

weapons of the french foreign legion

****Weapons of the French Foreign Legion: An In-Depth Look at Their Arsenal****

weapons of the french foreign legion have long been a subject of fascination for military enthusiasts and historians alike. Known for their elite status, rigorous training, and storied history, the French Foreign Legion relies on a distinctive arsenal that is both modern and steeped in tradition. Understanding the weapons they use offers insight into how this legendary fighting force remains effective on diverse battlefields around the globe, from desert environments to urban warfare.

The Role of Weapons in the French Foreign Legion's Effectiveness

The French Foreign Legion is unique among military units worldwide. Its soldiers come from many countries but fight under the French flag, often in some of the most challenging environments. The weapons they use must be reliable, adaptable, and easy to maintain. Whether in peacekeeping missions or high-intensity combat, their choice of firearms, support weapons, and tactical gear plays a crucial role in mission success.

Standard Issue Firearms: Backbone of the Legion's Firepower

At the heart of the legionnaires' combat readiness lie their standard issue firearms. These weapons are carefully selected to balance firepower, weight, and versatility.

FAMAS F1 and FAMAS G2 Assault Rifles

For decades, the FAMAS has been synonymous with the French military, including the Foreign Legion. Known affectionately as the “bugle” due to its unique shape, the FAMAS F1 was the Legion’s primary assault rifle for many years. It fires the 5.56×45mm NATO cartridge, offering a good balance between range and recoil control.

More recently, the FAMAS G2 has been introduced, featuring improvements in ergonomics and reliability. However, the Legion has started transitioning to more modern rifles to keep pace with global standards.

HK416: Modernizing the Legion’s Arsenal

The Heckler & Koch HK416 is increasingly favored by the French Armed Forces, including the Foreign Legion. This rifle combines the reliability of the AR-15 design with a gas piston system, reducing fouling and increasing durability. Chambered in 5.56mm NATO, the HK416 offers excellent accuracy and modularity, allowing legionnaires to customize it with optics, grips, and other tactical accessories.

The adoption of the HK416 reflects the Legion’s commitment to staying at the cutting edge of infantry weaponry, providing soldiers with tools that can perform under the harshest conditions.

Pistols: The Reliable Sidearm

For close-quarters combat and as a backup weapon, the French Foreign Legion issues pistols like the SIG Sauer SP2022. Known for its robustness and simplicity, the SP2022 fires the 9mm round and is favored for its ease of maintenance and effectiveness in urban operations.

Support Weapons and Heavy Firepower

While individual rifles provide the bulk of firepower, the Legion also employs support weapons to enhance squad-level capabilities.

Light Machine Guns (LMGs)

The FN Minimi, designated as the M249 in some armies, is a staple light machine gun used by the Legion. Chambered in 5.56mm, it offers sustained fire capability to suppress enemy positions and provide cover during advances.

Some units also use the heavier MAG 58, a general-purpose machine gun chambered in 7.62mm NATO. Its longer range and powerful rounds make it ideal for defensive operations and fire support.

Sniper Rifles

Precision shooting is an essential skill in modern warfare. The Legion equips its snipers primarily with the FR F2, a French-made bolt-action sniper rifle chambered in 7.62×51mm NATO. This weapon is known for its accuracy and reliability, allowing legion snipers to engage targets effectively at long distances.

In some cases, modern semi-automatic sniper rifles like the Heckler & Koch G28 have been adopted to provide faster follow-up shots without sacrificing precision.

Specialized Weapons and Equipment

Beyond the standard rifles and machine guns, the French Foreign Legion employs a range of specialized weapons designed for specific combat scenarios.

Grenade Launchers

To increase infantry firepower, many legionnaires are equipped with under-barrel grenade launchers such as the HK79 or the LGL 40. These launchers allow troops to deliver explosive rounds beyond the reach of hand-thrown grenades, useful in urban combat or clearing enemy strongholds.

Anti-Tank and Anti-Structure Weapons

While the Legion rarely fields heavy armored vehicles, they rely on portable anti-tank weapons for defense against armored threats. The AT4 and the more modern MMP (Missile Moyenne Portée) provide effective means to neutralize enemy vehicles or fortified positions.

