American Cancer Society Mastectomy Swimwear: Comfort, Confidence, and Style After Breast Cancer

american cancer society mastectomy swimwear has become a beacon of hope and empowerment for many women navigating life after breast cancer. Finding swimwear that not only fits well but also accommodates mastectomy needs can be challenging, yet it's essential for restoring confidence and enjoying life's simple pleasures, like a day at the beach or pool. The American Cancer Society recognizes the importance of specialized swimwear designed for post-mastectomy bodies, helping survivors embrace their new normal with comfort and style.

Understanding the Need for Mastectomy Swimwear

When breast cancer treatment involves a mastectomy, the body undergoes significant changes. Traditional swimwear often doesn't meet the unique needs of women who have had breast surgery, whether they've chosen reconstruction, opted for prosthetics, or decided not to replace the breast at all. This is where mastectomy swimwear comes in—it's specifically designed to accommodate differences in shape, provide support without discomfort, and offer coverage where desired.

Mastectomy swimwear typically features pockets for prostheses, soft and non-irritating fabrics, and designs that flatter the body while allowing freedom of movement. The American Cancer Society highlights the importance of such garments in helping women feel comfortable and empowered.

Why Specialized Swimwear Matters

- **Comfort and Functionality:** Post-surgical areas can be sensitive, so swimwear made with gentle, breathable materials minimizes irritation.
- **Confidence Boost:** Wearing swimwear that fits well and looks great can restore a sense of normalcy and boost self-esteem.
- **Protection and Support:** Many mastectomy suits include built-in support or pockets for breast forms, helping balance asymmetry.
- **Style Choices:** A wide range of colors, cuts, and patterns ensure that women don't have to sacrifice style for comfort.

American Cancer Society's Role in Supporting Survivors Through Swimwear

While the American Cancer Society doesn't manufacture swimwear directly, it plays a crucial role in educating survivors about options and resources. The organization often partners with brands and promotes awareness about mastectomy-friendly clothing, including swimwear. Their informative resources guide women on what to look for, how to choose the right fit, and where to find reputable brands specializing in post-mastectomy swimwear.

Educational Resources and Guidance

The American Cancer Society provides valuable tips that help survivors make informed decisions, such as:

- Understanding different types of mastectomy swimwear and which might suit individual needs.
- Learning about features like adjustable straps, built-in bras, and prosthesis pockets.
- Advice on sizing, ensuring the best fit after changes in body shape.
- Guidance on caring for delicate swimwear fabrics to prolong garment life.

Connecting Survivors with Trusted Brands

The Society often highlights trusted brands known for quality mastectomy swimwear. These brands typically focus on:

- Using soft, chlorine-resistant fabrics.
- Designing flattering silhouettes that embrace body diversity.
- Offering mix-and-match options to suit personal style and comfort.
- Providing customer service tailored to post-mastectomy needs.

This collaboration helps survivors access products that make a real difference in their daily lives.

Key Features to Look for in Mastectomy Swimwear

Choosing the right mastectomy swimwear involves more than just picking a pretty suit. Here are crucial features that make a difference:

Prosthesis Pockets

One of the most important aspects is the presence of secure pockets to hold breast forms or prostheses in place. These pockets ensure the prosthesis doesn't shift during movement, offering peace of mind while swimming or sunbathing.

Soft, Non-Chafing Fabrics

Post-surgery skin can be sensitive, so look for swimwear made from gentle materials like nylon-spandex blends or chlorine-resistant fabrics treated to minimize irritation. Seamless designs or flat seams reduce rubbing.

Adjustable Straps and Support

Adjustable straps help customize the fit, accommodating changes in body size or shape. Built-in bras or supportive linings give added comfort and help balance the silhouette.

Coverage and Style Options

From tankinis and one-piece suits to swim dresses and bikinis with high-waisted bottoms, mastectomy swimwear comes in various styles to suit personal preferences and body types. Some women prefer fuller coverage, while others enjoy more revealing options that still provide the necessary support.

Tips for Choosing and Wearing Mastectomy Swimwear

Selecting swimwear after a mastectomy is a personal journey. Here are some thoughtful tips to guide the process:

- **Try on multiple styles:** Don't settle on the first suit you try. Experiment with different cuts and brands to find what feels best.
- **Consider timing:** It's best to wait until any surgical swelling has subsided before purchasing swimwear for the most accurate fit.
- **Use accessories:** Cover-ups, hats, and scarves complement swimwear and offer additional sun protection and style.

