frozen trivia questions and answers: The Mother Code Ruthie Ackerman, 2025-05-06 In this propulsive memoir, an award-winning journalist blends history, science, and cultural criticism to uncover whether motherhood outside of society's rigid rules and expectations is possible—and whether she fits the mold for what a mother should be. "This tender, generous book does the hard work of redefining 'motherhood' and 'family' so that they honor all aspects of a woman's life."—Christie Tate, author of the New York Times bestseller *Group* Ruthie Ackerman had long believed that the decision to not have children was a radical act. She'd grown up being told that she came from a long line of women who had abandoned their kids and feared she would pass on her half-brother's rare genetic disorder. So when she marries a man who doesn't want children, she hopes she can be happy without any. But a voice in her head keeps returning to the question: What if mothering can be a radical act too? When her marriage veers off course, she goes searching through the twists and turns of her DNA to decide once and for all whether she should become a mother. By the time Ruthie finally determines that she desperately wants a child, she learns that motherhood won't happen the way she thought it would. Now she must enter the hall of mirrors where biology, genetics, and philosophy collide as she wonders what it means to both create and nurture a life. What does inheritance really entail? What does it mean to be a "good" mother? When it comes down to it, how important is nature versus nurture? And where are the models for what a "good life" can look like for women, both with and without children? Synthesizing reportage and memoir, *The Mother Code* unravels how we've come to understand the institution of motherhood. What emerges is a groundbreaking new vision for what it means to parent: a mother code that goes beyond our bloodlines and genetics and instead urges us to embrace inheritance as the legacy we want to leave behind for those we love.

Short, 2019-09-03 100 hilarious essays, based on blindingly obvious questions, from the creators of *Geeks Who Drink*—led by six-time *Jeopardy!* champion, Christopher D. Short. The best trivia questions are usually the ones that are right on the tip of your tongue—so obvious that you may not know the answer offhand, but you should. In *Duh*, America's foremost masters of pub quiz, *Geeks Who Drink*, will take trivia lovers on a voyage through 100 of our face-palmiest questions. Along the way, we'll explore the blind hills and corners that make random knowledge so much fun. In hilarious, informative, bite-size essays, we'll explore such not-really-mysteries as: -How many stars are on the Texas state flag? -Odin is the nemesis of what kid book character? -What's the last word in the King James Bible? Even if you already know the "what"—and you might not!—we'll fill in the "why." And the when, where, and how. By the end you may feel dumber, but you'll be smarter. We almost guarantee it! By the way, that would be one (lone) star, Waldo, and "Amen." *Duh!*

frozen trivia questions and answers: *Sorry, Wrong Answer* Rod L. Evans Ph.D., 2010-06-01 Where were Venetian blinds invented? What color is the black box on a commercial airplane? Where did India ink originate? *Most of us know more than we think we know. We also think we know more than we actually do—because some of what we think we know simply ain't so. We all harbor misconceptions that are accepted not only because they are popular but also because they make sense. It makes sense to believe, for example, that German chocolate originated in Germany rather than the truth: that German chocolate is so named because it was created by Sam German. It seems logical to believe that Mercury is the hottest planet because of its proximity to the sun, or that buttermilk contains butter, that Danish pastry is from Denmark, and that the boat race America's Cup was named after the United States of America. In *Sorry, Wrong Answer*, Rod Evans takes readers on a tour of misleading trivia, debunking commonly held assumptions and sharing surprising right answers. *Answers: Japan; Orange; China

frozen trivia questions and answers: **Thank You Is Implied** Andrew Marx, 2010-07-20 Thank You is Implied, a new collection of essays by Andrew Marx, takes on wide-ranging themes from legalizing trips to the bathroom, gambling in third-rate casinos and what it takes to make the list of the sexiest songs ever written! In his own inestimable and entertaining style, Marx skewers his sex life (been there, done that), tackles celebrity culture (et tu Brett Favre?) and even devours all-you-can-eat USDA Canner grade prime rib and lives to tell about it! Culled from a 17-year writing career and his Smart ReMarx blog, the book frames the author's humorous and unrepentant take on pop culture, sports, relationships and everything else. If you are wondering who predicted the decline of Pluto, the collapse of the economy, and the end of the All American Football League, the answers are all here. Blending news reports with reviews and opinions, each article is annotated with additional commentary, anecdotes, and explanations (and a couple of apologies) from the author. Thank You is Implied will delight long time fans and newcomers alike. Featuring one of the most unique voices to come along in the last ten years, this collection will make you laugh and leave you thinking. Every article is peppered with the sharp wit and smart remarks that have made Marx's writing completely original and thoroughly satisfying.
