A Short History of Reconstruction Eric Foner

**a short history of reconstruction eric foner** is not just the title of a seminal work in American history; it represents a transformative lens through which scholars and readers alike understand one of the most complex eras in the United States. Eric Foner, a distinguished historian, has profoundly influenced the way Reconstruction—the period following the Civil War—has been studied, taught, and appreciated. His work sheds light on the political, social, and racial upheavals that shaped America's path toward equality and justice, making the history of Reconstruction accessible and meaningful for contemporary audiences.

## Who Is Eric Foner and Why His Work Matters

Eric Foner is widely regarded as one of the foremost historians of 19th-century America, particularly the Reconstruction era. His scholarship has redefined how Reconstruction is perceived, moving away from earlier interpretations that often minimized the achievements of African Americans and downplayed the era's significance. Foner's research dives deep into the struggles for civil rights, the redefinition of freedom, and the political battles that followed the abolition of slavery.

Before Foner's groundbreaking contributions, Reconstruction was often dismissed as a failed experiment, largely blamed for corruption and chaos. However, Foner's work, especially his book *\*Reconstruction: America's Unfinished Revolution, 1863-1877\**, has become a key reference for understanding the period's complexities and its lasting impact on American society.

## The Evolution of Reconstruction Historiography

### From Dunning to Foner: Changing Perspectives

To appreciate why Eric Foner's *\*a short history of reconstruction\** is so influential, it's important to understand the historiographical context. Early 20th-century historians, notably William A. Dunning and his school, portrayed Reconstruction negatively. They argued that the era was marked by misgovernment and saw the efforts to extend rights to freed African Americans as misguided or even dangerous.

Foner challenged this narrative by emphasizing Reconstruction as a genuine revolution in terms of civil rights and democracy. He argued that the period was a crucial attempt to create an interracial democracy and to redefine freedom in America. This shift helped

reshape public understanding and academic discourse, highlighting both the era's achievements and its failures in a more balanced and nuanced way.

## Reconstruction as an Unfinished Revolution

One of Foner's key contributions is framing Reconstruction as an "unfinished revolution." Rather than viewing it as a brief, unsuccessful interlude, he presents it as a critical phase in the long struggle for racial equality and democratic inclusion. This perspective helps readers grasp why issues from Reconstruction still resonate today, particularly in discussions about voting rights, racial justice, and federal-state relations.

By describing Reconstruction this way, Foner invites readers to see the period as part of an ongoing process in American history, one where progress was made but incomplete, and where setbacks were significant but not definitive.

## A Short History of Reconstruction Eric Foner: Exploring the Book

### Accessible Yet Scholarly

Eric Foner's *A Short History of Reconstruction* is notable for balancing scholarly rigor with readability. It distills complex political, social, and economic developments into a concise and engaging narrative. This makes the book an excellent starting point for students, educators, and anyone curious about this pivotal era.

Foner walks readers through key events such as the Emancipation Proclamation, the passage of the 13th, 14th, and 15th Amendments, and the rise and fall of Radical Reconstruction governments. He also highlights the experiences of freedpeople, including their efforts to build schools, churches, and communities amidst significant resistance.

### Key Themes and Insights

Several recurring themes in Foner's short history enrich the reader's understanding:

- **Freedom and Citizenship:** Foner explores how freed slaves sought to define and claim their new freedoms, often facing violent opposition.
- **Political Power:** The struggle over who would control Southern governments and how federal authority was applied is central to the narrative.
- **Racial Violence and Resistance:** The backlash from white supremacists and

organizations like the Ku Klux Klan is examined in depth.

- **Legacy and Memory:** How Reconstruction has been remembered, forgotten, or distorted in American culture is another important aspect.

These themes help readers see Reconstruction not simply as a historical event but as a foundational moment that shaped the trajectory of American democracy.

## Why Understanding Reconstruction Through Foner's Lens Is Important Today

Reconstruction remains one of the most debated and misunderstood periods in U.S. history. By engaging with Eric Foner's *A Short History of Reconstruction*, readers gain valuable insights into the challenges of rebuilding a nation after civil war, the complex interplay of race and politics, and the long fight for civil rights.

This understanding is particularly relevant now, as contemporary America grapples with issues related to racial inequality, voting rights, and systemic injustice. Foner's work reminds us that the struggles of Reconstruction were not isolated but are deeply connected to ongoing efforts for social justice.