Combat Shotguns

For close-quarters battle, especially in urban or jungle environments, combat shotguns like the Franchi SPAS-12 have been part of the Legion's arsenal. These weapons excel in breaching doors and delivering devastating short-range firepower.

Historical Evolution of the Legion's Weapons

The weapons of the French Foreign Legion have evolved significantly over its nearly two-century existence. From muskets and bolt-action rifles used in the 19th century to today's high-tech assault rifles, the Legion has continually adapted to technological advances and changing warfare styles.

In World War I and II, the Legion used standard French infantry rifles such as the Lebel and MAS-36. Post-war modernization saw the introduction of automatic weapons and machine guns, reflecting changes in tactics and battlefield demands.

Understanding this evolution highlights how the Legion balances tradition with innovation, preserving its identity while ensuring combat effectiveness.

Training With Weapons of the French Foreign Legion

The Legion's reputation is not just built on the weapons they carry but on the extraordinary training legionnaires undergo. Mastery of firearms is drilled intensely, ensuring that each soldier can maintain, operate, and effectively deploy their weapons under stress.

Training encompasses marksmanship, tactical shooting, and weapons maintenance. Legionnaires are also trained to operate in diverse environments, meaning their weapons must be versatile and reliable in deserts, jungles, mountains, and urban settings.

This rigorous training, combined with the Legion's distinctive weapons, creates a potent infantry force capable of rapid deployment and sustained combat.

Modern Challenges and Future Developments

As warfare evolves with new technologies and threats, the French Foreign Legion continues to assess and upgrade its weapons systems. The integration of digital optics, improved ammunition types, and modular weapon platforms reflects the ongoing commitment to maintain operational superiority.

There is also increasing emphasis on lightweight materials and ergonomic designs to reduce soldier fatigue and improve combat efficiency. Future weapons might also incorporate smart technologies,

such as integrated sensors or enhanced targeting systems, aligning the Legion with the broader trends in military modernization.

The weapons of the French Foreign Legion are more than just tools of war; they are part of a legacy that combines history, innovation, and relentless discipline. From the iconic FAMAS rifle to the cutting-edge HK416 and specialized support weapons, the Legion's arsenal reflects its role as one of the world's most respected and versatile fighting forces. Whether facing harsh deserts or dense urban combat zones, these weapons continue to empower legionnaires to accomplish their missions with precision and resilience.

Frequently Asked Questions

What are the standard issue rifles used by the French Foreign Legion?

The French Foreign Legion primarily uses the HK416F assault rifle as their standard issue weapon, which is known for its reliability and modular design.

Does the French Foreign Legion use any specialized sniper rifles?

Yes, the French Foreign Legion employs sniper rifles such as the FR F2 and the more modern FR F3 for long-range precision shooting.

What types of sidearms are issued to French Foreign Legion soldiers?

Soldiers in the French Foreign Legion are commonly issued the MAC Mle 1950 or the more recent Glock 17 as their standard sidearm.

Are there any unique or historical weapons associated with the French Foreign Legion?

Historically, the French Foreign Legion used the MAS-36 bolt-action rifle and the FM 24/29 light machine gun, both of which hold a significant place in the unit's legacy.

What machine guns does the French Foreign Legion use for support fire?

The French Foreign Legion utilizes the FN Minimi light machine gun and the MAG 58 general-purpose machine gun to provide suppressive fire and support.

Does the French Foreign Legion use grenade launchers?

Yes, the French Foreign Legion often equips soldiers with the HK GMG automatic grenade launcher and the under-barrel M203 grenade launcher attachment on rifles.

Are anti-tank weapons part of the French Foreign Legion's arsenal?

The French Foreign Legion is equipped with anti-tank weapons such as the MILAN anti-tank guided missile and the AT4 disposable rocket launcher for armored threats.

How does the French Foreign Legion adapt its weapons for desert or jungle environments?

The Legion often modifies weapons with specialized coatings, uses suppressors, and selects appropriate calibers to enhance reliability and effectiveness in harsh environments like deserts and jungles.

What role do weapons like the FAMAS play in the French Foreign

Legion?

While the FAMAS rifle was historically used by French forces including the Legion, it has largely been replaced by the HK416 series, which offers improved ergonomics and modularity.

