eero pro 6 manual: *Untimely Moderns* Eeva-Liisa Pelkonen, 2023-01-01 A novel exploration of the idea of nonlinear time and its place at the heart of modern art and architecture Through much of the twentieth century, a diverse group of thinkers engaged in an interdisciplinary conversation about the meaning of time and history for modern art and architecture. The group included architects Louis Kahn, Everett Victor Meeks, James Gamble Rogers, Paul Rudolph, and Eero Saarinen; artists Anni and Josef Albers; philosopher Paul Weiss; and art historians Henri Focillon, George Kubler, Sibyl Moholy-Nagy, and Vincent Scully. These figures were unified by their resistance to the idea that, to be considered modern, art and architecture had to be of its time, as well as by the pivotal role that Yale University held as a backdrop to their thinking. These thinkers sponsored a new kind of approach, one that Eeva-Liisa Pelkonen terms untimely, emphasizing a departure from a sequential course of events. Ideas about temporal duration, new tradition, the presence of the past, and the shape of time were among the concepts they explored. With an interdisciplinary focus, Pelkonen reveals previously unexplored connections among key figures of American intellectual and artistic culture at midcentury whose works and words would shape modern architecture.

eero pro 6 manual: Art in Our Time Harriet Schoenholz Bee, Michelle Elligott, 2004 This volume chronicles the Museum's story from its opening, ten days after the stock market crash of 1929, in a few rented rooms in a midtown office building, up to the present day, in its new building on West Fifty-third and Fifty-fourth streets. The book presents a pictorial and documentary review of each year, and each important period, of the Museum's history. It tells the story of how The Museum of Modern Art, New York, began as a small set of art galleries inaugurated by three ladies of means who had a passion for modern art. Through a selection of photographs, official documents, letters, quotations, newspaper clippings, cartoons, and other ephemera, the complex and multilayered history of the Museum unfolds in a visual march through time, revealing the extraordinary vision of a determined group of individuals who had the ability and courage to translate their vision into reality -- OhioLink Library Catalog.