## Tips for Readers Exploring Reconstruction

If you're approaching Reconstruction for the first time through Foner's work or looking to deepen your knowledge, consider these tips:

1. **Contextualize the Period:** Understand the Civil War's end and the challenges of reunifying the nation.
2. **Focus on Primary Sources:** Foner often incorporates speeches, letters, and legal documents that bring voices from the era to life.
3. **Trace the Amendments:** Follow how the 13th, 14th, and 15th Amendments changed the Constitution and American society.
4. **Reflect on the Present:** Think about how Reconstruction's successes and failures inform current debates about democracy and equality.

These approaches can deepen your appreciation and make the history more personal and relevant.

# **The Broader Impact of Eric Foner's Scholarship**

Beyond *A Short History of Reconstruction*, Eric Foner's influence extends into broader discussions about American history and memory. His work encourages historians, educators, and the public to reconsider how history is taught and remembered, advocating for a more inclusive narrative that acknowledges the contributions and struggles of African Americans.

Foner's scholarship has also inspired other historians to explore Reconstruction from new angles, including gender, labor, and regional perspectives, enriching the field further. His ability to connect past and present has made him a key figure in American historical scholarship.

---

Engaging with *A Short History of Reconstruction* Eric Foner offers more than just a recounting of dates and events—it opens a window into the profound transformations and enduring challenges that have shaped the United States. Through Foner's insightful analysis, readers come away with a deeper understanding of Reconstruction's importance as both a historical era and a continuing story of striving toward justice and equality.

## **Frequently Asked Questions**

### **What is the main focus of Eric Foner's 'A Short History of Reconstruction'?**

The book focuses on the Reconstruction era in the United States, exploring the political, social, and economic changes that occurred after the Civil War, particularly regarding the integration of formerly enslaved people into American society.

### **How does Eric Foner's interpretation of Reconstruction differ from earlier historical perspectives?**

Foner challenges earlier views that portrayed Reconstruction as a failure and highlights it as a transformative period that expanded democracy and civil rights, emphasizing the agency of African Americans during this era.

### **Why is 'A Short History of Reconstruction' considered an important work in the study of American history?**

It provides a concise yet comprehensive analysis of Reconstruction, correcting misconceptions, and shedding light on the complexities of the era, making it accessible to both scholars and general readers.

## **What sources does Eric Foner use to support his narrative in 'A Short History of Reconstruction'?**

Foner utilizes a wide range of primary sources including political documents, speeches, newspapers, and personal accounts, as well as secondary scholarship to provide a balanced and well-researched history.

## **How does 'A Short History of Reconstruction' address the role of African Americans during the Reconstruction era?**

The book emphasizes African Americans' active participation in politics, education, and society, portraying them as key drivers of Reconstruction efforts rather than passive recipients of change.

## **What themes are central to Foner's 'A Short History of Reconstruction'?**

Key themes include citizenship and voting rights, racial equality, the challenges of rebuilding the South, the political struggles between different factions, and the legacy of Reconstruction in American history.

## **Can 'A Short History of Reconstruction' be used as a teaching resource?**

Yes, its clear and concise style makes it suitable for educational settings, providing students with a foundational understanding of Reconstruction and its significance in shaping modern America.

## **Additional Resources**

A Short History of Reconstruction Eric Foner: An Analytical Review of a Pivotal Work

**a short history of reconstruction eric foner** stands as a seminal text that reshaped the understanding of one of the most complex and transformative periods in American history. Eric Foner, a preeminent historian specializing in the Civil War and Reconstruction era, offers readers a concise yet profound exploration of Reconstruction's social, political, and economic dimensions. This work not only revises traditional narratives but also highlights the ongoing significance of Reconstruction in contemporary discussions about race, citizenship, and democracy.

Eric Foner's scholarship has been widely acclaimed for its depth and clarity, and "A Short History of Reconstruction" distills decades of research into an accessible format that appeals to both academic audiences and general readers. By examining this book, one gains insight into the historical nuances often overlooked in earlier accounts, which tended to marginalize the experiences of freed African Americans and understate the era's

transformative potential.

## The Context and Significance of Eric Foner's Reconstruction Narrative

Reconstruction, the period following the American Civil War from 1865 to 1877, was marked by attempts to reintegrate the Southern states into the Union and define the legal and social status of newly freed African Americans. Prior to Foner's intervention, much of the historiography reflected a Lost Cause perspective that portrayed Reconstruction as a time of misgovernment and corruption, often blaming freedmen and Northern "carpetbaggers" for the South's troubles.