****Weapons of the French Foreign Legion: A Professional Review****

Weapons of the French Foreign Legion have long been a subject of fascination and respect within military circles worldwide. Renowned for their rigorous training and combat effectiveness, the Legionnaires rely on a diverse arsenal that combines modern technology with proven reliability. Understanding the weaponry of the French Foreign Legion provides insight into how this elite force maintains operational superiority across various global theaters, from desert sands to jungle warfare.

Overview of the French Foreign Legion's Armament

The French Foreign Legion is an elite corps within the French Army, composed primarily of foreign volunteers. Their equipment, particularly their weapons, must be versatile, durable, and adaptable to a wide range of combat scenarios. The Legion's armament reflects France's broader military doctrine, favoring modularity, standardization, and interoperability with NATO allies. The weapons of the French Foreign Legion are selected not only for their firepower but also for their reliability under harsh conditions, ease of maintenance, and logistical compatibility.

Standard Issue Rifles and Personal Firearms

At the core of the Legion's infantry weaponry lies the ****FAMAS F1 and FAMAS G2**** rifles. These bullpup assault rifles have been iconic within French forces for decades. The FAMAS, known

colloquially as "Le Clairon" (The Bugle), is chambered in 5.56×45mm NATO, offering a high rate of fire and compact design. However, recent years have seen a gradual transition towards the **HK416** rifle, which offers improved ergonomics, modularity, and compatibility with modern accessories.

The HK416, favored for its reliability and ease of use, particularly in adverse environments, has become a staple in many elite units worldwide, including the French Foreign Legion. Its gas-piston system reduces fouling, enhancing performance in sandy or muddy conditions—common in many Legion deployment zones.

In addition to rifles, Legionnaires carry sidearms such as the **Glock 17** and the **SIG Sauer P226**. These pistols serve as secondary weapons and are chosen for their reliability, magazine capacity, and ease of maintenance.

Support Weapons and Heavy Firepower

The Legion's infantry units are supported by an array of machine guns and automatic weapons to provide suppressive fire and enhance battlefield control. The **FN Minimi** light machine gun, chambered in 5.56mm, is widely used due to its balance between portability and firepower.

For heavier support, the **M2 Browning .50 caliber machine gun** and the **AA-52** machine gun, a French-designed 7.62mm weapon, offer sustained fire capabilities. These weapons are typically mounted on vehicles or deployed in fixed positions, providing critical fire superiority during engagements.

Grenade launchers such as the **HK GMG (Grenade Machine Gun)** and the **M203** under-barrel grenade launcher extend the Legion's capacity to engage enemy positions behind cover, adding versatility to their infantry tactics.

Specialized Weaponry and Tactical Equipment

The weapons of the French Foreign Legion go beyond standard infantry arms. Specialized units within the Legion, such as the Combat Engineers or Reconnaissance Squads, utilize a broader spectrum of equipment tailored to their missions.

Sniper and Marksman Rifles

Precision fire is vital for reconnaissance and targeted elimination of high-value threats. The Legion fields sniper rifles such as the ****FR F2**** and the more modern ****FR F3****, chambered in 7.62×51mm NATO and 7.62×54mmR respectively. These rifles are known for their accuracy, effective range, and rugged design.

The adoption of semi-automatic platforms like the ****HK417****, chambered in 7.62mm, has enhanced the Legion's marksman capabilities, offering faster follow-up shots without compromising precision.

Anti-Armor and Anti-Aircraft Capabilities

To counter armored threats, the Legion is equipped with portable anti-tank weapons such as the ****MILAN**** missile system and the ****AT4**** disposable rocket launcher. These systems provide infantry units with the necessary firepower to neutralize light to medium armored vehicles effectively.

For air defense, man-portable air-defense systems (MANPADS) like the ****Mistral**** missile offer protection against low-flying aircraft and helicopters, ensuring the Legion can operate with a degree of autonomy even in contested airspaces.

Comparative Analysis: French Foreign Legion vs. Other Elite Units

When compared to other elite military forces, the weapons of the French Foreign Legion reflect a philosophy prioritizing adaptability and ruggedness over cutting-edge innovation. For instance, while U.S. special operations forces might employ the latest generation of modular rifles and highly specialized optics, the Legion balances modernity with proven reliability—critical for deployments in remote or austere environments.