- **Care for your suit properly:** Rinse swimwear in cold water after use and avoid harsh detergents to maintain fabric integrity.
- **Embrace your unique beauty:** Remember, swimwear is about feeling good in your skin—confidence is the best accessory.

The Impact of Mastectomy Swimwear on Survivors' Lives

For many women, being able to wear comfortable, supportive, and stylish swimwear is more than just a fashion choice—it's a vital step in reclaiming their identity and enjoying life after breast cancer. The American Cancer Society's focus on mastectomy swimwear emphasizes this connection between physical comfort and emotional well-being.

Feeling confident in swimwear can encourage survivors to engage in social activities, exercise in water, and simply relax without worry. This empowerment contributes positively to mental health and helps foster a supportive community of women who understand and share similar experiences.

Building a Supportive Community

Many survivors find comfort in connecting with others who have faced similar challenges. Online forums, local support groups, and events often feature discussions about mastectomy swimwear choices and experiences. These conversations can inspire women to try new styles and share tips, creating a sense of solidarity.

Encouraging Body Positivity After Mastectomy

Mastectomy swimwear also plays a role in the broader movement of body positivity. Celebrating diverse bodies, including those changed by surgery, encourages acceptance and self-love. The American Cancer Society's advocacy helps normalize these conversations and promotes inclusivity in fashion.

Navigating the world of swimwear after a mastectomy might seem daunting at first, but thanks to resources supported by the American Cancer Society and advances in mastectomy swimwear design, women have more options than ever before. Whether it's a relaxing day by the pool or a beach vacation, the right swimwear can make all the difference in feeling comfortable, confident, and radiant.

Frequently Asked Questions

What is American Cancer Society mastectomy swimwear?

American Cancer Society mastectomy swimwear refers to specially designed swimsuits that cater to women who have undergone mastectomy surgery, offering comfort, support, and style.

Does the American Cancer Society offer mastectomy swimwear?

While the American Cancer Society primarily focuses on cancer support and education, they recommend and sometimes collaborate with brands that provide mastectomy swimwear to support survivors.

What features should I look for in mastectomy swimwear recommended by the American Cancer Society?

Look for swimsuits with built-in pockets for prostheses, supportive fabric, adjustable straps, and designs that offer comfort and confidence post-mastectomy.

Are there specific brands endorsed by the American Cancer Society for mastectomy swimwear?

The American Cancer Society often highlights certain brands known for quality mastectomy swimwear, but they generally encourage women to find trusted retailers specializing in post-mastectomy apparel.

Where can I buy American Cancer Society mastectomy swimwear?

You can find mastectomy swimwear through specialized online retailers, local medical supply stores, and some partnerships promoted by the American Cancer Society.

Is mastectomy swimwear covered by insurance or the American Cancer Society?

Most insurance plans do not cover mastectomy swimwear, and the American Cancer Society does not provide financial assistance specifically for swimwear, but they offer resources for affordable options.

How does mastectomy swimwear help breast cancer

survivors?

Mastectomy swimwear helps survivors regain confidence, provides necessary support and comfort, and allows them to enjoy swimming and beach activities post-surgery without worry.

Can I wear prosthetic breast forms with American Cancer Society mastectomy swimwear?

Yes, mastectomy swimwear typically includes pockets designed to hold prosthetic breast forms securely and comfortably while swimming.

Are there styles of mastectomy swimwear suitable for all body types?

Yes, many brands recommended by the American Cancer Society offer a variety of styles, sizes, and fits to accommodate different body types and personal preferences.

How do I care for my mastectomy swimwear to ensure longevity?

To care for your mastectomy swimwear, rinse it thoroughly after use, hand wash with gentle detergent, and air dry away from direct sunlight to maintain fabric elasticity and support.

American Cancer Society Mastectomy Swimwear: A Comprehensive Review of Support and Style

american cancer society mastectomy swimwear represents a significant niche in adaptive clothing, designed to meet the unique needs of breast cancer survivors. As awareness of post-mastectomy care grows, so does the demand for swimwear that combines comfort, functionality, and aesthetic appeal. This article explores the evolving landscape of mastectomy swimwear, examining offerings linked to the American Cancer Society and broader market options, highlighting key features, benefits, and considerations for those seeking swimwear after breast surgery.