Foner's "A Short History of Reconstruction" challenges this narrative by emphasizing the progressive achievements of the period, including the establishment of civil rights for African Americans, the 13th, 14th, and 15th Amendments, and the brief but significant experiment with biracial democracy. His work situates Reconstruction as a foundational moment in the ongoing struggle for racial equality and democratic inclusion in the United States.

## Key Themes and Features of the Book

One of the most notable features of Eric Foner's book is its balanced yet critical approach. It neither romanticizes Reconstruction nor dismisses its failures. Instead, Foner presents a nuanced account that acknowledges the era's contradictions:

- **Political Reconstruction:** Foner details the efforts by Radical Republicans to enforce civil rights and rebuild Southern state governments, highlighting the complexities and resistance they faced.
- **Social Change and African American Agency:** The book foregrounds the experiences of freedmen, their pursuit of education, land, and political participation, and the violent backlash they endured.
- **Economic Challenges:** Foner explores how Reconstruction impacted Southern economic structures, including the struggles over land ownership and labor systems.
- **The End of Reconstruction:** The narrative explains the gradual withdrawal of federal support, the rise of white supremacist "Redeemers," and the institutionalization of segregation.

The clarity with which these themes are woven into a cohesive narrative is a testament to Foner's expertise and pedagogical skill. His use of primary sources, legal documents, and contemporaneous accounts enriches the historical texture and supports his

interpretations.

## Comparative Perspectives: Traditional Views vs. Foner's Interpretation

To fully appreciate the impact of "A Short History of Reconstruction," it is useful to compare Foner's perspective with earlier historical interpretations:

1. **Dunning School:** Early 20th-century historians like William Archibald Dunning portrayed Reconstruction as a tragic failure, emphasizing corruption and incompetence while undermining African American contributions.
2. **Revisionist Historians:** Mid-20th-century scholars began to challenge this view, highlighting the progressive aspects of Reconstruction but often still focusing heavily on political machinations.
3. **Foner's New Interpretation:** Eric Foner synthesizes and expands revisionist insights, placing African American agency and the broader democratic implications at the center of the narrative.

This progression reflects broader shifts in historical methodology and the influence of civil rights movements, which prompted scholars to reevaluate the legacy of Reconstruction with greater sensitivity to issues of race and justice.

## The Book's Impact on Reconstruction Scholarship and Public Understanding

Since its publication, "A Short History of Reconstruction" has become a foundational text for students and historians alike. Its influence extends beyond academia:

- **Educational Use:** The book is widely adopted in college courses on American history, providing a concise yet rich overview that complements more detailed studies.
- **Public Discourse:** Foner's accessible prose and compelling arguments have helped shift public understanding, countering myths that minimize the era's achievements.
- **Policy and Memory:** The work informs debates about race relations, reparations, and the meaning of citizenship, illustrating how historical interpretation shapes modern political discourse.

The ongoing relevance of Reconstruction is underscored by contemporary struggles over voting rights and racial justice, making Foner's analysis not only historically significant but urgently contemporary.

## Analytical Insights: Strengths and Limitations of Foner's Approach

While Eric Foner's book is widely praised for its clarity and insight, a critical assessment reveals both strengths and areas for further exploration:

### Strengths

- **Conciseness and Accessibility:** The ability to condense a complex era into a short history without oversimplifying is a major strength, making the work approachable for diverse audiences.
- **Balanced Narrative:** Foner's commitment to presenting multiple perspectives, including the often-sidelined voices of African Americans, enriches the historical account.
- **Integration of Legal and Social History:** The book skillfully connects constitutional changes with social realities, illuminating how law and lived experience intersected during Reconstruction.

### Limitations

- **Scope Constraints:** By design, the brevity of the book means some regional variations and detailed case studies receive limited attention.
- **Focus on Political History:** Although social and economic aspects are covered, some critics argue that more could be done to explore cultural transformations in depth.

These limitations do not detract significantly from the work's overall value but suggest pathways for complementary reading and research.

