Ryder agrees to search for her, but an early snowstorm threatens to replace the warm fall temperatures. His scent dog, Grace has never worked in cold and snowy conditions. THEN EVERYTHING GOES WRONG. The snow blurs the landscape and grinds life to a halt. As Maggie O'Dell searches for answers about the victim, she begins to uncover a cold-blooded, ruthless killer who has murdered before. By the time Maggie realizes no one has heard or seen Ryder since before the snow began to fall, she fears he and Grace may have walked into the killer's path. Reading Alex Kava for the first time? a necessary evil alex kava: *Silent Creed* Alex Kava, 2015-07-28 Ryder Creed and his K9 search-and-rescue dogs return in the second installment of this exciting series, teaming up once more with FBI profiler Maggie O'Dell in their riskiest case yet. When Ryder Creed responds to a devastating mudslide in North Carolina, he knows that the difference between finding survivors and the dead is time. He and his sturdiest search-and-rescue dog, Bolo, get to work immediately, but the scene is rife with danger: continued rainfall prevents the rescue teams from stabilizing the land;

toxic household substances spread by the crushing slide fill the area with hazardous waste; and the detritus and debris are treacherous for both man and dog to navigate. But most perilous are the secrets hidden under the mud and sludge—secrets someone would kill to protect. For this is no ordinary rescue mission. Among the buildings consumed by the landslide was a top-secret government research facility, and Creed has been hired to find what's left of it. Then rescuers recover the body of a scientist from the facility who was obviously dead before the landslide—killed by a gunshot to the head. The FBI sends Agent Maggie O'Dell to investigate, and she and Creed are soon caught in a web of lies, secrets, and murder that may involve not only the government facility, but decades-old medical experiments that are the subject of current congressional hearings. As more bodies are found under even more unusual circumstances, they come ever closer to exposing the truth—but with unknown forces working against them, Maggie, Creed, and the dogs are running out of time.