The Legion's gradual shift from the iconic FAMAS to the HK416 mirrors broader trends in military small arms, recognizing the importance of global standardization (NATO calibers and accessories) and logistical efficiency.

Advantages and Limitations

- **Advantages:** Weapons used by the Legion are battle-tested and known for endurance under extreme conditions. The modular nature of newer rifles allows customization to mission needs. The mix of legacy and modern systems ensures operational continuity.
- **Limitations:** Some older weapons like the FAMAS have faced criticism for maintenance complexity and parts scarcity. Transition phases between weapon systems can create logistical challenges. The Legion's reliance on French-designed weapons may limit interoperability in multinational operations compared to units fully standardized on NATO gear.

Training and Weapon Familiarization

The French Foreign Legion's training regimen is famously rigorous, with a strong emphasis on weapon proficiency. Legionnaires are trained to operate their firearms under all conditions—day or night, in urban combat, jungle, desert, or mountainous terrain. This comprehensive training ensures that the legionnaire can maximize the effectiveness of their weapon systems.

In addition to standard marksmanship, training includes maintenance and quick repairs, essential for keeping weapons operational during extended missions where logistical support may be limited.

Integration of Modern Technologies

Modernization efforts within the Legion have incorporated advanced optics, night vision devices, and laser aiming modules. The adoption of these technologies significantly enhances target acquisition and engagement accuracy, especially in low-visibility conditions. The HK416 platform, in particular, is compatible with a wide range of accessories, allowing legionnaires to tailor their loadouts to specific operational requirements.

Conclusion: The Strategic Role of Weapons in the French Foreign Legion

The weapons of the French Foreign Legion exemplify a balanced approach to military armament—one that values durability, adaptability, and proven performance. From the enduring FAMAS rifle to the increasingly prevalent HK416, the Legion's arsenal supports its reputation as a versatile and formidable force.

By equipping legionnaires with a mix of standard and specialized weapons, the Legion maintains

operational flexibility, enabling it to successfully engage in diverse combat environments worldwide. This carefully curated arsenal, combined with intense training and strategic deployment, ensures that the French Foreign Legion remains a respected and effective force on the modern battlefield.

weapons of the french foreign legion: *The French Foreign Legion* Jean-Denis G.G. Lepage, 2016-04-18 This book gives the reader a straightforward and continuous survey of the history of the French Foreign Legion. By outlining the Legion's vicissitudes, victorious campaigns, epic marches, heroic and sometimes hopeless stands, dirtiest combats and dramatic defeats, but also by briefly placing the Legion back in the historical background of France, and by describing its development, organization, uniforms, equipments and weapons, the author hopes to dispel myths, and try to give a true and accurate picture of what the French Foreign Legion has been from 1831 until today. There are well-researched, detailed line drawings throughout.

weapons of the french foreign legion: The French Foreign Legion Douglas Porch, 2010-11-01 The French Foreign Legion is a complete, captivating study of the famed fighting force, from its inception in 1831 to modern times. Historian Douglas Porch chronicles the Legion's involvement in Spain, Mexico, Indochina, Madagascar, WWI, Vietnam, and Algiers (to name a few) and delves into the inner workings of legionnaires and their captains. Known for draconian discipline and shrouded in mystery, the secrets of the Legion are guarded by those who have gained admittance into its elite society. In this thoroughly researched and impressive account, Porch reveals the mysteries surrounding a Legion of "unparalleled exoticism, pathos, and drama."

weapons of the french foreign legion: French Foreign Legion Handbook: Strategic and Practical Information IBP USA, 2009-03-03

weapons of the french foreign legion: Medieval Costume, Armour and Weapons Eduard Wagner, Zoroslava Drobná, Jan Durdík, 2014-05-05 Over 400 illustrations in this superb pictorial archive trace the evolution of clothing styles, armor, and weapons during the medieval period in Central Europe. Unsurpassed in its comprehensiveness and variety, the volume draws upon a wealth of authentic primary sources, including written accounts, contemporary paintings and sculpture, and the remains of textiles and other relics. A profusion of apparel and weaponry are depicted, ranging from the simple tunics and robes of peasants, blacksmiths, gardeners, shoemakers, fishermen, and other common laborers to the fur-lined cloaks and brocaded garments of the aristocracy. Tools and utensils used by peasants as well as the battle equipment and armor of warriors are also pictured and described, with special emphasis on how these weapons were handled, carried, and used in combat. Accompanied by a scrupulously researched and well-documented text, these royalty-free illustrations not only offer general readers an intriguing and authentic insight into a past age but also provide artists, historians, students of weaponry, and theater and film professionals with a highly accurate source of reference material.

