essays divided into three thematic sections, scholars of southern culture analyze representations of the South in a variety of television shows spanning the history of the medium, from classic network programs such as *The Andy Griffith Show* and *Designing Women* to some of today's popular franchises like *Duck Dynasty* and *The Walking Dead*. The first section, "Politics and Identity in the Televisual South," focuses on how television constructs understandings of race, gender, sexuality, and class, often adapting to changing configurations of community and identity. The next section, "Caricatures, Commodities, and Catharsis in the Rural South," examines the tension between depictions of southern rural communities and assumptions about abject whiteness, particularly conceptions of poverty and profitized culture. The concluding section, "(Dis)Locating the South," considers the influence of postcolonialism, globalization, and cosmopolitanism in understanding television featuring the region. Throughout, the essays investigate the profuse, often contradictory ways that the U.S. South has been represented on television, seeking to expand and pluralize myopic perspectives of the region. By analyzing depictions of the South from the classical network era to the contemporary post-broadcast age, *Small-Screen Souths* offers a broad historical scope and a multiplicity of theoretical and interdisciplinary perspectives on what it means to see the South from the television screen.

Weber, 2014-03-03 This essay collection focuses on the gendered dimensions of reality television in both the United States and Great Britain. Through close readings of a wide range of reality programming, from *Finding Sarah and Sister Wives* to *Ghost Adventures* and *Deadliest Warrior*, the contributors think through questions of femininity and masculinity, as they relate to the intersections of gender, race, class, and sexuality. They connect the genre's combination of real people and surreal experiences, of authenticity and artifice, to the production of identity and norms of citizenship, the commodification of selfhood, and the naturalization of regimes of power. Whether assessing the Kardashian family brand, portrayals of hoarders, or big-family programs such as *19 Kids and Counting*, the contributors analyze reality television as a relevant site for the production and performance of gender. In the process, they illuminate the larger neoliberal and postfeminist contexts in which reality TV is produced, promoted, watched, and experienced. Contributors. David Greven, Dana Heller, Su Holmes, Deborah Jermyn, Misha Kavka, Amanda Ann Klein, Susan Lepselter, Diane Negra, Laurie Ouellette, Gareth Palmer, Kirsten Pike, Maria Pramaggiore, Kimberly Springer, Rebecca Stephens, Lindsay Steenberg, Brenda R.