# Conclusion: The Enduring Legacy of Eric Foner's Reconstruction History

Eric Foner's "A Short History of Reconstruction" remains a vital resource for understanding one of the United States' most turbulent and consequential periods. By reshaping historical memory and emphasizing the era's unfinished promises, the book encourages continual reflection on democracy, equality, and citizenship. Foner's balanced, well-researched narrative challenges readers to reconsider widely held assumptions and recognize Reconstruction's ongoing relevance in American history and society. For scholars, students, and general readers alike, this work provides a foundational lens through which to view the complexities and legacies of Reconstruction.

**a short history of reconstruction eric foner: A Short History of Reconstruction [Updated Edition]** Eric Foner, 2015-01-06 From the "preeminent historian of Reconstruction" (New York Times Book Review), an updated abridged edition of Reconstruction, the prize-winning classic work on the post-Civil War period which shaped modern America. Reconstruction chronicles the way in which Americans—black and white—responded to the unprecedented changes unleashed by the war and the end of slavery. It addresses the quest of emancipated slaves' searching for economic autonomy and equal citizenship, and describes the remodeling of Southern society; the evolution of racial attitudes and patterns of race relations; and the emergence of a national state possessing vastly expanded authority and one committed, for a time, to the principle of equal rights for all Americans. This "masterful treatment of one of the most complex periods of American history" (New Republic) remains the standard work on the wrenching post-Civil War period—an era whose legacy still reverberates in the United States today.

**a short history of reconstruction eric foner: A Short History of Reconstruction, Updated Edition** Eric Foner, 2015-01-06 From the "preeminent historian of Reconstruction" (New York Times Book Review), a newly updated abridged edition of the prize-winning classic work on the post-Civil War period which shaped modern America. In this updated edition of the abridged Reconstruction, Eric Foner redefines how the post-Civil War period was viewed. Reconstruction chronicles the way in which Americans—black and white—responded to the unprecedented changes unleashed by the war and the end of slavery. It addresses the quest of emancipated slaves' searching for economic autonomy and equal citizenship, and describes the remodeling of Southern society; the evolution of racial attitudes and patterns of race relations; and the emergence of a national state possessing vastly expanded authority and one committed, for a time, to the principle of equal rights for all Americans. This "masterful treatment of one of the most complex periods of American history" (New Republic) remains the standard work on the wrenching post-Civil War period—an era whose legacy still reverberates in the United States today.

**a short history of reconstruction eric foner: The Nation That Never Was** Kermit Roosevelt

III, 2023-10-17 One standard story about America is rooted in the Declaration of Independence and the Constitution. Another story concerns America's moment of reckoning after the Civil War, when it was possible to believe that the country would transcend its racist roots. Kermit Roosevelt III argues here that today, with the country increasingly riven along violent divides, we can find a path forward by shifting our benchmarks from the first story, which fostered the Confederacy, to the second. America doesn't need to find a new usable past; it already has one: we don't live in the Founders' America—we live in Lincoln's--

**a short history of reconstruction eric foner:** *In Search of a Beautiful Freedom: New and Selected Essays* Farah Jasmine Griffin, 2023-03-28 Named a Most Anticipated Book of 2023 by The Millions Lively, insightful writings on Black music, feminism, literature, and events from a “masterful critic and master teacher” (Walton Muyumba, Boston Globe). *In Search of a Beautiful Freedom* brings together the best work from Farah Jasmine Griffin’s rich forays on music, Black feminism, literature, the crises of Hurricane Katrina and COVID-19, and the Black artists she esteems. She moves from evoking the haunting strength of Odetta and the rise of soprano popular singers in the 1970s to the forging of a Black women’s literary renaissance and the politics of Malcolm X through the lens of Black feminism. She reflects on pivotal moments in recent American history—including the banning of Toni Morrison’s *Beloved*—and celebrates the intellectuals, artists, and personal relationships that have shaped her identity and her work. Featuring new and unpublished essays along with ones first appearing in outlets such as the New York Times and NPR, *In Search of a Beautiful Freedom* is a captivating collection that celebrates the work of “one of the few great intellectuals in our time” (Cornel West).

