the girl who loved tom gordon pop up: *Screening Stephen King* Simon Brown, 2018-02-28 "Gathers together the unruly mess of King adaptations . . . And places it within the sociocultural and industrial context of four decades of horror." —Philip L. Simpson, author of *Psycho Paths* Starting from the premise that Stephen King has transcended ideas of authorship to become his own literary, cinematic, and televisual brand, *Screening Stephen King* explores the impact and legacy of over forty years of King film and television adaptations. Simon Brown first examines the reasons for King's literary success and then, starting with Brian De Palma's *Carrie*, explores how King's themes and style have been adapted for the big and small screens. He looks at mainstream multiplex horror adaptations from *Cujo* to *Cell*, low-budget DVD horror films such as *The Mangler* and *Children of the Corn* franchises, non-horror films, including *Stand by Me* and *The Shawshank Redemption*, and TV works from *Salem's Lot* to *Under the Dome*. Through this discussion, Brown identifies what a Stephen King film or series is or has been, how these works have influenced film and TV horror, and what these influences reveal about the shifting preoccupations and industrial contexts of the post-1960s horror genre in film and TV. "Well-written . . . It really is the most exhaustive analysis of Stephen King on the screen that has ever been written." —Cinepunx "This book is not only essential as a study of Stephen King and his works adapted to the big and small screen; it is also an exemplary study of the evolution of the horror genre in its ebb and flow from literary adaptation to gore-laden saturation and beyond since the mid-1970s." —Sorcha Ní Fhlainn, author of *Postmodern Vampires*

the girl who loved tom gordon pop up: *Consumerism and Prestige* Anthony Enns, Bernhard Metz, 2022-07-05 This anthology explores the relationships and interdependencies

between literary production and distinctions of taste by examining how the material aspects of literary texts, such as the cover, binding, typography and paper stock, reflect or even determine their cultural status. In many cases, for example, the distinctions between “highbrow” and “lowbrow” taste have little to do with the content of the texts themselves, as books often function as markers of socioeconomic status, like clothing or home décor. One might even go so far as to say that the concept of literary taste is more closely related to fashion sense than critical judgment. The anthology seeks to address this claim by examining how the tensions between consumerism and prestige reflect fundamental historical changes with regard to the development of technology, literacy and social power.

the girl who loved tom gordon pop up: Stephen King's Contemporary Classics Philip L. Simpson, Patrick McAleer, 2014-11-13 Many readers know Stephen King for his early works of horror, from his fiction debut *Carrie* to his blockbuster novels *The Shining*, *The Stand*, and *Misery*, among others. While he continues to be a best-selling author, King’s more recent fiction has not received the kind of critical attention that his books from the 1970s and 1980s enjoyed. Recent novels like *Duma Key* and *1/22/63* have been marginalized and, arguably, cast aside as anomalies within the author’s extensive canon. In *Stephen King’s Contemporary Classics: Reflections on the Modern Master of Horror*, Philip L. Simpson and Patrick McAleer present a collection of essays that analyze, assess, and critique King’s post-1995 compositions. Purposefully side-stepping studies of earlier work, these essays are arranged into three main parts: the first section examines five King novels published between 2009 and 2013, offering genuinely fresh scholarship on King; the second part looks at the development of King’s distinct brand of horror; the third section departs from probing the content of King’s writing and instead focuses on King’s process. By concentrating on King’s most recent writings, this collection offers provocative insights into the author’s work, featuring essays on *Dr. Sleep*, *Duma Key*, *The Girl Who Loved Tom Gordon*, *Joyland*, *Under the Dome*, and others. As such, *Stephen King’s Contemporary Classics* will appeal to general fans of the author’s work as well as scholars of Stephen King and modern literature.
