october 10 in history: History of the Third Seminole War, 1849-1858 Joe Knetsch, John Missall, Mary Lou Missall, 2018-01-15 This definitive account of the final war between the US government and Florida's Seminole tribe "brings to life a conflict that is largely ignored" (San Francisco Book Review). Spanning a period of over forty years (1817-1858), the three Seminole Wars were America's longest, costliest, and deadliest Indian wars, surpassing the more famous ones fought in the West. After an uneasy peace following the conclusion of the second Seminole War in 1842, a series of hostile events, followed by a string of murders in 1849 and 1850, made

confrontation inevitable. The war was also known as the “Billy Bowlegs War” because Billy Bowlegs, Holata Micco, was the central Seminole leader in this the last Indian war to be fought east of the Mississippi River. Pushed by increasing encroachment into their territory, he led a raid near Fort Myers. A series of violent skirmishes ensued. The vastness of the Floridian wilderness and the difficulties of the terrain and climate caused problems for the army, but they had learned lessons from the second war, and, amongst other new tactics, employed greater use of boats, eventually securing victory by cutting off food supplies. History of the Third Seminole War is a detailed narrative of the war and its causes, containing numerous firsthand accounts from participants in the conflict, derived from virtually all the available primary sources, collected over many years. “Any reader interested in learning more about Indian wars, Army history, or Florida history will profit from reading this book,” as well as Civil War enthusiasts, since many of the officers earned their stripes in the earlier conflict (The Journal of America’s Military Past).

october 10 in history: Intrepid's Fighting Squadron 18 Michael I. Fink, 2025-01-14 USS Intrepid’s Fighting Squadron 18 (VF-18) was one of the U.S. Navy’s highest-scoring carrier units of World War II. Despite having only one combat veteran in its roster, its aviators—including Cecil “Speedball” Harris, the Navy’s second-ranking ace—were credited with shooting down more than 170 planes during their 81-day tour of duty, earning the squadron the nickname “Two-a-Day 18” in newspapers nationwide. How did a novice unit with a comparatively short time in theater accomplish such a feat? To answer this question, Intrepid’s Fighting Squadron 18 follows squadron members through training, into combat, and finally to the end of their harrowing stories—whether they took the return trip home or made the ultimate sacrifice. Drawing extensively on archival and family collections, author Mike Fink reveals the personalities of these men and the binding friendships they built. “Moe” Mollenhauer, Fighting 18’s youngest pilot, had a score to settle with the Japanese. Outspoken “Punchy” Mallory incredibly was reprimanded for shooting down enemy planes. And the squadron’s best-known figure, Cecil “Speedball” Harris, took the lead in preparing his peers for war

before they took their place at the tip of the Navy's spear. Intrepid's Fighting Squadron 18 is as much about the bonds these young men formed as it is about Pacific War history. The men of Fighting 18 joined the Navy's massive fast-carrier force in August 1944—just in time to participate in the last great air and sea battles in the Pacific. They were one of the first squadrons to engage Japan's massive battleship force during the Battle of Leyte Gulf, racked up incredible scores and suffered devastating losses during the Formosa Air Battle, and bore witness to an unthinkable new weapon—the kamikaze suicide attack—as the war entered its desperate endgame. Ultimately, Intrepid's Fighting Squadron 18 showcases the powerful impact of war on those who fight it and sheds light on the impact of those men on the war itself.
