**january 10 in history:** History of the First African Baptist Church, from Its Organization, January 10th, 1788, to July 1st, 1888 Emanuel King Love, 1888 Love, the pastor of the First African Baptist Church in Savannah, writes this history to argue his Church's claim to be the first African-American Baptist Church in North America. He gives a detailed report of the rise of the Church under Andrew Bryan before the split of 1832, when a majority of the members followed Andrew C. Marshall to form a new church in Franklin Square in Savannah, retaining the old name. He provides biographies of the pastors and important leaders of the new congregation, including his own administration, and concludes by giving the documents, addresses and sermons surrounding the first centennial celebration, which included the adjudication of the dispute between the two churches.

**january 10 in history:** Producing and Debating History Petros Apostolopoulos, 2024-10-21 In 2021, the American Historical Association published a study on how the American public perceives and understands the past. Almost half of the respondents argued that they turn to Wikipedia to learn about history and acquire a historical understanding of the past. Wikipedia was ranked higher than other historical activities, such as "Historic site visit," "Museum visit," "Genealogy work," "Social media," "Podcast/radio program," "History lecture," and "History-related video game." These findings combined with the appropriation of Wikipedia's corpus by ChatGPT and Wikipedia's partnership with the most central search engine in the digital world, Google, and other digital assistants, such as Siri and Alexa, make clear how crucial the role of Wikipedia in how the public learns about history and makes sense of the past is. But how is historical knowledge produced on Wikipedia? How do Wikipedia editors engage with historical events of the past and transform the

past into historical knowledge? Why do they decide to contribute to the production of history? By placing Wikipedia editors at the center of research inquiry and using multiple methodologies and different kinds of data, this book explores how historical knowledge is produced in one of the most central digital communities of knowledge, Wikipedia.

**january 10 in history:** African American Urban History since World War II Kenneth L. Kusmer, Joe W. Trotter, 2009-08-01 Historians have devoted surprisingly little attention to African American urban history of the postwar period, especially compared with earlier decades. Correcting this imbalance, *African American Urban History since World War II* features an exciting mix of seasoned scholars and fresh new voices whose combined efforts provide the first comprehensive assessment of this important subject. The first of this volume's five groundbreaking sections focuses on black migration and Latino immigration, examining tensions and alliances that emerged between African Americans and other groups. Exploring the challenges of residential segregation and deindustrialization, later sections tackle such topics as the real estate industry's discriminatory practices, the movement of middle-class blacks to the suburbs, and the influence of black urban activists on national employment and social welfare policies. Another group of contributors examines these themes through the lens of gender, chronicling deindustrialization's disproportionate impact on women and women's leading roles in movements for social change. Concluding with a set of essays on black culture and consumption, this volume fully realizes its goal of linking local transformations with the national and global processes that affect urban class and race relations.
