The Gods of Ancient Rome Robert Turcan: Exploring Roman Mythology Through a Scholarly Lens

**the gods of ancient rome robert turcan** is a phrase that immediately brings to mind an insightful journey into the rich tapestry of Roman mythology, as explored by the respected historian and scholar Robert Turcan. His work delves deeply into the pantheon of Roman deities, revealing the cultural, religious, and societal nuances that shaped the ancient Roman world. Whether you're a history buff, a mythology enthusiast, or simply curious about how the Romans understood divinity, Turcan's perspectives offer a comprehensive and engaging look at the gods who influenced one of history's most powerful civilizations.

## Understanding the Roman Pantheon Through Robert Turcan's Perspective

When examining the gods of ancient Rome, Robert Turcan's scholarship stands out for its clarity and depth. Unlike many casual retellings of Roman myths, Turcan approaches the subject with a focus on historical context, shedding light on how these gods were worshipped and how their roles evolved over time. His work emphasizes that Roman religion was not just about myths but was deeply intertwined with the identity and politics of Rome itself.

## The Origins and Evolution of Roman Deities

One of the fascinating aspects Turcan highlights is the syncretic nature of Roman religion. The gods of ancient Rome were not static; they absorbed influences from Etruscan, Greek, and other neighboring cultures. This blending created a unique pantheon where deities like Jupiter, Mars, Venus, and Minerva held significant roles but also adapted characteristics from foreign gods.

Turcan notes that early Roman religion was animistic and focused on spirits called "numina," which represented natural forces rather than anthropomorphic gods. Over time, these spirits took on more defined personalities and mythologies, resulting in the well-known gods that dominate Roman religious narratives.

## Key Roman Gods and Their Significance

Robert Turcan's exploration helps clarify the importance of certain gods within Roman society, reflecting both everyday life and the broader Roman worldview:

- **Jupiter:** The king of gods, guardian of the state, and god of the sky and thunder. Turcan explains how Jupiter's worship was central to Roman political and military success.

- **Mars:** More than just the god of war, Mars was also linked to agriculture and fertility, symbolizing Rome's dual focus on war and prosperity.
- **Venus:** Beyond love and beauty, Venus was seen as an ancestral figure for the Roman people, especially through the myth of Aeneas, founder of the Roman lineage.
- **Minerva:** Goddess of wisdom, crafts, and strategic warfare, Minerva's role highlights the Roman respect for intellect and skill.

Turcan's detailed analysis shows how these gods were not isolated figures but part of a complex system where religion, politics, and daily life intersected.

## The Role of Religion and Ritual in Roman Society

An essential part of understanding the gods of ancient Rome through Robert Turcan's work is recognizing how religion permeated all aspects of Roman life. The gods were not distant beings but active participants in the fate of the city and its people.

### Public Worship and State Religion

Turcan emphasizes that Roman religion was deeply institutionalized. Temples, priesthoods, and state-sponsored festivals were crucial in maintaining the *pax deorum* – the peace of the gods – which was believed to ensure Rome's continued prosperity. The *pontifex maximus*, or chief priest, held immense power, bridging the divine and the political.

### Household Gods and Personal Devotion

Besides public religion, Turcan sheds light on the importance of the *Lares* and *Penates* – the household gods who protected families and homes. This duality of public and private worship shows how Roman spirituality was woven into every layer of life, from grand temples to humble hearths.

## Robert Turcan's Contribution to Modern Understanding of Roman Mythology

While many sources on Roman gods focus heavily on mythology alone, Robert Turcan's approach is distinguished by his integration of archaeological findings, historical records, and comparative mythology. His work provides a richer, more nuanced picture of how the gods functioned within Roman culture.

## **Bridging Myth and History**

Turcan argues that myths about the gods served practical purposes: legitimizing political power, explaining natural phenomena, and reinforcing social norms. By decoding these myths alongside historical events, he reveals the layers of meaning behind religious stories that might otherwise seem purely fantastical.

