Common Finding Nemo Questions and Their Answers

1. Who Are the Main Characters in Finding Nemo?

The story primarily revolves around Marlin, a cautious clownfish who is overly protective of his son, Nemo. Nemo is a curious, adventurous young clownfish with a small fin, often called a "lucky fin." Other important characters include Dory, a regal blue tang with memory problems; Bruce, a friendly but intimidating great white shark; and Crush, the laid-back sea turtle who helps Marlin and Dory.

2. What Is the Central Theme of Finding Nemo?

At its core, Finding Nemo explores themes of parental love, overcoming fears, and self-discovery. Marlin's journey across the ocean to find his son highlights the power of perseverance and trust. Additionally, the movie subtly educates viewers about marine life and the importance of ocean conservation.

3. Why Does Marlin Overprotect Nemo?

Marlin's overprotectiveness stems from a tragic event early in the film where a predator attacked their home, resulting in the loss of his wife and other eggs. This trauma makes him fearful of the dangers lurking in the ocean, leading him to be overly cautious with Nemo.

4. How Does Nemo End Up Captured?

During a school field trip, Nemo defies his father's warnings and swims near a diver. He is then captured and placed in a fish tank in a dentist's office in Sydney. This separation sets the stage for the adventure that follows.

finding nemo questions answer key: How Google Works Eric Schmidt, Jonathan Rosenberg, 2014-09-23 Both Eric Schmidt and Jonathan Rosenberg came to Google as seasoned Silicon Valley business executives, but over the course of a decade they came to see the wisdom in Coach John Wooden’s observation that ‘it’s what you learn after you know it all that counts’. As they helped grow Google from a young start-up to a global icon, they relearned everything they knew about management. How Google Works is the sum of those experiences distilled into a fun, easy-to-read primer on corporate culture, strategy, talent, decision-making, communication, innovation, and dealing with disruption. The authors explain how the confluence of three seismic changes - the internet, mobile, and cloud computing - has shifted the balance of power from companies to consumers. The companies that will thrive in this ever-changing landscape will be the ones that create superior products and attract a new breed of multifaceted employees whom the authors dub ‘smart creatives’. The management maxims (‘Consensus requires dissension’, ‘Exile knaves but fight

for divas', 'Think 10X, not 10%') are illustrated with previously unreported anecdotes from Google's corporate history. 'Back in 2010, Eric and I created an internal class for Google managers,' says Rosenberg. 'The class slides all read 'Google confidential' until an employee suggested we uphold the spirit of openness and share them with the world. This book codifies the recipe for our secret sauce: how Google innovates and how it empowers employees to succeed.'