weapons of the french foreign legion: Armies of the First Carlist War 1833-39 Gabriele Esposito, 2017-12-28 The First Carlist War broke out after the death of King Ferdinand VII, the king

restored at the end of the Peninsular War thanks to Wellington's victory. The crown was claimed by both his daughter Isabella, backed by the Liberal party and his brother Don Carlos, at the head of northern ultra-conservatives centred in the Basque provinces and Navarre. The Liberals or 'Cristinos' were supported by a 10,000-strong British Legion of volunteers led by a former aide to Wellington as well as the British Royal Navy, a Portuguese division, and the French Foreign Legion. With both armies still using Napoleonic weapons and tactics, early victories were won by the Basque general Zumalacarbe. After his death in 1835 a see-saw series of campaigns followed, fought by conventional armies of horse, foot and guns, supported by many irregulars and guerrillas. This little known multi-national campaign provides a fascinating postscript to the Peninsular War of 1808-14, and its uniforms present a colourful and varied spectacle.

weapons of the french foreign legion: The Paratroopers of the French Foreign Legion

Howard R. Simpson, 1999 A veteran of both the French and American wars in Vietnam provides the definitive account of this legendary band of airborne warriors

weapons of the french foreign legion: Deadly Fighting Skills of the World Steve Crawford, 1999-08-19 From the Russian spetsnaz to U.S. Navy SEALs, Crawford records some of the most dangerous and fantastic exploits and examines the skills and weaponry used by these legendary warriors. 100 illustrations. 80 photos.

weapons of the french foreign legion: The Operators Mike Ryan, 2008-05-06 Never before have the techniques and operations of special forces around the world been revealed in such fascinating detail. Journalist and soldier Mike Ryan's access to restricted information is at the heart of this extraordinary look into the world of special forces and their tactics, training, and protocols. Ryan's web of military contacts in the U.S. and Europe allows him to tell the full stories of famous special forces units (like the SAS, Delta Force, and the French Foreign Legion), to discuss their role today on an ever-changing battlefield, and to ponder their increasing use as political enforcers. Soldiers from all over the world talk candidly about the hunt for Osama bin Laden, the overthrow of Saddam Hussein, and operations in the Balkans, Somalia, and Sierra Leone. Every entry on a unit, tactic, or weapon is backed up with photographs of it in action, as well as testimony from operators in the field and a full analysis of its combat effectiveness. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

weapons of the french foreign legion: The Encyclopedia of Weapons Chris Bishop, 2006

Features multiple entries on weapons divided into four segments and is further subdivided into types of pistols, submachine guns, rifles, mortars, antitank weapons, rocket artillery and many others. Each entry contains photographs of the weapon as well as its history and background and detailed illustrations demonstrating its action.

weapons of the french foreign legion: Warrior R.G. Grant, 2007-09-17 Focusing on the front-line soldiers who fought for their tribes, their cities, their overlords and their countries--from the Ancient Greeks who repelled the invading Persians in the 5th century to the US Marines in action in Korea, Vietnam and the Persian Gulf, this visual history paints a compelling portrait of the front-line soldier through 2,500 years of history. The third in a series of illustrated military history books, following the highly successful Battle and Weapon, Warrior features vivid accounts of daily life, training, and tactics of the ordinary fighting man. There are also features on the kit they carried and the weapons they used, as well as the part they played in significant battles. In addition to celebrated soldiers of Europe and North America there are sections on equally formidable warriors from other parts of the world, such as the Mongol horsemen of the 13th century, the Aztecs, the Samurai of 17th-century Japan, New Zealand's Maori and the Zulus of South Africa. Warrior is organized into six sections, covering six distinct periods in the history of warfare: Phalanxes and