## **Lessons from Roman Religion for Today**

One of the valuable insights from Turcan's work is the recognition of how religion can shape and reflect a civilization's values and priorities. The Romans' reverence for order, duty, and community is mirrored in the way they venerated their gods. This perspective invites modern readers to see ancient religion not just as superstition but as a coherent system that helped build and sustain one of history's greatest empires.

## **Exploring Roman Deities Beyond the Well-Known Gods**

In addition to the major gods, Robert Turcan's scholarship encourages a broader exploration of lesser-known deities who played vital roles in Roman life.

## **Minor Gods and Spirits**

Turcan brings attention to entities like Janus, the two-faced god of beginnings and transitions, who symbolized the Roman appreciation for change and continuity. Other figures such as Fortuna (goddess of luck) and Vesta (goddess of the hearth) reveal how Romans sought divine protection in every aspect of their existence.

## **The Influence of Mystery Cults and Foreign Deities**

The Roman religious landscape was also marked by the introduction of mystery religions and foreign gods, such as Isis from Egypt and Mithras from Persia. Turcan's work explains how these cults offered personal salvation and secret knowledge that complemented traditional Roman beliefs, reflecting the empire's diversity and openness to new ideas.

## **Tips for Studying the Gods of Ancient Rome with Robert Turcan's Insights**

If you're eager to dive deeper into Roman mythology and religion inspired by Robert Turcan's work, here are some practical tips to enhance your study:

1. **Contextualize Myths Historically:** Always consider the political and social background of the period when a myth was popular or a deity was worshipped.
2. **Compare Sources:** Look at Roman myths alongside Greek and Etruscan stories to understand the evolution of deities and their attributes.
3. **Explore Archaeological Evidence:** Temples, inscriptions, and artifacts provide tangible insights that complement literary sources.
4. **Understand Rituals:** Study Roman ceremonies and festivals to grasp how religion functioned in everyday life.
5. **Consider Symbolism:** Pay attention to the symbols associated with each god, as these often reveal deeper meanings.

By following these strategies, readers can develop a richer appreciation for the complexity and significance of Roman gods, just as Robert Turcan's scholarship encourages.

---

Exploring the gods of ancient Rome through Robert Turcan's lens offers more than just a catalog of deities—it opens a window into the heart of Roman civilization. His work invites us to see the gods not merely as mythical figures but as vital forces that shaped history, culture, and human experience in the ancient world. Whether you are reading for academic interest or personal curiosity, Turcan's insights provide a valuable guide to understanding the divine legacy of Rome.

## Frequently Asked Questions

### Who is Robert Turcan in relation to 'The Gods of Ancient Rome'?

Robert Turcan is a scholar and author known for his work on Roman religion and mythology, including the book 'The Gods of Ancient Rome' which explores the pantheon and religious practices of ancient Rome.

### What is the main focus of Robert Turcan's book 'The Gods of Ancient Rome'?

The book focuses on the various deities worshipped in ancient Rome, their origins, attributes, and the role they played in Roman society and religion.

### How does Robert Turcan's 'The Gods of Ancient Rome' contribute to our understanding of Roman mythology?

Turcan's work provides detailed analysis and context about Roman gods, combining historical, religious, and cultural perspectives to deepen understanding of Roman mythology and its influence.

## **Are the gods discussed in Robert Turcan's book purely Roman, or do they include influences from other cultures?**

Turcan discusses both indigenous Roman gods and those influenced by other cultures, such as Greek deities, showing how Roman religion was syncretic and evolved over time.

## **Does 'The Gods of Ancient Rome' by Robert Turcan include information about Roman religious practices?**

Yes, the book covers not only the gods themselves but also the rituals, festivals, and religious customs associated with their worship.

## **Is Robert Turcan's 'The Gods of Ancient Rome' suitable for academic study?**

Yes, it is considered a scholarly resource that is useful for students and researchers interested in ancient Roman religion and mythology.

## **What time period does 'The Gods of Ancient Rome' by Robert Turcan cover?**

The book covers the religious beliefs and gods of Rome from its early foundation through the Imperial period, detailing changes and continuities over time.

