amc 8 2011 answer key: Imperiled Whiteness Penelope Ingram, 2023-06-23 In Imperiled Whiteness, Penelope Ingram examines the role played by media in the resurgence of white nationalism and neo-Nazi movements in the Obama-to-Trump era. As politicians on the right stoked anxieties about whites “losing ground” and “being left behind,” media platforms turned whiteness into a commodity that was packaged and disseminated to a white populace. Reading popular film and television franchises (Planet of the Apes, Star Trek, and The Walking Dead) through political flashpoints, such as debates over immigration reform, gun control, and Black Lives Matter protests, Ingram reveals how media cultivated feelings of white vulnerability and loss among white consumers. By exploring the convergence of entertainment, news, and social media in a digital networked environment, Ingram demonstrates how media’s renewed attention to “imperiled whiteness” enabled and sanctioned the return of overt white supremacy exhibited by alt-right groups in the “Unite the Right” rally in Charlottesville in 2017 and the Capitol riots in 2021.

amc 8 2011 answer key: Fracking David E. Newton, 2015-01-16 The use of fracking is a tremendously important technology for the recovery of oil and gas, but the advantages and costs of fracking remain controversial. This book examines the issues and social, economic, political, and legal aspects of fracking in the United States. Hydraulic fracturing of oil and gas wells—known commonly as fracking—has been in use in the United States for more than half a century. In recent years, however, massive expansion of shale gas fracturing across the nation has put fracking in the public eye. Is fracking a win win like its proponents say, or are there significant costs and dangers associated with the use of this energy production technology? This book examines fracking from all angles, addressing the promise of the United States becoming energy independent through the use of the process to tap the massive amounts of natural gas and oil available as well as the host of problems associated with fracking—groundwater contamination and increased seismic activity, just to mention two—that raise questions about the long-term feasibility of the process as a source of natural gas. The first part of the book provides a historical background of the topic; a review of technical information about fracking; and a detailed discussion of the social, economic, political, legal, and other aspects of the current fracking controversy. The second part of the book provides a host of resources for readers seeking to learn even more in-depth information about the topic, supplying a chronology, glossary, annotated bibliography, and profiles of important individuals and

organizations. Written specifically for students and young adults, the content is accessible to readers with little or no previous knowledge regarding fracking.

amc 8 2011 answer key: Missional fatherhood as praxis to Christian families who grapple with father absence Fazel Ebrihiam Freeks, 2021-12-01 All human beings are made in the image of God, and form part of God's creation. Families per se are valuable to God, and they can be infused with God-given solutions (biblically based) to the challenges they are facing. One of these challenges are father absence and it is a devastated social ill in many communities. Even so, missional fatherhood can be a buffer against father absence, un-involvement of fathers and numerous family issues. Missional fathers are filled with a God-given mission aiming to instil a love for Christ in the hearts of their children. They are not only called but obliged to lead sacrificial lives for the sake of their families. Their hearts engage with their children on aspects in life that matters the most. Transforming their minds by the Word of God and serving God the Father is far-reaching. Missional fathers are not only disciple-makers in their homes but also in their respective communities. This present-day notion is God's calling on every father to be part of the Gospel and God's holistic mission and is in response to Jesus's Great Commission to make disciples of all people including families. All who decided and turn to the way of Jesus Christ form part of the mission that God had given the Son.

amc 8 2011 answer key: Assyrian and Babylonian Scholarly Text Catalogues Ulrike Steinert, 2018-06-11 The reconstruction of ancient Mesopotamian medical, ritual and omen compendia and their complex history is still characterised by many difficulties, debates and gaps due to fragmentary or unpublished evidence. This book offers the first complete edition of the Assur Medical Catalogue, an 8th or 7th century BCE list of therapeutic texts, which forms a core witness for the serialisation of medical compendia in the 1st millennium BCE. The volume presents detailed analyses of this and several other related catalogues of omen series and rituals, constituting the corpora of divination and healing disciplines. The contributions discuss links between catalogues and textual sources, providing new insights into the development of compendia between serialization, standardization and diversity of local traditions. Though its a novel corpus-based approach, this volume revolutionizes the current understanding of Mesopotamian medical texts and the healing disciplines of conjurer and physician. The research presented here allows one to identify core text corpora for these disciplines, as well as areas of exchange and borrowings between them.

amc 8 2011 answer key: A Criminological Biography of an Arms Dealer Yarin Eski, 2022-01-31 For many, the arms trade and its dealers are the root cause of regional wars and global terrorism. In both public and academic debates, arms dealers are considered immoral as they profit from conflict, due to their key position in the international arms trading business. Nevertheless, there seems to be little to no interest in the personal lives of those actively involved. In his criminological biography of a licensed arms dealer, Yarin Eski provides an in-depth, interdisciplinary approach to and understanding of the global arms trade, revealing a deep insider view placed in a wider sociocultural context. From early discussions about childhood and career choices, to reflections on becoming and being an arms trader, Eski offers a methodologically embedded approach and advances biographical writing in the field of Criminology. It is a unique and thought-provoking contribution to the fields of criminology, ethnography, sociology, critical security studies, policing studies, war studies and international politics and offers an unparalleled insight from within.