The Importance of Mastectomy Swimwear for Survivors

For many breast cancer survivors, returning to daily routines and activities can be challenging, especially when it comes to clothing choices. Swimwear is

an essential item that often poses both physical and emotional hurdles. Traditional swimwear seldom accommodates prosthetics or addresses the asymmetry that mastectomy patients experience. This gap has led to the emergence of specialized mastectomy swimwear, including styles promoted or supported by organizations like the American Cancer Society.

Mastectomy swimwear serves multiple purposes: it offers physical comfort by providing secure pockets for breast prostheses, supports sensitive skin and surgical sites, and helps rebuild confidence by offering flattering designs. The American Cancer Society, while primarily a health advocacy and support organization, often highlights resources and partnerships with brands that specialize in adaptive swimwear, bringing attention to the needs of their community.

Features of American Cancer Society Mastectomy Swimwear

While the American Cancer Society itself does not manufacture swimwear, it collaborates with and endorses brands that meet strict criteria for quality and patient comfort. The swimwear associated indirectly with the society typically showcases the following features:

Prosthesis Pockets and Secure Fit

One of the most critical elements in mastectomy swimwear is the inclusion of discreet prosthesis pockets. These pockets ensure that breast forms remain securely in place during swimming or other water activities. Brands affiliated with or recommended by the American Cancer Society prioritize seamless integration of these pockets to maintain the swimwear's natural shape and prevent discomfort.

Comfortable and Skin-Friendly Materials

Post-surgical skin can be sensitive, making fabric choice paramount. Mastectomy swimwear often utilizes soft, breathable, and chlorine-resistant materials like nylon blends and Lycra. These fabrics provide gentle compression and reduce irritation, which is crucial for individuals recovering from surgery or radiation therapy.

Design and Style Considerations

Gone are the days when mastectomy swimwear was purely functional and lacked

style. Contemporary designs incorporate flattering cuts, vibrant colors, and trendy patterns that empower wearers. The American Cancer Society’s focus on holistic wellness includes encouraging survivors to embrace swimwear that boosts self-esteem, not just utility.

Comparing Leading Mastectomy Swimwear Brands

A number of brands have gained recognition for their quality mastectomy swimwear collections, often cited by the American Cancer Society’s resources or partnered initiatives.

- **Anita Care:** Known for its soft-touch fabrics and expertly crafted prosthetic pockets, Anita Care offers a range of swimsuits designed to balance support and elegance.
- **Amoena:** A leader in breast form technology, Amoena’s swimwear lines incorporate patented pocket systems and UV-protective fabrics, merging health benefits with fashion-forward choices.
- **Trulife:** Trulife’s mastectomy swimwear prioritizes comfort and affordability, making it an accessible option for many survivors.
- **Jodee:** Specializing in post-mastectomy fashion, Jodee combines innovative designs with practical features, earning favorable reviews from medical professionals.

These brands often feature in American Cancer Society educational materials or survivor forums, underscoring their relevance within the community.

Pros and Cons of Popular Mastectomy Swimwear Brands

		Cons
Brand	Pros	
Anita Care	High-quality materials, excellent fit, discreet pockets	Higher price point
Amoena	Innovative designs, UV protection, wide size range	Limited color options in some lines
Trulife	Affordable, comfortable, good customer service	Less variety in styles
Jodee	Fashion-forward, good support, durable fabrics	May run small in sizing

How to Choose the Right Mastectomy Swimwear

Selecting appropriate mastectomy swimwear involves assessing both physical needs and personal preferences. Factors to consider include:

- **Fit and Support:** Ensuring the swimwear accommodates prosthetics securely without causing discomfort is paramount.
- **Fabric Quality:** Opt for materials that are gentle on the skin, quick-drying, and resistant to chlorine or saltwater damage.
- **Style Preferences:** Whether preferring one-piece suits, tankinis, or bikinis, there are options that balance fashion with function.
- **Coverage and Comfort:** Some survivors may prefer more coverage for additional protection or modesty, while others may want freedom of movement.
- **Price and Accessibility:** Budget considerations and availability through local or online retailers also play a role.

Many retailers offer customer support to help with sizing and fit, which can be invaluable given the specialized nature of mastectomy swimwear.

The Role of the American Cancer Society in Supporting Survivors' Clothing Needs

The American Cancer Society extends beyond medical support by promoting resources that enhance quality of life. Through educational programs, survivor networks, and partnerships with adaptive clothing manufacturers, the society plays an influential role in raising awareness about mastectomy swimwear options.