**a short history of reconstruction eric foner:** *America's Unending Civil War* William Nester, 2024-03-31 Explores the Civil War’s related and enduring conflicts of ideas and principles through four centuries of a nation’s history. The Civil War fascinates Americans like no other war in their history. Many Americans are still fighting some of the war’s issues in an Odyssey that stretches back to the first settlement and will persist until the end of time. The war itself was an Iliad of brilliant generals like Grant, Sherman, and Sheridan for the Union, or Lee, Jackson, and Forrest for the Confederacy; epic battles like Gettysburg and Chickamauga; epic sieges like Vicksburg and Petersburg; and epic naval combats such as Monitor versus Merrimack, or Kearsarge versus Alabama. It was America’s most horrific war, with more dead than all others combined. Around 625,000 soldiers and 125,000 civilians died from various causes, bringing the total to 750,000 people. Of 31 million Americans, 2.1 million northerners and 880,000 southerners donned uniforms. Why did eleven states eventually ban together to rebel against the United States? President Jefferson Davis began an answer when he said: ‘If the Confederacy falls, there should be written on its tombstone, Died of a Theory.’ That theory justified the enslavement of blacks by whites as a natural right and duty of a superior race over an inferior race; a theory, it was believed, that morally and economically elevated both races. Although slavery was the Civil War’s core cause, there were related chronic conflicts over the nature of government, citizenship, liberty, property, equality, wealth, race, identity, justice, crime, voting, power, and history – some of which issues have never entirely gone away. *America’s Unending Civil War* is unique among thousands of books on the subject. None before has explored the Civil War’s related and enduring conflicts of ideas and principles through four centuries of a nation’s history.

**a short history of reconstruction eric foner:** **A History of the Book in America** Scott E. Casper, Jeffrey D. Groves, Stephen W. Nissenbaum, David D. Hall, Michael P. Winship, 2009-09-15 Volume 3 of *A History of the Book in America* narrates the emergence of a national book trade in the nineteenth century, as changes in manufacturing, distribution, and publishing conditioned, and were conditioned by, the evolving practices of authors and readers. Chapters trace the ascent of the industrial book--a manufactured product arising from the gradual adoption of new printing, binding, and illustration technologies and encompassing the profusion of nineteenth-century printed materials--which relied on nationwide networks of financing, transportation, and communication. In tandem with increasing educational opportunities and rising literacy rates, the industrial book

encouraged new sites of reading; gave voice to diverse communities of interest through periodicals, broadsides, pamphlets, and other printed forms; and played a vital role in the development of American culture. **a short history of reconstruction eric foner: *Reconstructing the South*** Duchess Harris, Nel Yomtov, 2019-08-01 *Reconstructing the South* studies the aftermath of the Civil War, discusses how racist laws kept former slaves in inferior positions compared with whites, and explores how the actions of people in the mid-1800s continue to impact African Americans today. Features include a timeline, a glossary, further readings, websites, source notes, and an index. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO.

**a short history of reconstruction eric foner: *Dangerous Liaisons: Sex and Love in the Segregated South*** (p) Charles Frank Robinson, Charles F. Robinson II, 2003 In the South after the Civil War, segregation--and race itself--was based on the idea that interracial sex posed a biological threat to the white race. In this groundbreaking book, Charles Robinson examines how white southerners enforced antimiscegenation laws. His findings challenge conventional wisdom, documenting a pattern of selective prosecutions under which interracial domestic relationships were punished even more harshly than transient sexual encounters.

**a short history of reconstruction eric foner: *Backlash Presidents*** Julia R. Azari, 2025-09-23 How most presidents avoid upsetting the racial status quo—and why those who do pave the way for lawless, norm-violating successors When Barack Obama won the White House in 2008, becoming the nation's first Black president, the stage was set for Donald Trump's eventual rise to power. *Backlash Presidents* shows how, throughout American history, administrations that challenge the country's racial status quo are followed by presidents who deal in racially charged politics and presidential lawlessness, culminating in impeachment crises. In this incisive book, Julia Azari traces the connections between racially transformative presidents and their successors, examining the presidencies of Abraham Lincoln and Andrew Johnson, Lyndon Johnson and Richard Nixon, and Obama and Trump. When he signed long-awaited civil rights legislation in 1964, Lyndon Johnson unleashed a perfect political storm that swept Nixon into the White House. Azari demonstrates how Nixon's rhetoric, relationship to Congress, and attitudes about executive power exhibit striking parallels with Andrew Johnson and Trump. She discusses how their actions are linked to race and racialized institutions—the Department of War during Reconstruction, the FBI during the Nixon years, and elections today—and looks at what happens after impeachment, describing how the rush to establish a new order perpetuates many of the same problems as the old. Challenging the conventional wisdom about the role of norms in American democracy, *Backlash Presidents* reveals how normal presidential politics upholds unsustainable racial hierarchy that in turn gives rise to intense periods of instability.