Legions deals with the warfare of Ancient Greece and Rome; Conquest and Chivalry explores the age of warriors who fought for either honor or plunder; Pikemen and Musketeers charts the advent of gunpowder in the 16th century; Empires and Frontiers deals with expansion of empires and the clashes of colonization; Trenches and Dogfights looks at the mechanized warfare of World War I and II, when the development of tanks, aeroplanes and submarines as weapons of war marks the beginning of a completely new era; and Guerillas and Commandos shows that despite the proliferation of death-dealing machines the ordinary soldier still retains a role, sometimes highly specialized, such as helicopter-borne infantry, or guerrilla forces like the Vietcong, who managed to resist the most powerful army on earth.

weapons of the french foreign legion: MP 38 and MP 40 Submachine Guns Alejandro de Quesada, 2014-07-20 Nazi Germany's MP 38 and MP 40 submachine guns are among World War II's most recognizable weapons. Portable and with folding stocks, both were widely issued to airborne troops and became the hallmark of Germany's infantry section and platoon leaders. A million were produced during the conflict – and many found their ways into the hands of paramilitary and irregular forces from Israel to Vietnam after the war. Featuring specially commissioned full-color artwork and period and close-up photographs, this is the story of the origins, combat use, and lasting influence of two of World War II's most famous firearms.

weapons of the french foreign legion: *Fighting for the French Foreign Legion* Alex Lochrie, 2009-11-19 A soldier's true story of danger and adventure as a modern-day legionnaire in Kuwait, Bosnia, and beyond. With no French language ability, Alex Lochrie approached recruiters for the French Foreign Legion in Paris and embarked on the demanding selection process that followed. When he was accepted, he and other prospective legionnaires were sent to Southern France to begin the harsh recruit training course. The mix of nationalities and backgrounds among his fellows was enormous. New members are traditionally allowed to change their identities—and Lochrie chose to alter his age, becoming twenty-eight instead of thirty-eight. Elite paratrooper training followed in Corsica before Lochrie earned his wings. The FFL is never far from the front line, and in this book he tells of challenging active service in former French colonies in Africa as well as during the first Gulf War, evicting Saddam Hussein from Kuwait, and operations in Bosnia and Sarajevo. This gripping account lifts the veil of mystery and myth, pulling you into the action—and revealing much about the realities of service in the Foreign Legion.

weapons of the french foreign legion: Donald Featherstone's Skirmish Wargaming John Curry, Donald Featherstone, 2008-09-12 Skirmish Wargaming is a classic from the history of wargaming. It was the first widespread set of popular rules for playing skirmish level battles on the table top with handfuls of figures aside. The book includes: Generic rules for skirmish wargaming Scenarios including period rules for: Vikings! (850AD) Archers in France June (1429) English Civil War Cavalry Action (1643) The Jolly Roger (1715) The 95th Rifles in the Peninsula War (1813) The French Foreign Legion in Mexico (1866) The Massacre at Isandhlwana (1879) The Old West (1888) First World War Trench Raid (1916) Street Fighting in Cassino (1944) This new edition, includes additional scenario's To Claim our Long-forgotten Gold (Fantasy, Third Age) Mining Station Sigma 9 (Science fiction, Year 3015, the far future) Guidance on how to play solo skirmish wargames Printed as part of the History of Wargaming Project www.johncurryevents.co.uk

weapons of the french foreign legion: Anomalous: The Adventures of Sherlock Holmes Samuel Williams, 2014-05-13 America's first African American heavyweight boxing champion, Jack Johnson, has a chance encounter with a mysterious Irishman, named Altamont, when they meet at the boxer's restaurant, Café de Champion, in August 1912. Johnson's new relationship with the unusual man, with beady eyes and hawk-like nose, places him in an unusual circumstance to help Altamont get out of a tough situation. In 1913, Johnson is nailed with a felony conviction in the American court system and flees to Canada, and later travels to England, to meet with fight promoters. But a stolen South African blood diamond and a grudge harbored against the

controversial boxer from the past, puts Johnson's life in peril while on British soil, reuniting him with the mysterious Altamont. Will Johnson uncover the true identity of this Irishman, and entrust his life to Altamont's care? And as the action unfurls, Johnson forms an alliance with a black British rogue and grifter, Steve Dixie, but can this man be trusted? With all the uncertainty Johnson faces in a foreign land, and for his own protection, he calls in a favour from his American Mafia cronies, finding himself in league with American teenage mobsters, Alphonse Capone and Frankie Yale. Johnson, Altamont and their entourage of companions race against the clock, not just to save Johnson's life, but to preserve the national security and future of Britain as well.

