What Makes the Tuskegee Airmen Story So Important?

Before diving into the worksheet itself, it's worth understanding why the Tuskegee Airmen hold such a significant place in American history. During World War II, the U.S. military was racially segregated, and African Americans were largely excluded from combat roles, especially in aviation. The Tuskegee Airmen were the first Black military aviators in the U.S. Army Air Corps, trained at the Tuskegee Army Air Field in Alabama.

Despite facing extreme prejudice and doubt about their capabilities, these pilots proved their skill and courage, flying numerous combat missions and earning distinguished honors.

Their success helped to challenge segregation and laid the groundwork for the eventual integration of the U.S. Armed Forces.

tuskegee airmen reading comprehension worksheet: *Father of the Tuskegee Airmen, John C. Robinson* Phillip Thomas Tucker, 2012-02-01 Across black America during the Golden Age of Aviation, John C. Robinson was widely acclaimed as the long-awaited “black Lindbergh.” Robinson’s fame, which rivaled that of Joe Louis and Jesse Owens, came primarily from his wartime role as the commander of the Imperial Ethiopian Air Force after Italy invaded Ethiopia in 1935. As the only African American who served during the war’s entirety, the Mississippi-born Robinson garnered widespread recognition, sparking an interest in aviation for young black men and women. Known as the “Brown Condor of Ethiopia,” he provided a symbolic moral example to an entire generation of African Americans. While white America remained isolationist, Robinson fought on his own initiative against the march of fascism to protect Africa’s only independent black nation. Robinson’s wartime role in Ethiopia made him America’s foremost black aviator. Robinson made other important contributions that predated the Italo-Ethiopian War. After graduating from Tuskegee Institute, Robinson led the way in breaking racial barriers in Chicago, becoming the first black student and teacher at one of the most prestigious aeronautical schools in the United States, the Curtiss-Wright Aeronautical School. In May 1934, Robinson first planted the seed for the establishment of an aviation school at Tuskegee Institute. While Robinson’s involvement with Tuskegee was only a small part of his overall contribution to opening the door for blacks in aviation, the success of the Tuskegee Airmen—the first African American military aviators in the U.S. armed forces—is one of the most recognized achievements in twentieth-century African American history.

Black troops were at Normandy, Iwo Jima, and the Battle of the Bulge, serving in segregated units while waging a dual battle against inequality in the very country for which they were laying down their lives. The stories of these Black veterans have long been ignored, cast aside in favor of the myth of

the “Good War” fought by the “Greatest Generation.” And yet without their sacrifices, the United States could not have won the war. *Half American* is World War II history as you’ve likely never read it before. In these pages are stories of Black military heroes and civil rights icons such as Benjamin O. Davis Jr., the leader of the legendary Tuskegee Airmen, who fought to open the Air Force to Black pilots; Thurgood Marshall, the chief lawyer for the NAACP, who investigated and publicized violence against Black troops and veterans; poet Langston Hughes, who worked as a war correspondent for the Black press; Ella Baker, the civil rights leader who advocated on the home front for Black soldiers, veterans, and their families; and James G. Thompson, the twenty-six-year-old whose letter to a newspaper laying bare the hypocrisy of fighting against fascism abroad when racism still reigned at home set in motion the Double Victory campaign. Their bravery and patriotism in the face of unfathomable racism is both inspiring and galvanizing. An essential and meticulously researched retelling of the war, *Half American* honors the men and women who dared to fight not just for democracy abroad but for their dreams of a freer and more equal America.