Survivors frequently cite the psychological benefit of properly fitting swimwear, which can significantly impact confidence during social activities. The society's advocacy efforts include publishing guides and hosting forums where survivors share experiences and recommendations about swimwear brands and styles.

Challenges and Opportunities in the Mastectomy

Swimwear Market

Despite growing awareness, challenges remain in ensuring accessibility and inclusivity in mastectomy swimwear. Some issues include:

- **Limited Retail Availability:** Not all regions have stores carrying adaptive swimwear, making online shopping crucial but sometimes complicated due to sizing uncertainties.
- **Cost Barriers:** High-quality mastectomy swimwear can be expensive, limiting options for some survivors.
- **Awareness Gaps:** Many survivors are unaware of specialized swimwear options, highlighting the need for continued education.

On the other hand, technological advances in fabric science and design innovation present promising opportunities. The increasing involvement of organizations like the American Cancer Society in endorsing and promoting these products encourages manufacturers to expand their offerings and improve affordability.

Emerging Trends in Adaptive Swimwear

Current trends indicate a move toward more inclusive sizing, sustainable materials, and multifunctional designs that transition easily from water to casual wear. Additionally, customization options are becoming more prevalent, allowing survivors to personalize fit and style according to their unique body shapes and preferences.

Final Thoughts on American Cancer Society Mastectomy Swimwear

The journey toward finding the right mastectomy swimwear involves navigating a specialized market that balances medical necessities with personal expression. While the American Cancer Society's direct product offerings may be limited, their role in facilitating access and spreading awareness is invaluable. Survivors benefit from a growing array of swimwear options designed to restore confidence and comfort, underscoring the importance of adaptive clothing in post-cancer life.

By understanding the features, brands, and market dynamics of mastectomy swimwear, individuals can make informed decisions that support both their physical well-being and emotional resilience. As awareness and innovation

continue to advance, the future holds promise for even more accessible and stylish swimwear solutions for breast cancer survivors.

american cancer society mastectomy swimwear: Counseling Women with Breast Cancer

Merle A. Keitel, Mary Kopala, 2000-07-18 This comprehensive guide for mental health practitioners and medical professionals addresses the delicate issues surrounding breast cancer and the processes involved in emotional coping and healing. Unlike other works, this volume takes a practice-oriented approach, offering readers a review of the medical, psychological and social aspects of breast cancer. Using case studies that depict women from diverse backgrounds, this text focuses on current research, interventions, psychological assessment, and addresses the concerns of women. Students and practitioners alike will appreciate this engagingly written and informative book.

american cancer society mastectomy swimwear: Dressed to Kill Sydney Ross Singer, Soma Grismaijer, 2017-10-25 THE ONLY VERSION OF THIS BOOK NOW IN PRINT & AVAILABLE In 1995 the first edition of Dressed to Kill: The Link Between Breast Cancer and Bras revealed the disturbing results of a study that showed a notable correlation between the wearing of bras and the incidence of breast cancer. The women studied who wore bras 24 hours a day were 125 times more likely to have breast cancer compared to bra-free women. Instead of experiencing interest in their research, Sydney Ross Singer and Soma Grismaijer were subjected to a barrage of mercurial assaults. Industry representatives refused to consider the results and dismissed the book out of hand. Mr. Singer even became the target of personal scrutiny. The American Cancer Society took the unusual step of issuing statements of absolute condemnation that were devoid of scientific methodology. The authors had clearly upset the status quo. But despite the continuous attacks, the evidence would not disappear. The authors were determined to get their message out. They were emboldened by people who contacted them from around the world with messages of support. New studies and research emerged that was consistent with their own research. So much so that it became clear that an updated book was needed. So vociferous are the opponents of this theory that the publisher received threats if they proceeded with publication of the book. The details of this incident are included in the book's Foreword. The second edition of Dressed to Kill: The Link Between Breast Cancer and Bras (Square One) has been updated to include: Normal0falsefalsefalseEN-USX-NONEX-NONE • Additional references to historical awareness of the bra-cancer link • Advice from British Medical Association that bras are the leading cause of breast pain and requests for breast reduction surgery • Numerous additional supportive studies not included in the first edition • A 1996 follow-up study by the authors in Fiji • Relevant research from New Zealand and Australia • Examples of industry resistance to the bra-cancer link since the release of the first edition • Analysis of opposing research designed to reassure women to wear bras Breast cysts and cancer are epidemic at this time in history. The healthcare industry says that the cause of 70 percent of all breast cancer is unknown. Dressed to Kill helps solve this mystery, explaining how one of the greatest threats to breast health is something that women do to themselves every day. This book has its roots in a personal crisis in the authors' lives, when Soma was shocked to find a lump in her breast while pregnant. Looking for clues regarding the cause of the lump led this husband-and-wife medical anthropology team to