## **Does Robert Turcan explore the political role of gods in ancient Rome in his book?**

Yes, Turcan discusses how gods were intertwined with Roman politics, including their use in legitimizing power and in state rituals.

## **Where can one find or purchase Robert Turcan's 'The Gods of Ancient Rome'?**

The book is available through major bookstores, online retailers like Amazon, and academic libraries specializing in history or classical studies.

## **Additional Resources**

The Gods of Ancient Rome Robert Turcan: A Scholarly Exploration of Roman Divinities

**the gods of ancient rome robert turcan** serves as a foundational reference for understanding the complex pantheon and religious practices of one of history's most influential civilizations. Robert Turcan, a respected historian and scholar, offers an in-depth examination of Roman deities, their origins, and their evolving roles within society. His work delves beyond mere mythology, providing critical insights into how religion shaped Roman identity, politics, and culture. This article investigates Turcan's contributions to the study of ancient Roman gods while contextualizing his

findings within broader academic discourse.

## **Understanding the Pantheon: Roman Religion Through Turcan's Lens**

Robert Turcan's analysis foregrounds the multiplicity and diversity inherent in Roman religion. Unlike the more rigidly codified Greek pantheon, the gods of ancient Rome embody a syncretic and pragmatic religious system. Turcan highlights how Roman deities were often appropriated from other cultures, especially the Greeks and Etruscans, and adapted to fit the Roman worldview. This fluidity allowed Roman religion to remain relevant and resilient across centuries.

One of the critical features Turcan emphasizes is the distinction between major Olympian gods—such as Jupiter, Mars, and Venus—and the lesser-known household and agricultural deities who governed daily life and local customs. These layers of divinity reveal a religious structure that balanced state power with personal piety, underscoring the gods' role in both public and private spheres.

### **The Role of Jupiter and Capitoline Triad**

Central to Roman religion, as Turcan outlines, is Jupiter, the king of gods and guardian of law and order. The Capitoline Triad—Jupiter, Juno, and Minerva—symbolizes the political and religious heart of Rome, with their temple serving as a focal point for state rituals. Turcan illuminates how Jupiter's authority extended beyond mere myth, influencing Roman concepts of sovereignty and justice.

Moreover, Turcan's exploration into the Capitoline Triad reveals how the Romans engineered their theology to reinforce civic unity and imperial ambition. The triad's worship was intertwined with Rome's military successes and governance, reinforcing the gods' function as protectors of the state.

### **Syncretism and Adaptation: The Influence of Greek Mythology**

A significant portion of Turcan's scholarship is devoted to examining how Roman religion absorbed Greek myths and deities, often reinterpreting them to fit Roman sensibilities. This syncretism is evident in the adoption of gods like Apollo and Diana, whose characteristics were modified to align with Roman values.

Turcan argues that this process was not mere imitation but a strategic cultural assimilation that allowed Rome to present itself as both a successor and innovator of classical heritage. The blending of Greek and Roman religious elements enriched the pantheon, enabling the empire to accommodate an ever-expanding population and diverse cultural influences.

# Religious Practices and Societal Impact

Beyond the gods themselves, Robert Turcan's work delves into the rituals, festivals, and priesthoods that defined Roman religious life. He systematically examines how religious ceremonies were integral to maintaining *pax deorum*—the peace of the gods—which was believed essential for Rome's prosperity.

Turcan details the complex calendar of festivals such as Saturnalia and Lupercalia, highlighting their social functions in reinforcing community bonds and political hierarchies. These events were not only religious observances but also occasions for public display and negotiation of power.

## Priesthoods and Religious Officials

Turcan's analysis extends to the roles of priests, augurs, and pontiffs in regulating religious rites. The pontifex maximus, a position often held by leading political figures including Julius Caesar and Augustus, exemplifies the fusion of religion and governance. This office controlled sacred law and ritual practice, reinforcing the inseparability of state and religion in Rome.

