Her weaving of history, autobiography, fiction, and polemic has won her a large readership. In this first book-length study of her work, Moira Ferguson examines all of Kincaid's writing up to 1992, focusing especially on their entwinement of personal and political identity. In doing so, she draws a parallel between the dynamics of the mother-daughter relationship in Kincaid's fiction and the more political relationship of the colonizer and the colonized. Ferguson calls this effect the doubled mother- a conception of motherhood as both colonial and biological.

autobiographical sources of her writings, J. Brooks Bouson investigates the ongoing construction of Kincaid's autobiographical and political identities. She focuses attention on what many critics find so enigmatic and what lies at the heart of Kincaid's fiction and nonfiction work: the mother mystery. Bouson demonstrates, through careful readings, how Kincaid uses her writing to transform her feelings of shame into pride as she wins the praise of an admiring critical establishment and an ever-growing reading public.

lucy jamaica kincaid: A Character in Transition: The Theme of Reinventing One's Self in Jamaica Kincaid's Work "Lucy" Nadine Röpke, 2006-07-10 Seminar paper from the year 2004 in the subject American Studies - Literature, grade: 2,0, Humboldt-University of Berlin (Amerikanistisches Institut), course: HS: Postcolonial Theory, Literature and Gender, language: English, abstract: Introduction The autobiographical novel *Lucy* was written by Jamaica Kincaid in 1990. The author, who was born in 1949 on the Caribbean island of Antigua, is one of the representative figures of postcolonial literature, which has been gaining prominence since the 1970s. With the appearance of the work "The Empire Writes Back: Theory and Practice in Post-Colonial Literatures" written by Bill Ashcroft, Gareth Griffiths, and Helen Tiffin in 1989 the popularity of the term "Postcolonialism" grew even more. The definition of the term is still widely discussed but in general postcolonial literature deals with the effects of colonization on the colonized people and society after the end of colonization. The term "post" indicates that Postcolonialism is relating to the time following the establishment of independence in a colony. That means, the time after the colonial powers have left the country and the time of colonization is over. Nevertheless, the issues of Postcolonialism are so many-sided that they often transcend a strict definition of the term, which is therefore used much more loosely in practice. Postcolonial themes not only discuss the period after the departure of the imperial powers but also deal with the time before independence. Major issues are the oppression of the indigenous people by the imperial powers, the gaining of independence, the impact of colonization on postcolonial history and culture, the search for personal and national identity but also the economic dependency of the postcolony on its former colonizers. Thus some critics even question the term Postcolonialism, since it indicates that the period when the colony was dependent on its colonizers is over. They argue that most former colonies are still or even again economically dependent on the mother country that colonized them. Those neocolonial forms of oppression and exploitation are probably caused by globalization, which means by the increasing mobility of goods, services, labour, technology and capital throughout the world. lucy jamaica kincaid: Jamaica Kincaid's Writings of History Antonia Purk, 2023-09-18 Jamaica Kincaid's works consistently explore how colonial history affects contemporary everyday lives. Throughout her novels, short fiction, and non-fictional essays, Kincaid's texts engage with history through its medial representations, which are starkly determined by colonial perspectives. This study examines the entanglements of temporalities in current perceptions of the past and how literary text intervenes in historical consciousness. With a focus on the media text, image, and the human body, the chapters of this book demonstrate how Kincaid's poetics of impermanence counter colonial representations of history with strategies of ambiguity, repetition, and redirection. Kincaid's texts repeat and revise aspects of colonial history – a process that decenters the totality of historical colonial ideology and replaces it with self-determined versions of the past through a multiplication of perspectives and voices.

lucy jamaica kincaid: Part Blood, Part Ketchup Karen R. Tolchin, 2007-01-01 *Part Blood, Part*

Ketchup analyzes novels by 20th century authors Edith Wharton, J.D. Salinger, Philip Roth, John Irving, and Jamaica Kincaid, uncovering trends that obliterate cultural divides. With unrestrained American voices, the collective pitch of their complaints soars, revealing an unmistakable formula of heightened self-exposure and fury. As in the case of protagonists on the page and the screen, it becomes difficult to distinguish authentic suffering from performance_or in the words of one reviewer_the ratio of blood to ketchup. Breathtaking in scope, *Part Blood, Part Ketchup* situates over one hundred years of literature and film within national, historical, and global contexts, tracing 19th century European allegations of a troubling narrowness in the American character to contemporary insights about the global superpower. Ultimately, Karen Tolchin finds that subtle evolution of the American coming-of-age narrative has performed significant cultural work in the construction of our national mythology.

