robin walker when we ruled: Eclairer l'Obscurité Habeeb Akande, 2014-12-01 *Eclairer l'Obscurité* (Illuminating the Darkness en anglais) traite du statut des noirs et des Nord-Africains en Islam. Le livre est divisé en deux parties: la première partie explore les concepts de race, de négritude, d'esclavage, de mariages mixtes et de racisme au sein de l'Islam et à la lumière du Coran, des Hadiths (traditions prophétiques) et de sources historiques anciennes. La seconde partie du livre est composée d'un recueil de courtes biographies de nobles musulmans noirs et Nord-Africains dans l'histoire musulmane, incluant des prophètes, des compagnons du Prophète ainsi que des personnages historiques plus récents. Cela fournit un aperçu fascinant de l'ensemble des civilisations africaines, de la résistance violente organisée contre le colonialisme et aussi des brillants savants d'une tradition souvent oubliée qui nourrissent cette histoire. Perhaps more than other men, the African in pre-colonial times developed a strong historical tradition, and his perception of himself and his world came to depend very much on his view of the past. robin walker when we ruled: Potential History Ariella Aïsha Azoulay, 2019-11-19 A passionately urgent call for all of us to unlearn imperialism and repair the violent world we share, from one of our most compelling political theorists In this theoretical tour-de-force, renowned scholar Ariella Aïsha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences. Azoulay argues that the institutions that make our world, from archives and museums to ideas of sovereignty and human rights to history itself, are all dependent on imperial modes of thinking. Imperialism has segmented populations into differentially governed groups, continually emphasized the possibility of progress while it tries to destroy what came before, and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums. By practicing what she calls potential history, Azoulay argues that we can still refuse the original imperial violence that shattered communities, lives, and worlds, from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium's brutal King Léopold II, from dispossessed Palestinians in 1948 to displaced refugees in our own day. In *Potential History*, Azoulay travels alongside historical companions—an old Palestinian man who refused to leave his village in 1948, an anonymous woman in war-ravaged Berlin, looted objects and documents torn from their worlds and now housed in archives and museums—to chart the ways imperialism has sought to order time, space, and politics. Rather than looking for a new future, Azoulay calls upon us to rewind history and unlearn our imperial rights, to continue to refuse imperial violence by making present what was invented as “past” and making the repair of torn worlds the substance of politics.

This is the second in a series of books that will be produced each year from annual conferences held on the multi-faceted issue of African liberation. The key themes of the book

explore ways of improving the effectiveness of the African Union, fostering unity amongst African countries through entrenchment of pan-Africanism, and building ownership of the African Union by the African people and their communities. In addition, the thoughts of key figures of pan-Africanism and black emancipation, such as Sylvester Williams and Franz Fanon, are re-positioned to even greater contemporary relevance. Through its promotion of Ethiopianism, pan-Africanism and the African renaissance, we trust that this book will add new interest and a fresh perspective to how Africans move forward together into a post-colonial era where policies and actions are determined by the united agency of liberated Africans the world over.

As such, this book is situated in the tradition of critical scholars as it explores the relationship between historical processes and the development of a canon, or literature that is considered as sacred or accepted. In doing so, it intricately explores the intersection of history, religion (sacred text), race relations and education. The book uncovers the origins of the human family tree and the historical context related to the emergence of sacred literature and institutionalized systems of thought and educational processes. robin walker when we ruled: The Healing Power of Self Love Oscar Bamwebaze Bamuhigire, 2009-02-06 In the field of alcoholism and drug addiction treatment, there have always been questions for which there were no satisfactory answers: Is substance abuse a problem of discipline or a disease? Why is it that most alcoholics/ drug addicts do not seek for, or receive treatment? Why is it that only 5- 10% of alcoholics/ drug addicts respond to treatment? Why do untreated addicts have a better chance at breaking the bond of addiction than addicts who get treated? Why has the incidence of recovery without the help of formal treatment continued to rise? Are the successes of Alcoholics Anonymous (A.A) nothing more than spontaneous remission? Why are some people able to quit their addiction without treatment, while others only get worse after treatment? Why does treatment have a negative effect? Why are some treatment programs more effective than others? Why has the world continued to experience a steady increase in the rate of addiction and self destruction? Why is it that 1 in 2 Americans has a diagnosable mental disorder

each year, and 81 Americans commit suicide every day? Why do non-Hispanic blacks bear a disproportionate burden of disease, injury, death, and disability? Why do the most successful treatment programs for addicts have a spiritual component? Why do non white people suffer from a high rate of substance abuse and self destruction? Why does Africa have the highest rate of suicide, poverty, and disease in the world? Why are some treatment programs more effective than others? Etc. In a unique blend of psychology, psychiatry, metaphysics, medicine, orient and western religions, The Healing Power of Self Love provides answers to these and many more questions. In making its revolutionary contribution to the scientific world, it also explains how addicts can enhance their chances of recovery from addiction through the treatment programs of their choice, by utilizing the ancient tools of discipline, lateral thinking, and insight from the life experiences of the worlds greatest leaders. Even though this book was initially designed to meet the needs of alcoholics and drug addicts in treatment, it may be of great value to people who are struggling with other types of addiction, and to those who are faced with major obstacles to their self-realization or self actualization.