The augurs' role in interpreting omens is another focus of Turcan's research. By reading signs from the natural world, these officials guided political decisions, demonstrating how religion permeated all aspects of Roman life, from warfare to legislation.

## Household Gods and Popular Religion

While state religion dominated public life, Turcan also underscores the importance of domestic worship. Lares and Penates, the household gods, were central to family identity and continuity. Turcan's exploration of these deities sheds light on the intimate dimension of Roman religiosity often overshadowed by grand temples and political cults.

The persistence of popular religion, including local shrines and mystery cults, reveals the adaptability of Roman religious practice. Turcan's work highlights how these traditions provided personal solace and communal cohesion amidst the empire's vast diversity.

## The Historical and Cultural Significance of Turcan's Work

Robert Turcan's scholarship on the gods of ancient Rome stands out for its comprehensive and nuanced approach. He balances archaeological evidence, literary sources, and comparative studies to offer a multi-dimensional picture of Roman religion. His methodology allows readers to appreciate the gods not only as mythological figures but as active agents in shaping Rome's historical trajectory.

In comparison to other classical scholars, Turcan's work is notable for its

emphasis on the socio-political functions of religion. He avoids romanticizing the myths, instead framing them within the realities of Roman imperial power and cultural exchange. This perspective helps modern audiences understand how religion was used instrumentally to legitimize authority and foster social cohesion.

Moreover, Turcan's interdisciplinary approach incorporates art history, anthropology, and epigraphy, providing a richer context for the study of Roman divinities. His insights contribute to ongoing debates about the nature of ancient religion and its relevance to contemporary discussions on cultural identity.

## Pros and Cons of Turcan's Interpretation

- **Pros:** Turcan's detailed research offers a comprehensive overview of Roman gods, emphasizing their practical significance beyond mythology. His analysis of religious syncretism broadens understanding of cultural interactions within the empire.
- **Cons:** Some critics argue that Turcan's focus on political and social functions might underplay the personal and spiritual dimensions of Roman religion. Additionally, the dense academic style may be less accessible to casual readers.

## Integrating Turcan's Insights into Contemporary Studies

The relevance of Robert Turcan's study extends beyond classical scholarship. His exploration of Roman gods informs modern interpretations of ancient religions and their legacies in Western culture. By dissecting the mechanisms through which religion sustained Rome's imperial structure, Turcan provides tools for analyzing how belief systems influence political power today.

In academic settings, Turcan's work supports interdisciplinary curricula, bridging history, religious studies, and cultural anthropology. His approach encourages a critical evaluation of how ancient narratives are used to construct identity and authority, a subject that resonates in contemporary debates about heritage and nationalism.

Overall, the gods of ancient Rome Robert Turcan presents remain a vital subject for understanding not only the past but also the ongoing impact of ancient religious traditions on modern society.

**the gods of ancient rome robert turcan: The Gods of Ancient Rome** Robert Turcan, 2013-10-28 First published in 2001. This is a vivid account of what their gods meant to the Romans from archaic times to late antiquity, and an exploration of the rites and rituals connected to them. After an extensive introduction into the nature of classical religion, the book is divided into three main parts: religions of the family and land; religions of the city; and religions of the empire. The book ends with the rise and impact of Christianity. Using archaeological and epigraphic evidence, and drawing extensively on a wide range of relevant literary material, this book is ideally suited for undergraduate courses in the history of Rome and its religions. Its urbane style and lightly worn scholarship will broaden its appeal to the large number of non-academic readers with a serious interest in the classical world.

**the gods of ancient rome robert turcan: The Gods of Ancient Rome** Robert Turcan, 1998 This is a vivid account of what their gods meant to the Romans from archaic times to late antiquity, and of the rites and rituals connected with them.