weapons of the french foreign legion: Blue Helmets and Black Markets Peter Andreas, 2011-08-15 The 1992-1995 battle for Sarajevo was the longest siege in modern history. It was also the most internationalized, attracting a vast contingent of aid workers, UN soldiers, journalists, smugglers, and embargo-busters. The city took center stage under an intense global media spotlight, becoming the most visible face of post-Cold War conflict and humanitarian intervention. However, some critical activities took place backstage, away from the cameras, including extensive clandestine trading across the siege lines, theft and diversion of aid, and complicity in the black market by peacekeeping forces. In *Blue Helmets and Black Markets*, Peter Andreas traces the interaction between these formal front-stage and informal backstage activities, arguing that this created and sustained a criminalized war economy and prolonged the conflict in a manner that served various interests on all sides. Although the vast majority of Sarajevans struggled for daily survival and lived in a state of terror, the siege was highly rewarding for some key local and international players. This situation also left a powerful legacy for postwar reconstruction: new elites emerged via war profiteering and an illicit economy flourished partly based on the smuggling networks built up during wartime. Andreas shows how and why the internationalization of the siege changed the repertoires of siege-craft and siege defenses and altered the strategic calculations of both the besiegers and the besieged. The Sarajevo experience dramatically illustrates that just as changes in weapons technologies transformed siege warfare through the ages, so too has the arrival of CNN, NGOs, satellite phones, UN peacekeepers, and aid convoys. Drawing on interviews, reportage, diaries, memoirs, and other sources, Andreas documents the business of survival in wartime Sarajevo and the limits, contradictions, and unintended consequences of international intervention. Concluding with a comparison of the battle for Sarajevo with the sieges of Leningrad, Grozny, and Srebrenica, and, more recently, Falluja, *Blue Helmets and Black Markets* is a major contribution to our understanding of contemporary urban warfare, war economies, and the political repercussions of humanitarian action.

weapons of the french foreign legion: Journal of the United States Artillery, 1936

weapons of the french foreign legion: The Black Sultan L. Ron Hubbard, 2013-03-21 American Eddie Moran is about to be captured in Morocco by the French Foreign Legion when bullets start flying at two gentlemen walking right towards him. Saving the men, Eddie learns that one is the US vice-consul, but the other is the recently deposed Berber leader, El Zidan. When a friendship forms between them, Eddie escapes the French with Zidan's help, only to be captured later and taken to the Atlas mountain stronghold of the Black Sultan, the cruel usurper of El Zidan's throne.

weapons of the french foreign legion: The Encyclopedia of the Vietnam War Bloomsbury Publishing, 2011-05-20 Now in its second edition, this comprehensive study of the Vietnam War sheds more light on the longest and one of the most controversial conflicts in U.S. history. The Vietnam War lasted more than a decade, was the longest war in U.S. history, and cost the lives of nearly 60,000 American soldiers, as well as millions of Vietnamese—many of whom were uninvolved civilians. The lessons learned from this tragic conflict continue to have great relevance in today's world. Now in its second edition, *The Encyclopedia of the Vietnam War: A Political, Social, and Military History* adds an entire additional volume of entries to the already exhaustive first edition, making it the most comprehensive reference available about one of the most controversial events in U.S. history. Written to provide multidimensional perspectives into the conflict, it covers not only the

American experience in Vietnam, but also the entire scope of Vietnamese history, including the French experience and the Indochina War, as well as the origins of the conflict, how the United States became involved, and the extensive aftermath of this prolonged war. It also provides the most complete and accurate order of battle ever published, based upon data compiled from Vietnamese sources. This latest release delivers even more of what readers have come to expect from the editorship of Spencer C. Tucker and the military history experts at ABC-CLIO.