**a short history of reconstruction eric foner: *Changing the Heart of Social Policy-Making*** Catherine E. Johnson, 2025-07-24 Effective social policy-making has been debated for decades by policy-makers, scholars, and the general public. As elected officials have lost sight of their purpose in a climate of extreme polarization and partisan politics, disappointment and distrust of our government institutions have swelled. This book highlights the importance of a change in the hearts

and minds of legislators and provides a new perspective on addressing the public's desire for more effective and humane social policies. Covering the legislative and social policy making process from a historical and contemporary perspective, this book identifies powerful interest groups and corporate dollars which influence our legislative process and erode sound policy ideas and solutions. The book also explores a new generation of youth voters which can influence election and policy outcomes; the current mental health crisis; and the importance of evidence-based research in designing social policies. Several topics are illuminated by real-life experiences, case studies and practical guidelines.

**a short history of reconstruction eric foner:** Schooling and the Politics of Disaster Kenneth J. Saltman, 2010-06-10 Schooling and the Politics of Disaster is the first volume to address how disaster is being used for a radical social and economic reengineering of education. From the natural disasters of the Asian tsunami and the hurricanes in the Gulf Coast, to the human-made disasters in Iraq, Afghanistan, Haiti, Sudan, Indonesia, the United States and around the globe, disaster is increasingly shaping policy and politics. This groundbreaking collection explores how education policy is being reshaped by disaster politics. Noted scholars in education and sociology tackle issues as far-ranging as No Child Left Behind, the War on Terror, Hurricane Katrina, the making of educational funding crises in the US, and the Iraq War to bring to light a disturbing new phenomenon in educational policy.

**a short history of reconstruction eric foner:** The Industrial Book, 1840-1880 Scott E. Casper, 2007 V. 1. The colonial book in the Atlantic world: This book carries the interrelated stories of publishing, writing, and reading from the beginning of the colonial period in America up to 1790. v. 2 An Extensive Republic: This volume documents the development of a distinctive culture of print in the new American republic. v. 3. The industrial book 1840-1880: This volume covers the creation, distribution, and uses of print and books in the mid-nineteenth century, when a truly national book trade emerged. v. 4. Print in Motion: In a period characterized by expanding markets, national consolidation, and social upheaval, print culture picked up momentum as the nineteenth century turned into the twentieth. v. 5. The Enduring Book: This volume addresses the economic, social, and cultural shifts affecting print culture from World War II to the present.

**a short history of reconstruction eric foner:** The Anti-Oligarchy Constitution Joseph Fishkin, William E. Forbath, 2022-01-11 A bold call to reclaim an American tradition that argues the Constitution imposes a duty on government to fight oligarchy and ensure broadly shared wealth. Oligarchy is a threat to the American republic. When too much economic and political power is concentrated in too few hands, we risk losing the Republican form of government the Constitution requires. Today, courts enforce the Constitution as if it has almost nothing to say about this threat. But as Joseph Fishkin and William Forbath show in this revolutionary retelling of constitutional history, a commitment to prevent oligarchy once stood at the center of a robust tradition in American political and constitutional thought. Fishkin and Forbath demonstrate that reformers, legislators, and even judges working in this "democracy of opportunity" tradition understood that the Constitution imposes a duty on legislatures to thwart oligarchy and promote a broad distribution of wealth and political power. These ideas led Jacksonians to fight special economic privileges for the few, Populists to try to break up monopoly power, and Progressives to fight for the constitutional right to form a union. During Reconstruction, Radical Republicans argued in this tradition that racial equality required breaking up the oligarchy of slave power and distributing wealth and opportunity to former slaves and their descendants. President Franklin Roosevelt and the New Dealers built their politics around this tradition, winning the fight against the "economic royalists" and "industrial despots." But today, as we enter a new Gilded Age, this tradition in progressive American economic and political thought lies dormant. The Anti-Oligarchy Constitution begins the work of recovering it and exploring its profound implications for our deeply unequal society and badly damaged democracy.

**a short history of reconstruction eric foner:** A Tough Little Patch of History Jennifer W. Dickey, 2014-04-01 Div Jennifer W. Dickey is assistant professor and coordinator, public history

program, Kennesaw State University. She is the author of *A History of the Berry Schools on the Mountain Campus* and co-editor of *Museums in a Global Context: National Identity, International Understanding*.