**the gods of ancient rome robert turcan: Rome in Late Antiquity** Bertrand Lançon, 2000 First Published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

**the gods of ancient rome robert turcan: Strange Religion** Nijay K. Gupta, 2024-02-27 A fresh and rigorously researched take on Christianity's founding.--Publishers Weekly The first Christians were weird. Just how weird is often lost on today's believers. Within Roman society, the earliest Christians stood out for the oddness of their beliefs and practices. They believed unusual things, worshiped God in strange ways, and lived a unique lifestyle. They practiced a whole new way of thinking about and doing religion that would have been seen as bizarre and dangerous when compared to Roman religion and most other religions of the ancient world. Award-winning author, blogger, speaker, and New Testament teacher Nijay Gupta traces the emerging Christian faith in its Roman context in this accessible and engaging book. Christianity would have been seen as radical in the Roman world, but some found this new religion attractive and compelling. The first Christians dared to be different, pushed the boundaries of what was acceptable, transformed how people thought about religion, and started a movement that grew like wildfire. Brought to life with numerous images, this book shows how the example of the earliest Christians can offer today's believers encouragement and hope.

**the gods of ancient rome robert turcan: The Mysteries of Stonehenge** Nikolai Tolstoy, 2016-09-15 The mythic foundations of the world's greatest archaeological mystery.

**the gods of ancient rome robert turcan: We Look for a Kingdom** Carl Sommer, 2010-01-05 Carl Sommer presents a popular study of the faith and life of the early Christians in the first two centuries after Christ. Using documentary evidence and archaeological records, Sommer reconstructs the lives of the early Christians in order to introduce the treasures of early Christianity to a large number of modern readers. By studying how the early Christians believed and lived, we can learn many valuable lessons on what to avoid and what to strive for today. The Roman world had many facets that are strikingly similar to elements of modern life. Sommer's aim is to help the reader learn how to transform modern culture with the power of the Gospel as was first done in the centuries of the early Church.

**the gods of ancient rome robert turcan: So Great a Salvation** Jon C. Laansma, George H. Guthrie, Cynthia Long Westfall, 2019-06-27 This volume presents a dialogue between historians, exegetes, and theologians on the background and key themes of the atonement in Hebrews. Presenting a range of differing perspectives and contributing to the renewed conversation between biblical and theological scholarship, the argument is structured in two parts: contexts and themes within Hebrews. Focusing on atonement not only in the Old Testament but also in the Greco-Roman world, and touching on themes such as sacrifice, plight and solution, and faith, these contributions

shed light on the concept of the atonement in a directly scriptural way. The whole is a definitive collection of studies on the atonement in Hebrews that will be of service well beyond the confines of Hebrews' specialists, a collection as important for what it says about the atonement and the 21st century church as for what it says about Hebrews.

**the gods of ancient rome robert turcan:** Mythology: Oxford Bibliographies Online Research Guide Pura Nieto Hernández, 2010-05 This ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. A reader will discover, for instance, the most reliable introductions and overviews to the topic, and the most important publications on various areas of scholarly interest within this topic. In classics, as in other disciplines, researchers at all levels are drowning in potentially useful scholarly information, and this guide has been created as a tool for cutting through that material to find the exact source you need. This ebook is just one of many articles from Oxford Bibliographies Online: Classics, a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of classics. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit [www.aboutobo.com](http://www.aboutobo.com).

**the gods of ancient rome robert turcan:** An Archaeology of Religion Kit W. Wesler, 2012-04-20 Archaeologists have been increasingly turning their attention to the study of religion, but the field so far has lacked a cross-cultural overview. This text challenges archaeological conventions by refusing to respect the geographic and temporal boundaries with which archaeologists too often define their field. Worldwide in range and comparative in perspective, this exploration is guided by several fundamental questions: how do we recognize religion in the archaeological record? When should we recognize the first activities we call religious? What distinguishes a world religion? How can we see the formations of modern world religions in the archaeological record? An Archaeology of Religion begins with the first glimmers of what might be considered religious expression in the Paleolithic period and concludes with the complexities of world religions today. This book is an ambitious attempt to survey how scholars approach the identification of religious sites and practices in the archaeological record.