develop a new theory and to conduct an extensive survey of nearly 5,000 United States women, half of whom had breast cancer, in an attempt to uncover a hidden cause of this devastating disease. Pioneers in the new field of Applied Medical Anthropology, Singer and Grismaijer explain their unique approach to researching and understanding the cultural causes of disease in easy-to-read language that is accessible to the layperson and professional alike. *Dressed to Kill* has already had an impact on the healthcare and fashion worlds, moving some doctors to rethink the prevention and treatment of breast disease, and some clothing designers to rethink their products. Controversial for its challenge to established custom and medical dogma, this breakthrough book is already a classic, and in this updated edition, it continues to suggest new ways of dealing with an old and all-too-common women's health issue.

american cancer society mastectomy swimwear: Another Chance at Life Leonore H. Dvorkin, 2010-05-11 In 1998, at the age of 52, I had breast cancer and a left-side mastectomy. That was my eighth major operation, but my first for the treatment of a life-threatening disease. Almost immediately after the operation, I became aware that there were unexpected benefits to be reaped from this experience, benefits which ended up changing my life and many of my attitudes. Eventually I decided to write a book detailing those many benefits and my thoughts on a variety of topics related to health, health care, self-image, and the value of courage and optimism in the face of adversity. Surviving breast cancer left me a happier, calmer, more focused, and more appreciative person. Now my principal message to other women is that breast cancer does not have to be an entirely negative, terror-inducing experience. On the contrary, it can leave them better off than they were before, both physically and emotionally. I know, because it happened to me. My book is primarily the story of that physical and emotional journey. The five appendices offer a wealth of practical information on risk factors for breast cancer, ways to help prevent it, and much more.

american cancer society mastectomy swimwear: The Promise of Tomorrow Diane Bifano, 2014-06-06 The Promise of Tomorrow: Embracing Life When Facing Illness flies above the face of cancer and defies the fear that so often accompanies it. From chemo to hair loss and the drone of an MRI machine, this author poetically expresses an incredible view of living with illness. As part of her recovery and healing, Diane shares hope, love and a positive will to embrace life in order to go on. There's a poem at the beginning of this collection - "It's just a breast: It's NOT just a breast." The words are riveting and real. That ultimately is the feeling that comes over me, page by page, as I read this book ... Within this book can be found poignant glimpses of what it means to be truly human and fully responsive to whatever LIFE brings our way. Minx Boren MCC - Master Certified Coach, motivational speaker, author of 5 books of poetry Our inner conflicts are seldom outered beyond a hint to a close friend or to a therapist. Diane Bifano turns herself inside out for us. The rich imagery of her poetry illuminates an eerie world of disease and treatment, bringing understanding far more intense than mere vicarious experience. Though we descend to a nadir of surreal tests, medicines, and anguish, somehow we are lifted to hope, beauty, and renewal. Dr. Roxanne Solomon, Adjunct Professor, Palm Beach State College

american cancer society mastectomy swimwear: Maternity Nursing - Revised Reprint Deitra Leonard Lowdermilk, RNC, PhD, FAAN, Shannon E. Perry, RN, PhD, FAAN, Mary Catherine Cashion, RN, BC, MSN, 2013-11-25 Designed to meet the needs of today's students, Lowdermilk's *Maternity Nursing*, 8th Edition - Revised Reprint addresses the fundamentals of maternity nursing with a concise, focused presentation of the care of women during the childbearing years. Integrating considerations for family, culture, and health promotion into the continuum of care, it also addresses community-based care to emphasize that nursing care takes place in many settings. *Maternity Nursing* focuses on childbearing issues and concerns, including care of the newborn, as well as wellness promotion and management of common women's health problems. Critical thinking exercises present case studies of real-life situations and corresponding critical thinking questions to help you develop your analytical skills. NEW! A helpful appendix identifies text content that reflects the QSEN competencies - patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety, and informatics - to assist you in developing competencies to provide safe and effective nursing care. NEW! Focus on the family recognizes the nurse's need to integrate the family in the care of the mother and newborn and the importance of the role of the mother to the wellbeing of the family. NEW! Content updates throughout, including information on the late preterm infant and associated concerns such as feeding; guidelines on prioritization and delegation where relevant; and centering pregnancy, a new model of health care that brings women together in groups for their care. NEW! Evidence-based practice content focuses your attention on how to use current research to improve patient outcomes. NEW! Improved readability helps you learn more efficiently with shorter, more focused content discussions. NEW! 21st Century *Maternity Nursing: Culturally Competent, Community Focused* chapter combines introductory material, culture, and community into one chapter to help you focus on key content and concepts. NEW! Streamlined content highlights the most essential, need-to-know information.