**a short history of reconstruction eric foner:** *Fractured* Michael Richmond, Alex Charnley, 2022-09-20 Identity politics has smeared political discourse for over a decade. The right use it to lament the loss of free speech, while many on the left bemoan that it will be the end of class politics. It has been used to dismiss movements such as Black Lives Matter and brought seemingly progressive people into the path of fascism. It has armed the march of the transphobes. In *Fractured*, the authors move away from the identity politics debate. Instead of crudely categorising race, gender and sexuality as 'identities', or forcing them under the heading of 'diversity', they argue that the interconnectedness of these groupings has always been inseparable from the history of class struggle under British and American capitalism. Through an appraisal of pivotal historical moments in Britain and the US, and a sharp look at contemporary debates, the authors tame the frenzied culture war, offering a refreshing and reasoned way to understand how class struggle is formed and creating the possibilities for new forms of solidarity in an increasingly fractured world.

**a short history of reconstruction eric foner:** *Reader's Guide to American History* Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States, offering such a wide variety of interpretations, that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The *Reader's Guide to American History* is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history.

**a short history of reconstruction eric foner:** *One Nation, One Blood* Karen Woods Weierman, 2005 The proscription against interracial marriage was for many years a flashpoint in American culture. In *One Nation, One Blood*, Karen Woods Weierman explores this taboo by investigating the traditional link between marriage and property. Her research reveals that the opposition to intermarriage originated in large measure in the nineteenth-century desire for Indian land and African labor. Yet despite the white majority's overwhelming rejection of nonwhite peoples as marriage partners, citizens, and social equals, nineteenth-century reformers challenged the rule against intermarriage. reformers held fast to the religious notion of a common humanity and the republican rhetoric of freedom and equality, arguing that God made all people of one blood. The years from 1820 to 1870 marked a crucial period in the history of this prejudice. Tales of interracial marriage recounted in fiction, real-life scandals, and legal statutes figured prominently in public discussion of both slavery and the fate of Native Americans. the 1820s, when Indian removal became a rallying cry for New England intellectuals. In Part Two, she shifts her attention to black-white marriages from the antebellum period through the early years of Reconstruction. In both cases she finds that the combination of a highly publicized intermarriage scandal, new legislation prohibiting interracial marriage, and fictional portrayals of the ills associated with such unions served to reinforce popular prejudice, justifying the displacement of Indians from their lands and upholding the system of slavery. Even after the demise of slavery, restrictions against intermarriage remained in place in many parts of the country long into the twentieth century. rule that such laws were unconstitutional. Finishing on a contemporary note, Weierman suggests that the stories Americans tell about intermarriage today - stories defining family, racial identity, and citizenship - still reflect a struggle for resources and power.

**a short history of reconstruction eric foner:** *Christian Supremacy* Magda Teter, 2023-09-12 A panoramic cultural and legal history that traces the roots of antisemitism and racism to early Christian theology Since the earliest days of Christianity, theologians expressed pervasive anxiety about Jews as equal members of society, and, with European expansion in the early modern period,

that anxiety extended to people of color. This troubling legacy still haunts us today. Christian Supremacy demonstrates how theological and legal frameworks created by the church centuries ago laid the seeds of antisemitism and anti-Black racism and reveals why Christian identity lies at the heart of the world's violent white supremacy movements. In a powerful historical narrative spanning nearly two millennia, Magda Teter describes how Christian theology of late antiquity cast Jews as "children born to slavery," and how the supposed theological inferiority of Jews became inscribed into law, creating tangible structures that reinforced a sense of Christian domination and superiority. With the dawn of European colonialism, a distinct brand of European Christian supremacy found expression in the legally sanctioned enslavement and exploitation of people of color, later taking the form of white Christian supremacy in the New World. Drawing on a wealth of primary evidence ranging from the theological and legal to the philosophical and artistic, Christian Supremacy is a profound reckoning with history that traces the roots of the modern rejection of Jewish and Black equality to an enduring Christian heritage of exclusion, intolerance, and persecution.

**a short history of reconstruction eric foner: Literature and the Nation** Brook Thomas, 1998

**a short history of reconstruction eric foner: Armies of Deliverance** Elizabeth R. Varon, 2019 In *Armies of Deliverance*, Elizabeth Varon offers both a sweeping narrative of the Civil War and a bold new interpretation of Union and Confederate war aims.

## Related to a short history of reconstruction eric foner