**the gods of ancient rome robert turcan:** Christian Forgery in Jewish Antiquities Nicholas Peter Legh Allen, 2020-09-02 Since at least the fourth century CE, the Jewish historian Josephus' Judean Antiquities has been assumed to be a critical source for valid extra-biblical evidence pertaining to the existence of the historical Jesus, James the Just and John the Baptist. Based on the latest findings from both contemporary and independent research, this book sets out, step by step, the final proof that (apart from the New Testament) there is absolutely no valid record pertaining to the historical existence of any of these individuals.

**the gods of ancient rome robert turcan:** Environmental Values in Christian Art Susan Power Bratton,

**the gods of ancient rome robert turcan:** The Dominion of the Dead Robert Pogue Harrison, 2010-04-15 How do the living maintain relations to the dead? Why do we bury people when they die? And what is at stake when we do? In *The Dominion of the Dead*, Robert Pogue Harrison considers the supreme importance of these questions to Western civilization, exploring the many places where the dead cohabit the world of the living—the graves, images, literature, architecture, and monuments that house the dead in their afterlife among us. This elegantly conceived work devotes particular attention to the practice of burial. Harrison contends that we bury our dead to humanize the lands where we build our present and imagine our future. As long as the dead are interred in graves and tombs, they never truly depart from this world, but remain, if only symbolically, among the living. Spanning a broad range of examples, from the graves of our first human ancestors to the

empty tomb of the Gospels to the Vietnam Veterans Memorial, Harrison also considers the authority of predecessors in both modern and premodern societies. Through inspired readings of major writers and thinkers such as Vico, Virgil, Dante, Pater, Nietzsche, Heidegger, and Rilke, he argues that the buried dead form an essential foundation where future generations can retrieve their past, while burial grounds provide an important bedrock where past generations can preserve their legacy for the unborn. *The Dominion of the Dead* is a profound meditation on how the thought of death shapes the communion of the living. A work of enormous scope, intellect, and imagination, this book will speak to all who have suffered grief and loss.

**the gods of ancient rome robert turcan: Religion in the Roman Empire** Ben Holtzer, 2016-12-15 Religion in the Roman Empire goes beyond gods and goddesses to provide a detailed look at the belief system of ancient Rome. As the empire expanded, diverse cultures joined together, bringing new traditions, sacred places, and holidays. This book examines current scholarship about the role religion played in the lives of everyday Romans as well as that of spiritual figures like priests and priestesses.

**the gods of ancient rome robert turcan: Preaching and Paul's Letter to the Romans** Ronald J. Allen, 2025-07-10 Ronald J. Allen argues that the apostle Paul wrote his letter to the Romans to address specifically the gentiles in the congregation in Rome. Allen suggests that this was because the gentiles exhibited arrogant behavior towards Jewish members of the community, thereby undermining a primary facet of the early church - to witness to the community of love and mutual support that God seeks for all. Allen shows readers how Paul points the gentiles to the faithfulness of God, who invites them to recognize and live according to the grace of God, shown to them through Jesus Christ. In this pastorally engaged work, Allen not only provides historical commentary on Romans but also helps preachers and scholars make connections between arrogance and its destructiveness in communities today, as well as inviting congregations to participate in the grace that makes possible a loving and mutually respectful community.

**the gods of ancient rome robert turcan: The Romans** Kevin Murray McGeough, 2004-11-23 So many myths and legends. So many senators and Caesars. So many documents, archaeological finds, movie-made misconceptions, and scholarly histories. With so much information available on the civilization of ancient Rome, and more discoveries happening all the time, where do you start? *The Romans: New Perspectives* is the ideal starting point for investigating this extraordinary civilization—its remarkable rise and decline, the scope of its power and wealth, the details of everyday life for its people, and its signature contributions to human culture (food, architecture, government, public works, art, and more). *The Romans* takes readers from the establishment of the monarchy (circa 753 BCE) through the rise of the republic (circa 509 BCE), the imperial period, and ultimately to the fall of the empire and the coronation of the barbarian king Odoacer. It is an engaging account of current thinking on Roman life and culture informed by a number of dramatic recent discoveries. The book provides a coherent introduction to the field, while pointing the way toward further reading on specific topics and personalities.