american cancer society mastectomy swimwear: *Beauty without the Breast* Felicia Marie Knaul, 2013-01-14 Knaul documents the personal and professional sides of her experience with breast cancer. She contrasts her own journey with that of women throughout the world who face stigma, discrimination, and lack of access to health care and also shares striking epidemiological data about breast cancer, a leading killer of young women in developing countries.

american cancer society mastectomy swimwear: Healing Pretty Jacqueline Apostol-Pizzuti, 2020 *Healing Pretty* is the inspirational and practical guide that will show you how to walk down this unexpected path with confidence. Jackie Apostol-Pizzuti takes away the fear of the unknown and gently guides you on everything from hair, to skincare, to makeup, to health, to sex, to exercise, to treatment friendly clothing and accessories. She gives you a real picture of what to expect pre-and post-surgery, and the best options to comfortably get you through the side-effects of chemotherapy and radiation. She's pulled together her professional expertise, with the advice of medical experts and the experiences of the thousands of cancer warriors she works with every day. This compilation of expert advice, invaluable tools, handy resources, and personal stories is the ultimate head-to-toe guide to self-care and well-being while you face cancer.

american cancer society mastectomy swimwear: The Breast Cancer Digest National Cancer Institute (U.S.). Office of Cancer Communications, 1979

american cancer society mastectomy swimwear: Gender and Thought: Psychological Perspectives Mary Crawford, Margaret Gentry, 2012-12-06 In this volume, gender serves as a general framework for analyzing the ways people think about mathematical performance, language, self-concept, social categories, and methods and ways of knowing and creating knowledge. A distinguished group of authors shows how various forces in language, family practices, and education reinforce differentiation among the sex roles. This volume attempts to bridge this gap between difference and equality by revitalizing and reinterpreting the concept of gender differences. *Gender and Thought* places research on women and gender at the heart of many important areas of scholarly inquiry.

american cancer society mastectomy swimwear: Handbook of Counseling Women Mary Kopala, Merle Keitel, 2016-10-06 *The Handbook of Counseling Women*, edited by Mary Kopala and Merle Keitel, draws together a nationally recognized group of contributing scholars and practitioners to address current theories, research, and issues relevant to the mental and physical well-being of women. Comprehensive and accessible, the Second Edition is organized into three parts covering theoretical, sociocultural, biological, and developmental considerations; assessment, diagnosis, and intervention; and supervision, research, and ethics. The reorganization of this new edition includes more sections and chapters giving special attention to such topics as women and poverty, intimate partner violence, women's career barriers, and considerations for specific ethnic groups.

american cancer society mastectomy swimwear: Celebrating Life Decades After Breast Cancer Beverly McKee, 2015-10-01 Imagine the hope and comfort you will feel surrounded by forty inspiring breast cancer survivors as they share stories of celebrating life twenty, forty, even fifty years after diagnosis. You'll be welcomed into an inner circle of support as each woman shares her personal journey through breast cancer and insight about why she believes she has thrived for decades beyond diagnosis. Whether you are a survivor, caregiver, family, friend, or part of an oncology team, this book will help quiet fear, calm anxiety, and offer the priceless gift of hope. Beverly McKee, MSW, LCSW, is a mental health therapist and Stage III breast cancer survivor. She was inspired to compile this powerful collection of stories after planning a party set for October 17, 2052, exactly forty years in the future from the date of her own diagnosis. You are invited to meet these unforgettable women during a worldwide book tour! For details and to learn how you can join an exclusive online book club visit www.BeverlyMcKee.com.