Jana Evans Braziel examines Kincaid's preoccupation with genealogy, genesis, and genocide in the Caribbean; her adaptations of biblical texts for her literary oeuvre; and her authorial deployments of the diabolic as frames for both rethinking the boundaries of genre and altering notions of subjectivity, objectivity, self, and other.

lucy jamaica kincaid: *The Transnationalism of American Culture* Rocío G. Davis, 2013 This book studies the transnational nature of American cultural production, specifically literature, film, and music, examining how these serve as ways of perceiving the United States and American culture. The volume's engagement with the reality of transnationalism focuses on material examples that allow for an exploration of concrete manifestations of this phenomenon and trace its development within and outside the United States. Contributors consider the ways in which artifacts or manifestations of American culture have traveled and what has happened to the texts in the process, inviting readers to examine the nature of the transnational turn by highlighting the cultural products that represent and produce it. Emphasis on literature, film, and music allows for nuanced perspectives on the way a global phenomenon is enacted in American texts within the U.S, also illustrating the commodification of American culture as these texts travel. The volume therefore serves as a coherent examination of the critical and creative repercussions of transnationalism, and, by juxtaposing a discussion of creativity with critical paradigms, unveils how transnationalism has become one of the constitutive modes of cultural production in the 21st century.

lucy jamaica kincaid: *Transnational American Spaces* Tina Powell, Patricia Sagasti Suppes, 2022-06-07 As people migrate, they face the need to create a stable space within a disconcertingly unfamiliar environment. This experience of creating new spaces opens opportunities for positive transcultural connections; however, these opportunities can also serve as the disciplining of the migrant body. This text focuses on the movement of bodies in transnational communities and the formation of domestic and communal spaces that provide respite from migratory paths, negotiate transnational relationships, or establish a new home. In doing so, we explore literary texts that question, challenge, and deepen our understanding of the experience of migration through the use of space and place. The texts in question examine three levels of transnational spaces: intimate spaces such as family, personal growth, or sexuality; inherited spaces reflected in generational conflicts, religious identity, and inherited histories; and national spaces that look at issues of broader national identities. The texts we examine engage with transnational communities within the United States, and the ways in which narratives reimagine new space to negotiate change and create new norms. These narratives can sometimes bridge both cultures or can sometimes result in a violent sense of displacement. Each chapter problematizes a different aspect of transcultural adaptation, and the geographic ties of each community focus reflect the multicultural reality of the U.S., with connections to Asia, the Caribbean, Europe, the Middle East, and Latin America.

lucy jamaica kincaid: *Jamaica Kincaid* Lizabeth Paravisini-Gebert, 1999-09-30 With the publication of her novel *Annie John* in 1985, Jamaica Kincaid entered the ranks of the best novelists

of her generation. Her three autobiographical novels, *Annie John*, *Lucy*, and *Autobiography of My Mother*, and collection of short stories, *At the Bottom of the River*, touch on the universal theme of coming-of-age and the female adolescent's need to sever her ties to her mother. This angst is couched in the social landscape of post-colonial Antigua, a small Caribbean island whose legacy of racism affects Kincaid's protagonists. Her fiction rewrites the history of the Caribbean from a West Indies perspective and this milieu colors the experiences of her characters. Following a biographical chapter, Paravisini-Gebert traces the development of Kincaid's craft as a writer. Each of the novels and the collection of short stories is discussed in a separate chapter that includes sections on plot, character, theme, and an alternate critical approach from which to read the novel, such as feminist. A complete primary and secondary bibliography and lists of selected reviews of Kincaid's work complete the study.

lucy jamaica kincaid: *The Luxury of Nationalist Despair* A. J. Simoes da Silva, 2000 This book offers a timely critique of the work of the Barbadian novelist George Lamming, examining the ways in which his novels exhibit the luxury of nationalist despair and exploring the tensions between his strongly voiced anti-colonialism and his ambiguously articulated politics of self. Although stressing the place occupied by Lamming and his work in the context of an anti-colonial first generation of 'nation-writing' that has emerged in the formerly colonized world over the past half-century, the study also addresses the novelist's problematic, reductive focus on a nationalist project that is ultimately deeply flawed - in essence, the result of an uneasy relationship between form and thesis. Lamming's continued struggle with the novel as a genre, especially with its ability to get beyond the cultural and political baggage of colonialism, demonstrates the power of one of his most poignant assertions: the colonial experience [...] is a continuing psychic experience that has to be dealt with long after the actual situation formally 'ends'. Written from a postcolonial perspective, the study draws also on contemporary feminist criticism in order to examine Lamming's characteristically simplistic depiction of female characters in terms of a greater willingness to embody the neocolonial. The book starts by addressing the place Lamming's work occupies both within postcolonial writing at large and specifically within Caribbean literature. Subsequent chapters provide close textual readings of Lamming's six novels, paired in terms of their foregrounding of issues of race, gender and class. Despite a clear shift in Lamming's thematic focus on the rewriting of Caliban's project, with his last novel offering a basis for a re-imagining of the post/colonial encounter, there remains a perturbing inability to relinquish the privileged stance afforded the postcolonial intellectual in self-imposed exile (cultural, much more than geographical). The book represents an important contribution to criticism on the work of one of the most influential voices in postcolonial literature of the last fifty years.

lucy jamaica kincaid: *The Rights War in Literature and Culture* Jennifer Rickel, 2025-07-31 *Rights War* tracks how the human rights framework is weaponized against the oppressed, and it makes the case for the central place of literature in understanding this seizure of narrative control. While literary humanitarianism depoliticizes suffering and positions the reader as a savior to traumatized Others, *Rights War* shows how contemporary fiction by women of color and queer writers across the African diaspora engage innovative narrative paradigms to address structural inequities. It analyzes strategies set out in this literature for disarming savior victimism, which it identifies as a pernicious cultural phenomenon in which the powerful proclaim themselves saviors to and victims of those they marginalize. As the disassociation of national rights from international human rights and the disconnection of civil and political rights from social and economic rights provoke a contest of victimhood, this book offers a renewed argument for the

indivisibility of rights and the social justice function of literature.