**the gods of ancient rome robert turcan: The Romans** Kevin M McGeough, 2009-03-26 Kevin McGeough approaches the centuries-long story of Rome thematically, exploring its geography, history, economics, social structures, material culture, and intellectual achievements. The book not only addresses such topics as historical personalities, forms of government, and religion, but also coinage, administrative organization, festivities, the art of leisure, death and burial rituals, and much more. Each chapter provides an up-to-date summary of our knowledge of Roman civilization, making this book an ideal introduction to this fascinating and complex culture.

**the gods of ancient rome robert turcan: The Romans** Kevin M McGeough, 2009-03-17 *The Romans* provides an accessible introduction to the history, society, and scholarship of one of the most captivating and enduring civilizations in human history. From the establishment of the monarchy and the Republican era to the decline of the Empire, this comprehensive volume examines every aspect of Roman culture from both historical and archaeological perspectives. In addition to surveying the well-established subjects of Roman history, author Kevin McGeough discusses the

latest events in the archaeological investigation of Rome, such as the recent excavations at the Temple of Castor and Pollux in the Roman Forum and the controversial identification of an ossuary thought by some to hold the body of James, the brother of Jesus. The text is accompanied by carefully chosen illustrations, maps, a glossary, and chronology. Throughout, general readers and students will gain a vivid understanding of Roman civilization and of why it still captures our imagination today.

**the gods of ancient rome robert turcan: Receptions of Antiquity, Constructions of Gender in European Art, 1300-1600** , 2015-06-24 Receptions of Antiquity, Constructions of Gender in European Art, 1300-1600 presents scholarship in classical reception at its nexus with art history and gender studies. It considers the ways that artists, patrons, collectors, and viewers in late medieval and early modern Europe used ancient Greek and Roman art, texts, myths, and history to interact with and shape notions of gender. The essays examine Giotto's Arena Chapel frescoes, Michelangelo's Medici Chapel personifications, Giulio Romano's decoration of the Palazzo del Te, and other famous and lesser-known sculptures, paintings, engravings, book illustrations, and domestic objects as well as displays of ancient art. Visual responses to antiquity in this era, the volume demonstrates, bore a complex and significant relationship to the construction of, and challenges to, contemporary gender norms.

**the gods of ancient rome robert turcan: Mary and Early Christian Women** Ally Kateusz, 2019-02-18 This book is open access under a CC BY-NC-ND license. This book reveals exciting early Christian evidence that Mary was remembered as a powerful role model for women leaders—women apostles, baptizers, and presiders at the ritual meal. Early Christian art portrays Mary and other women clergy serving as deacon, presbyter/priest, and bishop. In addition, the two oldest surviving artifacts to depict people at an altar table inside a real church depict women and men in a gender-parallel liturgy inside two of the most important churches in Christendom—Old Saint Peter's Basilica in Rome and the second Hagia Sophia in Constantinople. Dr. Kateusz's research brings to light centuries of censorship, both ancient and modern, and debunks the modern imagination that from the beginning only men were apostles and clergy.

**the gods of ancient rome robert turcan: Asceticism in the Graeco-Roman World** Richard Finn, 2009-07-02 Asceticism deploys abstention, self-control, and self-denial, to order oneself or a community in relation to the divine. Both its practices and the cultural ideals they expressed were important to pagans, Jews, Christians of different kinds, and Manichees. Richard Finn presents for the first time a combined study of the major ascetic traditions, which have been previously misunderstood by being studied separately. He examines how people abstained from food, drink, sexual relations, sleep, and wealth; what they meant by their behaviour; and how they influenced others in the Graeco-Roman world. Against this background, the book charts the rise of monasticism in Egypt, Asia Minor, Syria, and North Africa, assessing the crucial role played by the third-century exegete, Origen, and asks why monasticism developed so variously in different regions.
